JOYROOM for Magsafe Car Mount

Instruction Manual

JOYROOM MagSafe Car Mount Charger

Model: for Magsafe Car Mount

Introduction

This manual provides detailed instructions for the setup, operation, and maintenance of your JOYROOM MagSafe Car Mount Charger. Designed for convenience and stability, this all-metal charger offers 15W fast wireless charging and a secure magnetic hold for compatible iPhone models and MagSafe cases. Please read this manual thoroughly before use to ensure optimal performance and safety.

Package Contents

Verify that all components are present in the package:

- 1 x JOYROOM MagSafe Car Mount Charger
- 1 x USB-C to USB-A Charging Cable
- 1 x 3M Adhesive Base (pre-applied)
- 1 x Alcohol Wipe (for surface preparation)

Setup Instructions

Follow these steps to properly install your car mount charger:

1. **Choose a Mounting Location:** Select a flat, clean surface on your car's dashboard. Ensure the location does not obstruct your view or interfere with vehicle controls.
2. **Clean the Surface:** Use the provided alcohol wipe to thoroughly clean the chosen mounting area. Allow the surface to dry completely before proceeding.
3. **Apply the Adhesive Base:** Remove the protective film from the 3M adhesive on the base of the charger. Carefully position the charger on the cleaned surface and press firmly for at least 30 seconds to ensure a strong bond. The octopus-style slit design of the base allows for stable adhesion even on slightly curved surfaces.

Image: A detailed view of the charger's base, highlighting the octopus-inspired adhesive design for enhanced stability on various surfaces.

4. **Connect Power:** Insert the USB-C end of the charging cable into the port on the car mount charger. Plug the USB-A end into a QC3.0+ certified car charger (minimum 18W recommended) or a suitable USB port in your vehicle. Note that vehicle USB ports may provide insufficient current for optimal fast charging.

Operating Instructions

Using your JOYROOM MagSafe Car Mount Charger is straightforward:

1. **Attach Your Phone:** Ensure your iPhone (12 series or newer) or MagSafe-compatible phone case is ready. Simply bring your phone close to the magnetic charging surface of the mount. The strong N52 magnets will automatically align and securely hold your device.

