4. MAINTENANCE

To ensure the longevity and optimal performance of your DOOGEE S Punk, follow these maintenance guidelines:

- **Cleaning:** Use a soft, lint-free cloth to clean the screen and body. For stubborn dirt, a slightly damp cloth can be used. Avoid harsh chemicals or abrasive materials.
- **Water Resistance:** While the phone is IP68/IP69K rated for water and dust resistance, avoid prolonged submersion or exposure to high-pressure water jets. Ensure all port covers are securely closed before exposure to liquids.
- **Temperature:** Avoid exposing the device to extreme temperatures (very hot or very cold) as this can affect battery life and internal components.
- **Storage:** When not in use for extended periods, store the phone in a cool, dry place.

5. TROUBLESHOOTING

If you encounter issues with your DOOGEE S Punk, try the following troubleshooting steps:

- **Device Not Responding:** Press and hold the Power button for about 10-15 seconds to force a restart.
- **Battery Draining Quickly:** Check background apps, reduce screen brightness, disable unnecessary features (GPS, Wi-Fi, Bluetooth) when not in use. Ensure no apps are consuming excessive power.
- **Connectivity Issues (Wi-Fi/Cellular):** Try toggling Wi-Fi/Cellular data off and on. Restart your phone. For Wi-Fi, try forgetting the network and reconnecting. Ensure SIM cards are properly inserted.
- **Camera Not Working:** Ensure the camera app has necessary permissions. Try clearing the camera app's cache and data in Settings > Apps. Restart the device.
- **Lagging Performance:** Close unused apps, clear cache, and ensure sufficient storage space. Consider performing a factory reset as a last resort (back up your data first).
- **No Audio:** Check volume settings. Ensure the speaker is not obstructed. Restart the device.

If problems persist, contact customer support for further assistance.
