5. Maintenance

To ensure the longevity and optimal performance of your MYNTA Massage Chair, regular maintenance is recommended.

- **Cleaning:** Wipe the chair with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** When not in use for extended periods, unplug the chair and store it in a cool, dry place away from direct sunlight.
- **Inspection:** Periodically check all connections and cords for any signs of wear or damage.

6. Troubleshooting

If you encounter any issues with your MYNTA Massage Chair, please refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Chair does not power on.	Power cord not securely plugged in; Main power switch off.	Ensure power cord is fully inserted into outlet and chair. Check the main on/off switch (located near the head of the chair).
Massage rollers are not moving.	Program paused; Auto body scan in progress; Overload protection activated.	Check if the program is paused on the control panel. Allow the body scan to complete. If the chair overheats, unplug it and let it cool down for 30 minutes before restarting.
Airbags are not inflating.	Airbag function is off; Air pump issue.	Ensure the airbag function is activated on the control panel. If the issue persists, contact customer support.
Heat function is not working.	Heat function is off; Electrical issue.	Activate the heat function on the control panel. If still not working, contact customer support.

For issues not listed above or if troubleshooting steps do not resolve the problem, please contact MYNTA Customer Service.