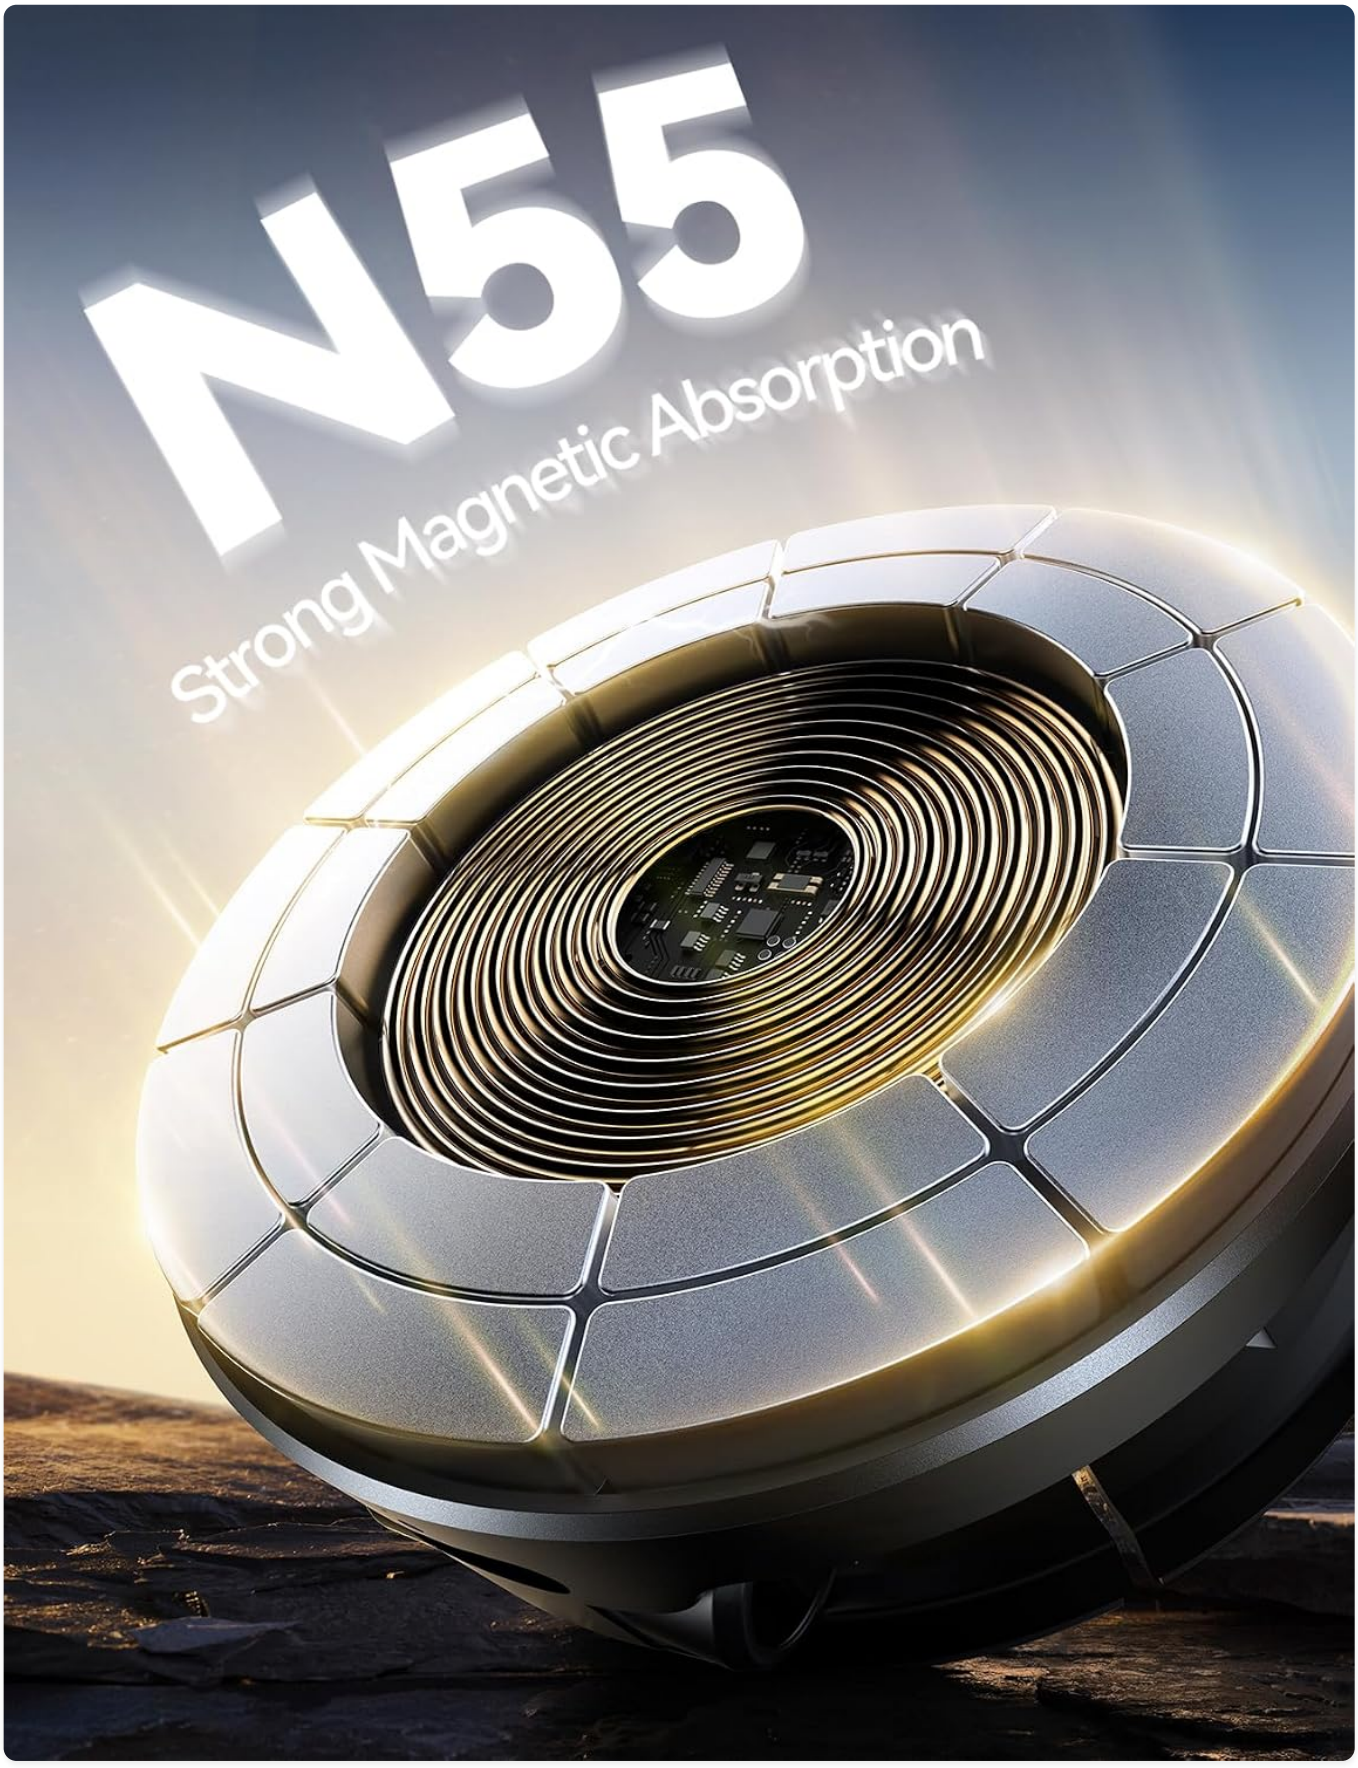

Image: An internal view illustrating the N52 strong magnetic absorption technology, ensuring a secure hold for your device.

2. **Wireless Charging:** Once your phone is correctly aligned, 15W fast wireless charging will begin automatically. A

charging indicator light on the mount may illuminate to confirm charging status.

