## 4. ASSEMBLY INSTRUCTIONS

Follow these steps for proper assembly. It is recommended to have two people for certain steps.

1. **Attach Wheels to Base:** Securely attach the four wheels to the designated points on the bottom panel. Ensure locking wheels are correctly positioned if applicable.
2. **Assemble Side Panels:** Connect the side panels to the base, ensuring they align with the pre-drilled holes. Use the provided fasteners to secure them.
3. **Install Top Frame:** Attach the top frame pieces to the assembled side panels.
4. **Attach Lid Hinges:** Secure the hinges to the back of the main box structure and the lid.
5. **Install Lid Handle:** Attach the handle to the front of the lid using the provided screws.
6. **Connect Air-spring Lift Supports:** Carefully attach the air-spring lift supports to the designated points on the inside of the box and the lid. These provide the soft-open and soft-close functionality.
7. **Final Check:** Verify all connections are secure and the lid operates smoothly.

## 5. OPERATING INSTRUCTIONS

### Opening and Closing the Lid:

To open the storage box, gently lift the handle on the lid. The air-spring lift supports will assist in opening and holding the

lid in place. To close, gently pull the lid down; the soft-close mechanism will ensure it lowers smoothly without slamming.

## 6. MAINTENANCE

- **Cleaning:** Wipe down the exterior with a soft cloth and mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Inspection:** Periodically inspect all fasteners and connections to ensure they remain tight. Tighten any loose screws as needed.
- **Drainage:** Ensure the water drainage features are clear of debris to maintain waterproof integrity.
- **Winter Storage:** While designed for outdoor use, consider storing the box in a sheltered area during extreme winter conditions to prolong its lifespan.

## 7. TROUBLESHOOTING

- **Lid not closing smoothly:** Check the air-spring lift supports for proper installation and ensure no items are obstructing the lid's path.
- **Water inside the box:** Verify that the lid is fully closed and the drainage features are not blocked. Inspect for any damage to the seals.
- **Difficulty moving the box:** Ensure all locking wheels are disengaged. Check for debris obstructing the wheels.
- **Loose components:** Re-tighten any loose screws or bolts. Do not overtighten.
