nanoblock Pokémon Ceruledge RS Series Building Kit Instruction Manual

Model: NBPM_R05 | Brand: nanoblock

1. Introduction

This manual provides instructions for assembling the nanoblock Pokémon Ceruledge RS Series Building Kit. Please read all instructions carefully before beginning assembly. This kit is designed for individuals aged 12 and up due to the small size of the components.

2. Safety Information

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.
Keep all small parts away from young children and pets. Exercise caution during assembly to prevent accidental ingestion of small blocks.

3. Package Contents and Setup

Before starting, verify that all components are present. Open the product box and carefully remove the block bags and instruction sheet.

Components:

- Assorted nanoblock pieces (approximately 520 pieces)
- Instruction sheet

- Base plate (if included in specific kits, check packaging)

Organize the blocks by color and size to facilitate the assembly process. A small tray or container can be helpful for sorting.

4. Assembly Instructions

The nanoblock Ceruledge model has a difficulty level of 3, suitable for ages 12 and up. Follow the detailed diagrams provided on the included instruction sheet. The RS (Round Style) series incorporates rounded pieces to achieve a more detailed, 3D-like appearance.

General Assembly Tips:

1. **Start with the Base:** Most nanoblock models begin with a stable base structure.
2. **Follow Diagrams Closely:** Each step in the instruction sheet shows which blocks to add and where. Pay attention to the orientation of the blocks.
3. **Use a Tweezers (Optional):** For very small or hard-to-reach blocks, a pair of fine-tipped tweezers can be helpful.
4. **Apply Gentle Pressure:** Blocks should snap together with moderate pressure. Avoid excessive force, which could damage the blocks.
5. **Verify Each Layer:** Before proceeding to the next step, ensure that the current layer is correctly assembled and all

blocks are firmly in place.

6. **Handle Delicate Parts Carefully:** Some parts, such as the swords on Ceruledge, may be more delicate or require precise placement.

5. Maintenance

To maintain the appearance and integrity of your nanoblock model:

- **Cleaning:** Dust the model gently with a soft brush or a can of compressed air. For stubborn dirt, lightly dampen a cloth with water and gently wipe. Avoid harsh chemicals.
- **Storage:** Store the assembled model or unbuilt blocks in a cool, dry place away from direct sunlight to prevent discoloration or warping.

- **Disassembly:** If disassembling, do so carefully to avoid damaging the blocks. Store blocks in a sealed container to prevent loss.

6. Troubleshooting

Common Issues:

- **Missing Pieces:** Double-check all packaging and work surfaces. If a piece is genuinely missing, refer to the support section for assistance.
- **Blocks Not Connecting:** Ensure the blocks are correctly aligned and that no foreign objects are obstructing the connection points. Apply firm, even pressure.
- **Model Instability:** Review previous steps to ensure all blocks are securely attached and correctly oriented. Sometimes a loose connection can affect overall stability.