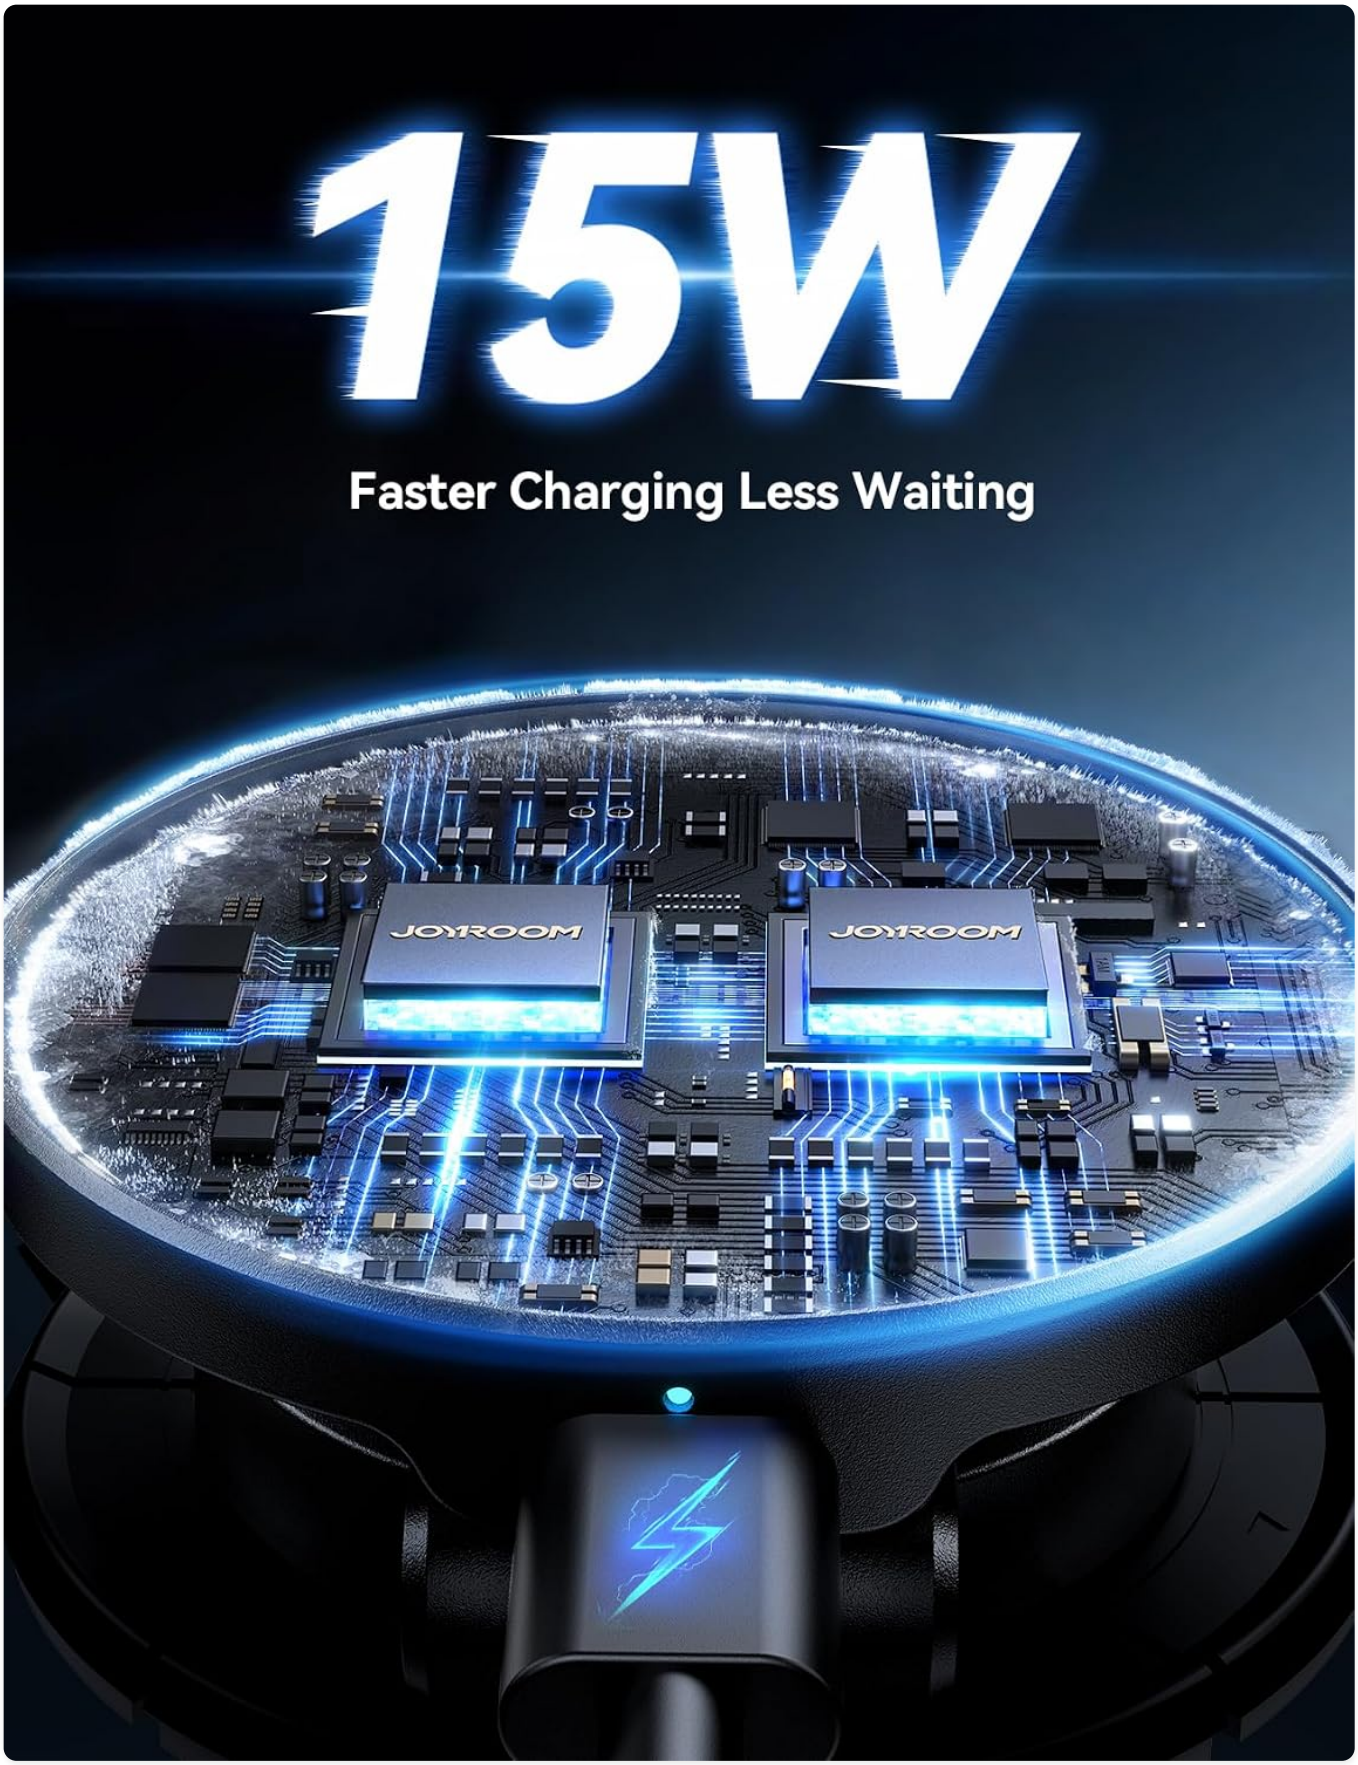

Image: A visual representation of the 15W fast charging capability, indicating quicker power delivery to your device.

3. **Adjust Viewing Angle:** The dual-axis foldable design and 360° flexible rotation base allow you to adjust your phone to the perfect viewing angle for navigation or calls. Simply pivot the magnetic head or rotate the base as needed.

Image: An illustration demonstrating the 360-degree flexible rotation base, allowing for versatile positioning of your phone.

