FLAIROSOL F4AUS090M001

FLAIROSOL MyStyle F4AUS090M001 Spray Bottle User Manual

90ml Ultra-Fine Continuous Mist Spray Bottle

1. PRODUCT OVERVIEW

The FLAIROSOL MyStyle spray bottle is designed to deliver an ultra-fine, continuous mist for various applications. Its compact and lightweight design makes it suitable for both home use and travel. This manual provides instructions for proper setup, operation, maintenance, and troubleshooting.

Image 1.1: FLAIROSOL MyStyle 90ml Spray Bottle and Packaging.

Key Features:

- **Ultra-Fine Continuous Mist:** Utilizes advanced pre-compression technology and a Dutch-patent atomization nozzle for a gentle, even spray.
- **Compact & Travel-Ready:** 90ml capacity (3.04oz) fits within carry-on luggage restrictions, featuring a safety lock to

prevent accidental spraying.

- **Leak-Proof & Easy Refill:** Secure threaded locking system and innovative twist-top design for effortless refilling.
- **Ergonomic Design:** Comfortable grip for easy trigger operation without hand fatigue.
- **Multi-Functional:** Suitable for hair care, face misting, cleaning, and other water-based liquid applications.

2. SETUP AND FIRST USE

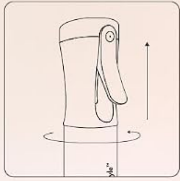

Follow these steps to prepare your FLAIROSOL MyStyle spray bottle for use.

2.1 Filling the Bottle

1. **Step 1:** Slightly press the spray head down with your hand, and turn it anti-clockwise 90 degrees to unlock and remove.
2. **Step 2:** Fill the bottle with your desired water-based liquid. Do not fill with viscous (thick and oily) liquids, as this may clog the nozzle.
3. **Step 3:** Place the head back onto the bottle, turn clockwise 90 degrees until the trigger is pointing forward and the bayonet connection is engaged, ensuring a secure, leak-proof seal.

EASY REFILL

SPRAYING BOTTLE

STEP 1

Slightly press the spray head down with your hand, and turn anti-clockwise 90°

STEP 2

Fill the bottle with liquid

STEP 3

Place the head back onto the bottle, turn clockwise 90° until the trigger is pointing forward and the bayonet connection is engaged

STEP 4

When using for the first time, squeeze the trigger up to 10 times to prime the system and start spraying

Image 2.1: Easy Refill Steps for the Spray Bottle.

2.2 Priming the System

When using the spray bottle for the first time, or after refilling, it is necessary to prime the system:

- **Step 4:** Squeeze the trigger up to 10 times until a continuous mist begins to spray. This action primes the internal mechanism.

3. OPERATING INSTRUCTIONS

3.1 Spraying

Once primed, simply press the trigger to release a continuous, ultra-fine mist. The ergonomic design allows for comfortable, single-handed operation.

Ultra-Fine Continuous Mist

Gentle on the face with no over-wetting

3.2 Safety Lock

The bottle features a top safety lock mechanism to prevent accidental spraying, especially useful during travel or when stored in a bag.

