

iFkoo F20

iFkoo Phone Stand with Bluetooth Speaker & Clock User Manual

Model: F20 | Brand: iFkoo

1. INTRODUCTION

This user manual provides comprehensive instructions for the operation, maintenance, and troubleshooting of your iFkoo Phone Stand with Bluetooth Speaker & Clock. Please read this manual thoroughly before using the product to ensure proper function and safety.

The iFkoo Phone Stand with Bluetooth Speaker & Clock is a versatile device combining a phone stand, Bluetooth speaker, digital LED clock, and gradient LED atmosphere light. It is designed for convenience and entertainment in various settings.

2. PRODUCT OVERVIEW

2.1 Package Contents

- Cell phone stand with Bluetooth speaker
- USB charging cable
- User Manual
- USB-A to USB-C adapter (2 units)

2.2 Product Components

Refer to the diagram below for an overview of the product's main components and controls.

Product Information

Figure 2.2.1: Product Components and Controls

1. Power on/off button
2. Last Song/Volume Down button
3. Pause/Play button
4. Next Song/Volume Up button
5. LED Light/Brightness of Clock button
6. Charging Port (DC IN 5V)

This image displays the top and side views of the iFkoo F20 phone stand with Bluetooth speaker, highlighting its key features and dimensions. The top view shows the speaker grille, control buttons (Power, Previous/Volume Down, Play/Pause, Next/Volume Up, Dimmer), and the phone stand mechanism. The side view illustrates the adjustable angle of the phone stand and the charging port. Dimensions are indicated as 3.07 inches width (top view) and 5.13 inches length by 5.11 inches height (side view). The digital clock display is visible on the front.

3. SETUP

3.1 Initial Charging

Before first use, fully charge the device. Connect the provided USB charging cable to the DC IN 5V port on the device and the other end to a compatible USB power source (e.g., computer USB port, wall adapter).

The LED indicator will show charging status.

3.2 Adjusting the Phone Stand

The phone stand is adjustable to provide optimal viewing angles. Gently pull the upper part of the stand upwards to extend it, and adjust the angle as desired. Ensure your phone is securely placed in the cradle.

Figure 3.2.1: Phone Stand in Use

This image shows the iFkoo F20 phone stand with a smartphone securely placed in landscape orientation, displaying a video. The device's digital clock shows "14:39" and musical notes are depicted emanating from the speaker, illustrating its multimedia capabilities. The stand is black with a textured grey backrest for the phone.

Cell Phone Stand with Bluetooth Speaker

Figure 3.2.2: Phone Stand in Portrait Mode

This image features the iFkoo F20 phone stand holding a smartphone in portrait orientation, displaying a video call. The digital clock shows "16:20". The stand's design allows for stable vertical placement, suitable for video conferencing or browsing. The background suggests a home or office setting.

4. OPERATING INSTRUCTIONS

4.1 Power On/Off

Press and hold the **Power On/Off** button (1) for 3 seconds to turn the device on or off.

4.2 Bluetooth Pairing

1. Ensure the device is powered on.
2. The device will automatically enter Bluetooth pairing mode, indicated by a flashing "BT" on the LED display.
3. On your smartphone or tablet, enable Bluetooth and search for "F20".
4. Select "F20" from the list of available devices to pair. A successful connection will be confirmed by an audible prompt and a solid "BT" on the display.

The device is compatible with most 4-13 inch smartphones and tablets, including iPhone, Samsung Galaxy, Switch, iPads, and Kindle devices.

Figure 4.2.1: Bluetooth Music Playback

This image shows the iFkoo F20 phone stand holding a smartphone that is playing music, indicated by the music playback interface on the screen. The digital clock displays "1:32". The speaker grille is visible, suggesting active audio output. The setup is suitable for enjoying music or podcasts while keeping the phone accessible.

4.3 Music Playback Controls

- Press the **Play/Pause** button (3) to play or pause music.
- Press the **Previous Song/Volume Down** button (2) once for the previous track, or press and hold to decrease volume.
- Press the **Next Song/Volume Up** button (4) once for the next track, or press and hold to increase volume.

4.4 Digital LED Clock

The device features a digital LED clock. When connected via Bluetooth, the clock will automatically synchronize with your mobile device's time. The clock does not have an alarm function.

To adjust the brightness of the LED clock display, press the **LED Light/Brightness of Clock** button (5). There are three brightness modes: slight, medium, and strong.

Wide Compatibility for Most 4-13" Devices

Figure 4.4.1: LED Clock Brightness Modes

This composite image illustrates the three adjustable brightness levels of the LED clock on the iFkoo F20 phone stand. From left to right, the clock displays "18:15" at slight brightness, medium brightness, and strong brightness, demonstrating the visual difference for each setting. A smartphone is shown on the stand in each panel, suggesting typical usage scenarios.

4.5 Gradient LED Atmosphere Light

The device includes a gradient LED atmosphere light integrated into the speaker area. This light provides a warm night atmosphere. Press the **LED Light/Brightness of Clock** button (5) to cycle through light modes or turn the light off.

Figure 4.5.1: Gradient LED Light in Use

This image highlights the colorful LED light feature of the iFkoo F20 phone stand's speaker. The speaker grille emits a vibrant, multi-colored glow, creating an atmospheric effect. A smartphone is positioned on the stand, and the digital clock

displays "1:32". The image emphasizes the aesthetic appeal of the integrated lighting.

4.6 USB Connectivity

The device features a USB port for additional connectivity. You can use the provided USB-A to USB-C adapters to connect various devices or accessories.

Figure 4.6.1: USB Port Usage

This image shows the iFkoo F20 phone stand with a USB flash drive inserted into its side USB port, demonstrating its expandability. A smartphone is on the stand, displaying a music player interface. The digital clock shows "16:05". This illustrates the device's capability to connect external storage or other USB accessories.

5. MAINTENANCE

5.1 Cleaning

Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or solvents. Ensure the device is powered off and disconnected from any power source before cleaning.

5.2 Storage

Store the device in a cool, dry place away from direct sunlight and extreme temperatures. When not in use for extended periods, ensure the battery is partially charged (around 50%) to prolong its lifespan.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on.	Low battery.	Charge the device fully.
Cannot pair via Bluetooth.	Bluetooth not enabled on source device; device too far; interference.	Ensure Bluetooth is on and device is within range (10m); restart both devices.
No sound from speaker.	Volume too low; device not paired; audio source paused.	Increase volume on both devices; re-pair Bluetooth; check audio source playback.
Clock time is incorrect.	Not synced with Bluetooth device.	Ensure Bluetooth is connected to a mobile device for automatic time synchronization.