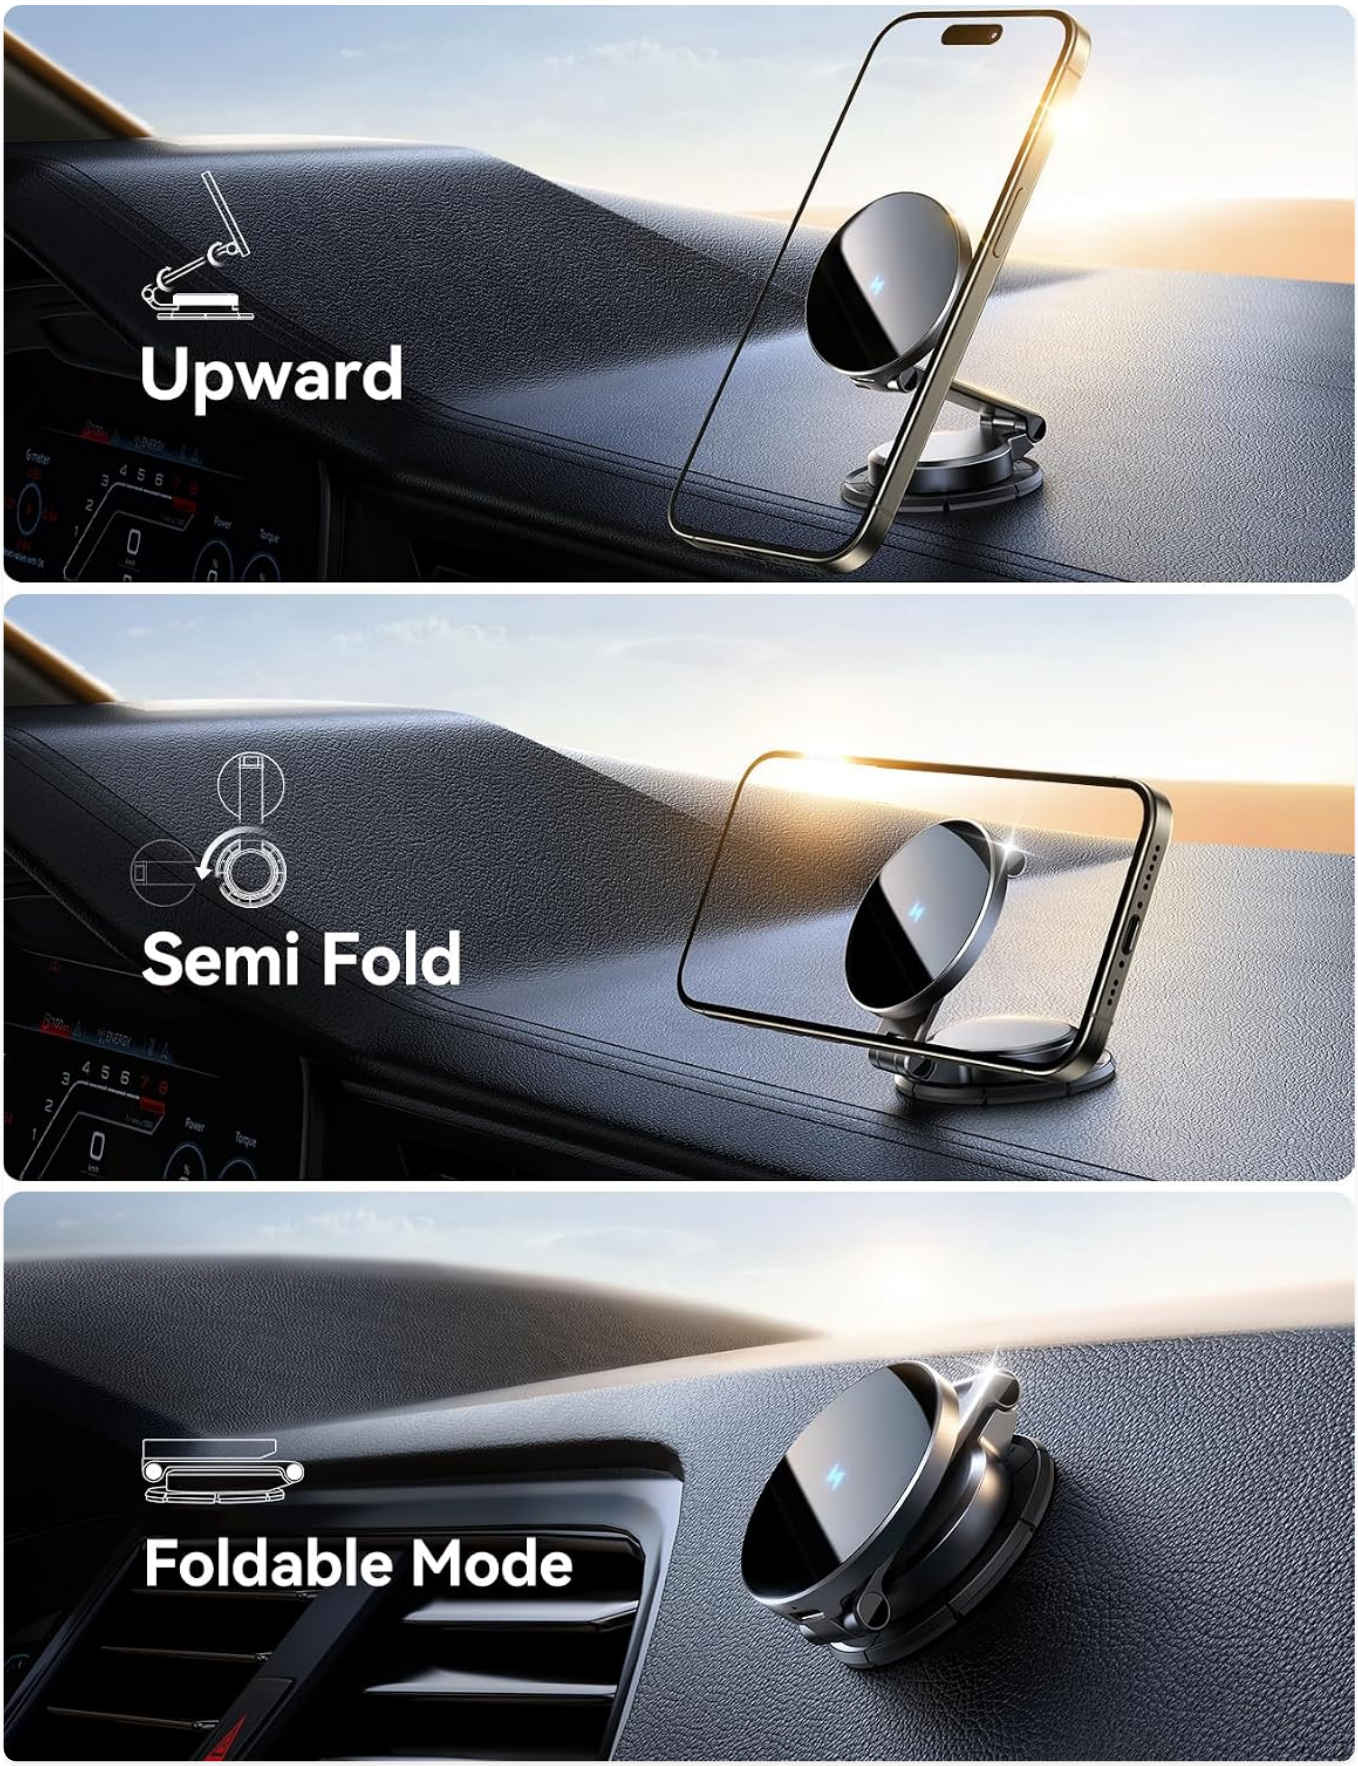

Image: A composite image displaying the charger's various foldable configurations: upright for full visibility, semi-folded for a lower profile, and fully folded for compact storage or minimal obstruction.

Maintenance

To ensure the longevity and optimal performance of your JOYROOM MagSafe Car Mount Charger, follow these maintenance guidelines:

- **Cleaning:** Wipe the surface of the charger with a soft, dry cloth. Avoid using abrasive cleaners or solvents that could damage the metal finish or electronic components.
- **Adhesive Care:** The 3M adhesive is designed for strong, long-lasting adhesion. Avoid frequently repositioning the mount, as this can weaken the adhesive bond. If the adhesive needs to be re-applied, ensure the surface is clean and dry.
- **Cable Management:** Keep the charging cable neatly organized and avoid sharp bends or kinks, which can damage the cable over time.
- **Temperature Exposure:** While designed to withstand heat, prolonged exposure to extreme temperatures (e.g., direct sunlight in a parked car for extended periods) should be minimized to preserve the product's lifespan.

Troubleshooting

