2. Setup Guide

2.1 Unboxing and Initial Inspection

Upon receiving your Solong Wireless Tattoo Gun Kit, carefully unbox all components and inspect them for any damage. Ensure all items listed in the kit contents are present.

Video 1: An overview of the tattoo machine kit contents and initial setup steps.

Video 2: Demonstration of unboxing and preparing a tattoo pen kit.

2.2 Assembling the Tattoo Gun

1. **Insert Cartridge Needle:** Carefully insert the desired cartridge needle into the tattoo gun.
2. **Secure Cartridge:** Rotate the cartridge to lock it firmly into place.
3. **Adjust Needle Length:** Twist the grip of the tattoo gun to adjust the needle length (1-4.2mm).
4. **Power On and Adjust Voltage:** Press the power button to turn on the device and use the +/- buttons to set the desired working voltage (4V-12V, adjustable in 0.1V increments).

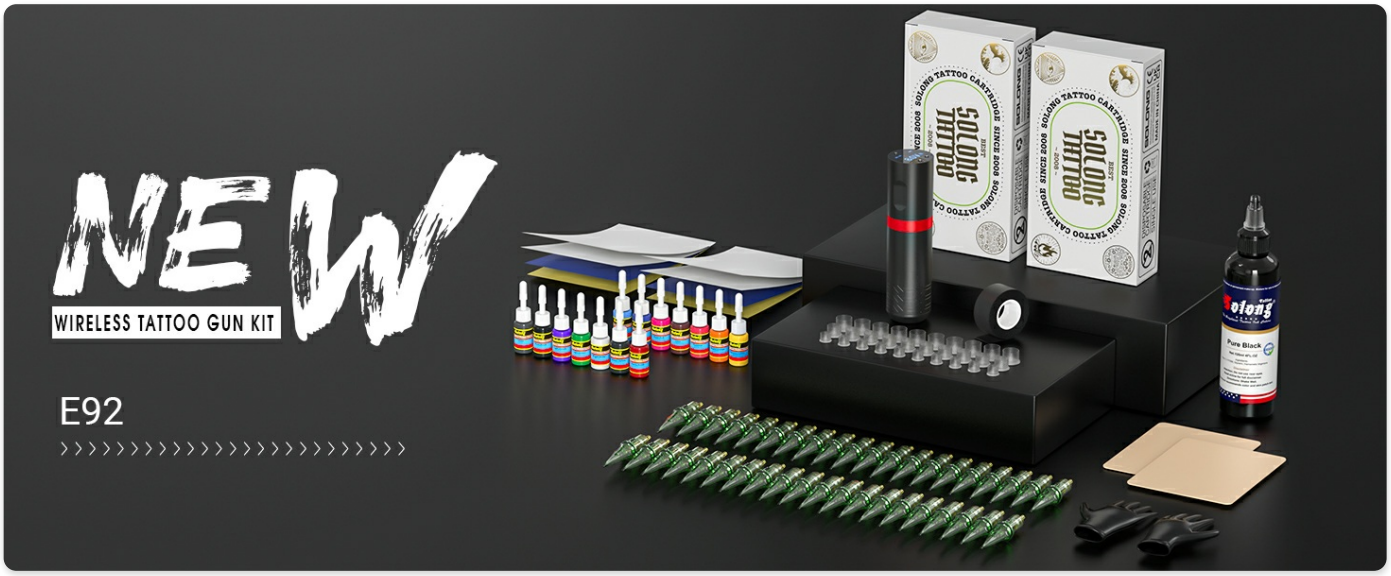

Figure 3: Step-by-step visual instructions for assembling and preparing the tattoo gun.

2.3 Charging the Device

The tattoo gun is equipped with a 1500mAh battery, providing 4-5 hours of working time. Use the provided Type-C charging cable to charge the device. A full charge typically takes 2-4 hours.

Figure 4: Specifications of the tattoo gun, including battery capacity and charging time.

3. Operating Instructions

3.1 Power On/Off and Voltage Adjustment

The E92 wireless tattoo gun features an OLED display that shows working voltage, working time, and remaining battery capacity. Use the +/- buttons to adjust the voltage in 0.1V increments between 4V and 12V.

Figure 5: Close-up of the OLED display on the tattoo gun, indicating current voltage and battery status.

3.2 Using the Tattoo Gun on Practice Skin

The kit includes practice skin and transfer paper for safe practice. Follow these steps for using the practice skin:

1. **Choose Pattern:** Select your desired pattern and cut it out. Gently remove the transparent film.
2. **Place Pattern:** Place the patterned face down onto the practice skin.
3. **Wet Tattoo:** Wet the pattern with water until it is fully permeated. (Warm water may enhance transfer).
4. **Transfer:** After pressing for 20-30 seconds, gently remove the backing paper to reveal the transferred design.
5. **Apply Ink:** Dip the needle into the tattoo ink and begin practicing on the transferred design.

Video 3: Demonstration of the wireless tattoo gun in use, showing smooth operation during practice.

Video 4: Close-up of the tattoo pen machine in action, highlighting its precision and control.

Figure 6: User demonstrating the tattoo gun on practice skin.

4. Maintenance

Proper maintenance ensures the longevity and optimal performance of your tattoo gun.

4.1 Cleaning

- After each use, carefully remove the cartridge needle and dispose of it properly.
- Wipe down the exterior of the tattoo gun with a disinfectant wipe or a cloth dampened with isopropyl alcohol.
- Ensure no liquids enter the internal components or charging port.

4.2 Storage

Store the tattoo gun and accessories in a clean, dry place away from direct sunlight and extreme temperatures. Keep all components in their original packaging or a dedicated storage case to prevent damage.

5. Troubleshooting

If you encounter any issues with your Solong Wireless Tattoo Gun Kit, refer to the following common troubleshooting tips:

- **Device Not Turning On:** Ensure the battery is fully charged. Connect the Type-C charging cable and allow it to charge for 2-4 hours.
- **Inconsistent Performance:** Check that the cartridge needle is securely inserted and locked. Verify the voltage setting on the OLED display is appropriate for your task.
- **Excessive Vibration/Noise:** While the 8000 RPM coreless motor is designed for low vibration, ensure the needle cartridge is correctly seated. If the issue persists, contact customer support.
- **Battery Draining Quickly:** Ensure the device is fully charged before use. The 1500mAh battery provides approximately 4-5 hours of continuous operation. If battery life significantly decreases, contact support.

6. Specifications

Feature	Detail
Model	E92 (SLE92KITB-2)
Brand	Solong Tattoo
Needle Length Adjustment	1-4.2 mm
Material	Space Aluminum Alloy
Voltage Output Range	4V-12V (0.1V adjustments)
Motor	Coreless 8000 RPM