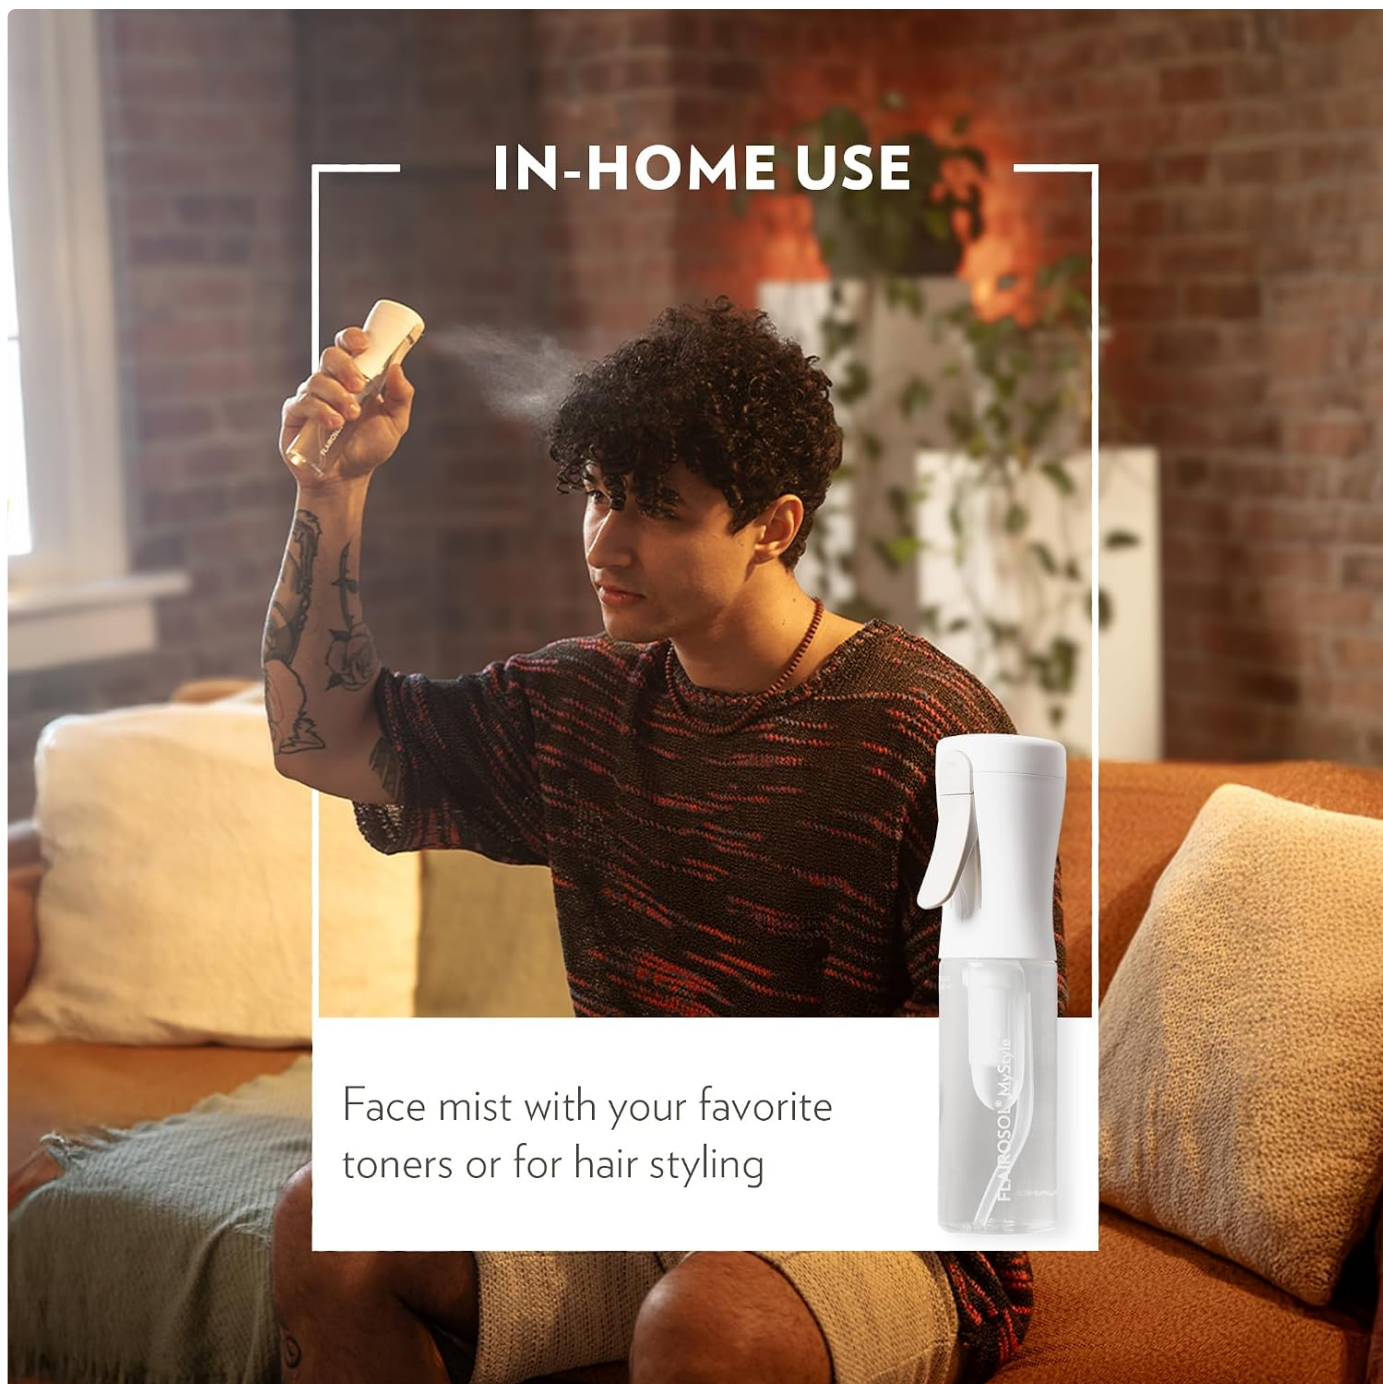

- To **lock** the spray bottle, slide the small lever on top of the trigger mechanism to the designated lock position.
- To **unlock**, slide the lever back to the open position.

3.3 Recommended Uses

- **Hair Styling:** Dampen hair evenly for cutting, styling, or refreshing curls.
- **Face Misting:** Apply toners, rose water, or simply water for hydration and refreshment.
- **Cleaning:** Ideal for light cleaning tasks with water or water-based cleaning solutions.
- **Plant Care:** Gently mist delicate plants.
- **Travel:** Convenient for on-the-go refreshment and beauty routines.

4. MAINTENANCE

4.1 Cleaning

- The FLAIROSOL MyStyle spray bottle is designed for **Hand Wash Only**.
- To clean, empty any remaining liquid. Fill the bottle with clean water and spray until the water runs clear to flush the nozzle and internal components.
- Wipe the exterior with a damp cloth.
- Do not use abrasive cleaners or put the bottle in a dishwasher.

4.2 Storage

Store the bottle in a cool, dry place away from direct sunlight when not in use. Ensure the safety lock is engaged if

transporting.

5. TROUBLESHOOTING

If you encounter issues with your FLAIROSOL MyStyle spray bottle, refer to the following common solutions:

Problem	Possible Cause	Solution
No spray or inconsistent spray	Not primed; clogged nozzle; low liquid level; safety lock engaged.	Ensure safety lock is disengaged. Squeeze trigger 5-10 times to prime. Check liquid level. If using viscous liquids, empty and clean the nozzle by spraying clean water.
Leaking from the top	Spray head not securely attached; damaged seal.	Ensure the spray head is twisted clockwise 90 degrees until fully engaged. Check the seal for any visible damage.
Mist is not fine or continuous	Nozzle partially clogged; air in the system.	Prime the system by spraying several times. Clean the nozzle by spraying clean water. Avoid using viscous liquids.
