## 2. Quick Configuration

The Wellclima WEC-MI1 remote is designed for quick setup. Follow these steps to pair it with your Mitsubishi air conditioner:

1. Aim the remote control towards your air conditioner unit.
2. Press and hold the **ON/OFF** button until the air conditioner turns on.
3. Release the button immediately. The remote is now configured.

If the air conditioner does not respond or if the display changes state, continue holding the button until the air conditioner turns on, then release. Test the remote control functions. If the remote does not operate correctly, repeat the process.

- **RESET Button:** Resets the remote control settings.

For detailed information on specific functions and their usage, refer to the complete online manual.

## MAINTENANCE

---

### Battery Replacement

When the remote control's display becomes dim or its response time slows, it is time to replace the batteries. Always replace both batteries simultaneously with new 1.5V AAA alkaline batteries. Do not mix old and new batteries, or different types of batteries.

### Cleaning

Wipe the remote control with a soft, dry cloth. Do not use liquid cleaners, abrasive pads, or chemical solvents, as these can damage the remote's surface or internal components.

## TROUBLESHOOTING

---

If you experience issues with your Wellclima WEC-MI1 remote control, consider the following:

- **Remote not responding:**
  - Check if the batteries are correctly inserted and have sufficient charge. Replace them if necessary.
  - Ensure there are no obstructions between the remote control and the air conditioner's receiver.
  - Verify that you are within the operating range (up to 8 meters).
  - Repeat the quick configuration steps.
- **Limited operating range:**
  - Ensure fresh batteries are used.
  - Minimize interference from other electronic devices.
  - Confirm direct line of sight to the air conditioner.
- **Specific functions not working:**
  - Some advanced functions depend on the specific model of your Mitsubishi air conditioner. Refer to your AC unit's manual for supported features.
