4. SETUP AND INITIAL USE

4.1 Charging the Power Bank

1. Connect the provided USB-C to USB-C cable to the power bank's USB-C port.
2. Connect the other end of the cable to a compatible USB-C power adapter (not included).
3. The LED indicator lights on the power bank will illuminate to show the charging status. A full charge is indicated when all lights are solid.

Note: It is recommended to fully charge the power bank before its first use.

4.2 Powering On/Off and Indicator Lights

- **Power Button:** Press the side button once to activate the power bank and check the battery level.
- **LED Indicators:** The power bank features multiple LED lights to indicate battery status. Typically, each light represents a percentage of charge (e.g., 4 lights = 75-100%, 3 lights = 50-75%, etc.). Refer to the specific light pattern for your model for precise readings.
- The power bank will automatically turn off after a period of inactivity or when charging is complete.

5. OPERATING INSTRUCTIONS

5.1 Wireless Charging for iPhone (MagSafe Compatible)

1. Ensure the power bank is powered on.
2. Align your MagSafe-compatible iPhone (iPhone 12 series and newer) with the magnetic charging pad on the power bank. The magnets will snap the phone into place.
3. Charging will begin automatically. The iPhone screen will indicate charging status.

5.2 Wireless Charging for Apple Watch

1. Ensure the power bank is powered on.
2. Place your Apple Watch on the dedicated Apple Watch charging module.
3. Ensure proper alignment for charging to initiate. The Apple Watch display will show the charging icon.

5.3 Wireless Charging for AirPods

1. Ensure the power bank is powered on.
2. Place your AirPods charging case (compatible with wireless charging) on the designated AirPods charging area.
3. The AirPods case indicator light will show charging status.

5.7 Simultaneous Charging Limitations

The power bank cannot be simultaneously charged itself while also charging another device. Ensure the power bank is fully charged before using it to power other devices if you require continuous output.

6. MAINTENANCE

- Cleaning:** Use a soft, dry cloth to clean the surface of the power bank. Avoid using harsh chemicals or abrasive materials.
- Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- Battery Care:** To prolong battery life, fully charge the power bank at least once every three months if not in regular use.
- Avoid dropping or subjecting the power bank to strong impacts.

7. TROUBLESHOOTING

- Device Not Charging:**
 - Ensure the power bank is powered on and has sufficient charge.

- Verify proper alignment of your device on the wireless charging pad.
- Check if your device is compatible with wireless charging or the specific charging port used.
- If using a case, ensure it is MagSafe compatible and not too thick to interfere with wireless charging.

- **Apple Watch Not Charging:**

- Ensure the Apple Watch is centered precisely on the charging module.
- Some watch bands (especially wider ones) may prevent proper contact. Try removing the watch from the band or adjusting its position.
- Verify your Apple Watch model is listed as compatible.

- **Weak Magnetic Hold:**

- The magnetic strength is designed for secure attachment during charging. If the hold feels weak, ensure no foreign objects are between the power bank and your device.
- Using a non-MagSafe compatible phone case may reduce magnetic adhesion.

- **Power Bank Not Charging Itself:**

- Ensure the USB-C cable is securely connected to both the power bank and a working power adapter.
- Try a different USB-C cable or power adapter.

- **Built-in Cable Length:** The built-in USB-C cable is designed for portability and convenience, serving as a short connection. For longer reach, use the included USB-C to USB-C cable or another standard cable.
