CUBOT X1

CUBOT X1 Military Smartwatch User Manual

Model: X1

Introduction

Thank you for choosing the CUBOT X1 Military Smartwatch. This manual provides essential information on how to set up, operate, and maintain your device, ensuring you get the most out of its advanced features. Designed for durability and performance, the X1 offers comprehensive health monitoring, extensive sports tracking, and convenient communication capabilities.

Setup

1. Charging the Device

Before first use, fully charge your CUBOT X1 smartwatch. Connect the magnetic charging cable to the charging contacts on the back of the watch and plug the USB end into a power adapter (not included) or a computer's USB port. The watch display will indicate charging status.

2. Downloading the App

Scan the QR code in the watch's manual or search for "Fit Cloud Pro" in your smartphone's app store (Google Play Store for Android, Apple App Store for iOS). Download and install the application.

3. Pairing with Your Smartphone

1. Ensure Bluetooth is enabled on your smartphone.
2. Open the "Fit Cloud Pro" app.
3. Follow the in-app instructions to add your device. The app will search for available devices. Select "CUBOT X1" from the list.
4. Confirm the pairing request on both your watch and smartphone.

Once paired, the watch will synchronize data with the app, including time, date, and health metrics.

Operating Your Smartwatch

Display and Navigation

The CUBOT X1 features a vibrant 2.12-inch AMOLED touch screen with a resolution of 410xRGBx502 pixels, offering clear visuals even in direct sunlight. Navigate by swiping across the screen and tapping to select options. The watch also includes flexible physical keys for quick access to functions like power and menu, and a one-touch switch for sport modes.

Key Functions

- **Bluetooth Calls:** Equipped with Bluetooth 5.2, a microphone, and a speaker, the X1 allows you to answer, reject, or make calls directly from your wrist when synced with your smartphone.
- **Notifications:** Receive alerts from social media apps (Facebook, Instagram, WhatsApp, Twitter) and other notifications by simply raising your wrist.
- **Health Monitoring:** The integrated high-performance sensor provides 24-hour accurate monitoring of:
  - Heart Rate
  - Blood Pressure
  - Blood Oxygen (SpO2)
  - Sleep Tracking
  - Stress Detection
- **Activity Tracking:** Monitor daily activities including step count, calories burned, and distance traveled.
- **Sports Modes:** Choose from over 100 sports modes, including walking, outdoor running, cycling, swimming, basketball, football, yoga, and more. The watch provides real-time data to help you track your workout progress.
- **Additional Features:** Weather updates, remote camera control, music playback control, breathing training, voice

assistant, timer, alarm clock, stopwatch, women's health tracking, find phone function, calculator, Do Not Disturb mode, power saving mode, raise-to-wake screen, brightness adjustment, compass, barometer (air pressure/altitude), calendar, payment code, business card, time settings, and password protection.

Battery Life

The CUBOT X1 is equipped with a powerful 850mAh battery, providing exceptional endurance:

- Up to 100 days in low-power standby mode.
- 20-30 days of battery life with regular daily use.
- Approximately 15 days of battery life if the Always-On Display (AOD) mode is enabled.

Maintenance

To ensure the longevity and optimal performance of your CUBOT X1 smartwatch, follow these maintenance guidelines:

- **Cleaning:** Regularly wipe the watch screen and strap with a soft, dry cloth. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.
- **Water Resistance:** The watch is water-resistant up to 20 meters (IP68 rating), making it suitable for swimming and daily water exposure. However, avoid prolonged submersion in hot water, steam, or corrosive liquids, as this can compromise the seals. Do not press buttons underwater.
- **Storage:** Store the watch in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Impacts:** While designed to be rugged, avoid dropping the watch or subjecting it to severe impacts to prevent damage to internal components or the screen.

Troubleshooting

If you encounter issues with your CUBOT X1 smartwatch, try the following solutions:

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
- **Cannot pair with phone:**
  - Make sure Bluetooth is enabled on your phone and the watch is within range.
  - Restart both your phone and the watch.
  - Ensure the "Fit Cloud Pro" app is updated to the latest version.
  - If previously paired, try unpairing the device from your phone's Bluetooth settings and then re-pairing through the app.
- **Inaccurate health data:**

- Ensure the watch is worn snugly on your wrist, not too tight or too loose.
- Clean the sensor on the back of the watch.
- Note that health data is for reference only and should not be used for medical diagnosis.

- **Notifications not appearing:**
  - Check notification permissions for the "Fit Cloud Pro" app in your phone's settings.
  - Ensure notifications are enabled within the app for specific applications.
  - Verify that the watch is connected via Bluetooth.

- **Short battery life:**
  - Disable features like Always-On Display if not needed.
  - Reduce screen brightness.
  - Limit frequent health monitoring if not required continuously.
  - Ensure the watch is fully charged before use.

Specifications

Feature	Detail
Model Number	X1
Screen Size	2.12 inches
Display Type	AMOLED
Resolution	410xRGBx502
Battery Capacity	850 mAh
Battery Cell Composition	Polymer
Connectivity Technology	Bluetooth 5.0
Compatible Operating Systems	Android 9.0 and above, iOS 9.0 and above
Water Resistance	IP68 (up to 20 meters)
Memory Storage Capacity	256 MB
GPS	Via smartphone
Shape	Rectangular
