Auxmir BM-2326

Auxmir Rechargeable Travel Makeup Mirror User Manual

Model: BM-2326

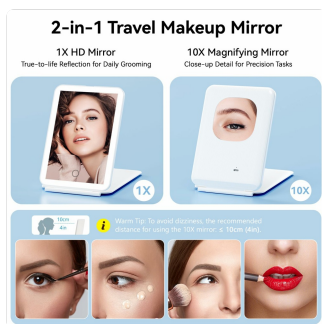

Main product image of the Auxmir Rechargeable Travel Makeup Mirror.

IMPORTANT SAFETY INFORMATION

CAUTION: To avoid eye injury, do not look directly into the 10x magnification mirror. Keep the mirror and USB cable out of reach of children and pets. Do not use the mirror or charge it near water or other flammable materials. Always follow the manufacturer's instructions for proper use and care.

PRODUCT FEATURES

2-in-1 Magnification

Features a 1X HD mirror for true-to-life reflection for daily grooming and a 10X magnifying mirror (3.1*3.1-inch) for close-up details and precision tasks. For the 10X mirror, please get your face within 4 inches to see clearly and avoid blurriness.

3 Dimmable Color LED Lights

Equipped with three light modes: cool light (6000K-6500K) for formal/office settings, warm light (3000K-3500K) for party/dating/dinner, and natural light (4500K-5000K) for skincare/outdoor use. The highly sensitive touch control allows for infinitely dimmable brightness, providing soft and non-glaring illumination.

Ultrathin, Foldable & Lightweight Design

Measuring 7.5*5.1 inches and weighing only 0.6 lbs, this portable mirror is designed to be ultra-thin and foldable, making it easy to fit into your handbag, makeup bag, or tote bag for travel. The folding mechanism also provides added protection against surface damage.

USB Rechargeable Battery

Powered by a 1500mAh lithium rechargeable battery, this vanity mirror charges via a USB Type-C cable (included). A full charge takes approximately 2 hours and provides over 15 hours of continuous use, ensuring long-lasting power for your travels.

No Distortion

Constructed with high-quality ABS and glass materials, the mirror provides a clear, distortion-free reflection for accurate makeup application.

SETUP GUIDE

- Unboxing:** Carefully remove the mirror and all accessories from the packaging. Ensure all components are present: the mirror unit, USB Type-C charging cable, and this user manual.
- Initial Charge:** Before first use, fully charge the mirror. Connect the provided USB Type-C cable to the charging port on the back of the mirror (as shown in the video description) and plug the other end into a compatible USB power source (e.g., wall adapter, power bank, computer, car charger). The charging indicator light will show charging status. A full charge takes approximately 2 hours.
- Setting Up the Stand:** Gently unfold the integrated stand from the back of the mirror until it locks into a stable position. This allows the mirror to stand upright on any flat surface.

OPERATING INSTRUCTIONS

- Power On/Off:** Locate the touch control button on the mirror surface. Short press the button to turn the LED lights on or off.
- Changing Light Modes:** With the lights on, short press the touch control button repeatedly to cycle through the three light modes: Cool Light, Natural Light, and Warm Light.
- Adjusting Brightness:** To adjust the brightness, long press the touch control button. The brightness will gradually increase or decrease. Release the button when the desired brightness level is reached.
- Using Magnification:**
 - 1X HD Mirror:** Use the main mirror for general makeup application and daily grooming.
 - 10X Magnifying Mirror:** The smaller, circular mirror on the back of the main unit provides 10X magnification for detailed tasks like eyebrow plucking or eyeliner application. For optimal clarity and to avoid distortion, position your face within 4 inches (10 cm) of the 10X magnifying mirror.

MAINTENANCE

- Cleaning:** To clean the mirror surface, gently wipe with a soft, lint-free cloth. For stubborn smudges, dampen the cloth slightly with water or a mild, non-abrasive glass cleaner. Avoid using harsh chemicals or abrasive materials that could scratch the mirror or damage the finish.

- **Storage:** When not in use or for travel, fold the stand flat against the back of the mirror. Store the mirror in a dry place, away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Recharge the mirror when the light dims or before extended periods of non-use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Lights do not turn on.	Battery is low or depleted.	Charge the mirror using the provided USB Type-C cable. Ensure the charging indicator light is on.
Lights are dim or flickering.	Low battery or incorrect brightness setting.	Recharge the mirror. Long press the touch control button to increase brightness.
10X magnification appears blurry or distorted.	Incorrect viewing distance. This is a natural physical occurrence in concave mirrors.	Ensure your face is within 4 inches (10 cm) of the 10X magnifying mirror for clear focus.
Mirror does not hold a charge.	Faulty charging cable or battery issue.	Try using a different USB Type-C cable and power source. If the issue persists, contact customer support.

SPECIFICATIONS

- **Model Number:** BM-2326
- **Dimensions:** 7.5"L x 5.1"W (folded: 7.6"L x 5.1"W x 0.47"H)
- **Weight:** Approximately 0.6 lbs (10.58 ounces)
- **Battery:** 1500mAh Lithium Polymer (included)
- **Charging Time:** Approx. 2 hours
- **Working Time:** Over 15 hours (continuous use)
- **Light Modes:** Cool Light (6000K-6500K), Natural Light (4500K-5000K), Warm Light (3000K-3500K)
- **Magnification:** 1X HD Mirror, 10X Magnifying Mirror
- **Material:** High-quality ABS and Glass
- **Charging Port:** USB Type-C