If you encounter issues with your car mount charger, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Charger not powering on/charging	Loose cable connection. Insufficient power from vehicle USB port. Non-QC3.0+ certified car charger.	Ensure USB-C cable is securely connected to both the mount and power source. Use a QC3.0+ certified car charger (18W minimum). Try a different USB port or power adapter.
Phone not sticking securely	Phone not MagSafe compatible or using a non-MagSafe case. Dust or debris on magnetic surface.	Ensure your phone is an iPhone 12 series or newer, or has a MagSafe-compatible case. Clean the magnetic surface of the charger and the back of your phone/case.
Mount not adhering to dashboard	Surface not clean or dry. Surface is too textured or porous. Adhesive has lost its stickiness.	Re-clean the surface with alcohol and allow to dry completely. Ensure the surface is smooth and non-porous. Contact customer support for replacement adhesive if needed.

Specifications

Feature	Detail
Brand	JOYROOM
Model Number	for Magsafe Car Mount
Material	All-Metal Construction
Wireless Charging Output	15W Fast Charging
Magnetic Strength	20 N52 Super Strong Magnets
Mounting Type	Dashboard (3M Adhesive Base)
Adjustability	Dual Axis Foldable Design, 360° Flexible Rotation
Compatible Devices	Smartphones (iPhone 16/15/14/13/12 series and MagSafe Case compatible)

Feature	Detail
Connectivity	USB-C input
Dimensions	4.13 x 3.54 x 1.54 inches
Item Weight	7.8 ounces
