

## Aiwa AWPOK200D

# Aiwa AWPOK200D Bluetooth Audio Tower User Manual

Model: AWPOK200D

## 1. INTRODUCTION

Thank you for choosing the Aiwa AWPOK200D Bluetooth Audio Tower. This powerful audio system is designed to deliver clear, precise sound with deep bass, suitable for both indoor and outdoor use. It features Bluetooth connectivity, TWS function, USB playback and charging, microphone inputs for karaoke, and dynamic LED lighting. This manual provides essential information for safe and optimal use of your device.

## 2. SAFETY INFORMATION

Please read all safety instructions carefully before using the device and retain this manual for future reference. Incorrect operation due to disregard of instructions may cause damage to the product or personal injury.

- **Power Source:** Connect the device only to an AC 100-240V, 50/60Hz power supply. Ensure the voltage matches the requirements before plugging in.
- **Ventilation:** Do not block any ventilation openings. Maintain adequate space around the unit for proper airflow.
- **Water and Moisture:** Do not expose the device to rain, moisture, or dripping/splashing liquids. Do not place objects filled with liquids, such as vases, on the apparatus. The device is not waterproof.
- **Heat Sources:** Keep the device away from heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- **Cleaning:** Unplug the device from the power outlet before cleaning. Use a dry, soft cloth. Do not use liquid cleaners or aerosol cleaners.
- **Servicing:** Do not attempt to service this product yourself. Refer all servicing to qualified service personnel.

- **Placement:** Place the unit on a stable, flat surface to prevent it from falling.
- **Children:** Keep out of reach of children.

### 3. PRODUCT OVERVIEW

---

Familiarize yourself with the main components of your Aiwa AWPOK200D Audio Tower.

**Image 3.1:** Front view of the Aiwa AWPOK200D Audio Tower, showcasing its dual speakers and dynamic blue and purple LED lighting.

**Image 3.2:** Rear view of the Aiwa AWPOK200D Audio Tower, highlighting the power input and bass reflex ports.

**Image 3.3:** Detailed view of the top control panel of the Aiwa AWPOK200D, showing USB ports, AUX input, microphone inputs, and various control buttons for playback, volume, and functions.

## 4. SETUP

Follow these steps to set up your Aiwa AWPOK200D Audio Tower.

1. **Unpacking:** Carefully remove the audio tower from its packaging. Retain the packaging for future transport or storage.
2. **Placement:** Place the audio tower on a stable, flat surface. Ensure there is enough space around the unit for proper ventilation.
3. **Power Connection:** Connect the power cable to the AC input on the rear of the unit and then plug it into a standard AC 100-240V, 50/60Hz wall outlet.
4. **Initial Power On:** Press the power button (usually located on the top control panel) to turn on the device. The LCD display should illuminate.

## 5. OPERATING INSTRUCTIONS

This section details how to use the various functions of your audio tower.

## 5.1. Bluetooth Connectivity

1. **Enable Bluetooth:** Turn on the audio tower. Press the "FUNCTION" button on the control panel until "BT" appears on the LCD display, indicating Bluetooth mode.
2. **Pairing:** On your mobile device (smartphone, tablet, etc.), enable Bluetooth and search for available devices. Select "AWPOK200D" from the list.
3. **Connection:** Once paired, the audio tower will indicate a successful connection, and you can now play audio from your device wirelessly.

## 5.2. True Wireless Stereo (TWS) Function

The TWS function allows you to pair two AWPOK200D units together for a stereo sound experience.

1. **Power On Both Units:** Ensure both AWPOK200D units are powered on and in Bluetooth mode.
2. **Initiate TWS Pairing:** On one of the units (this will be the primary unit), press and hold the TWS button (if available, otherwise refer to specific button on control panel, often combined with another function or a dedicated TWS button). The unit will search for another AWPOK200D.
3. **Connect:** Once connected, both units will play audio in stereo. Connect your mobile device to the primary unit via Bluetooth as described in section 5.1.

## 5.3. USB Playback and Charging

- **USB Playback:** Insert a USB flash drive containing MP3 audio files into the USB port labeled "USB" (5V=200mA). The unit will automatically switch to USB mode and begin playback. Use the playback controls (Play/Pause, Next/Previous) on the control panel.
- **Mobile Charging:** The USB port labeled "USB CHARGE" (5V=1000mA) can be used to charge your mobile devices. Connect your device's USB charging cable to this port.

## 5.4. Auxiliary (AUX) and RCA Inputs

- **AUX Input:** Connect an external audio device (e.g., MP3 player, smartphone) using a 3.5mm audio cable to the "AUX IN" port. Press the "FUNCTION" button until "AUX" is displayed.
- **RCA Input:** Connect devices with RCA audio output (e.g., DVD player, TV) to the "AUDIO RCA" input ports (red for right, white for left). Press the "FUNCTION" button until "RCA" is displayed.

## 5.5. Microphone Inputs and Karaoke Function

- **Microphone Connection:** Connect up to two microphones to the 6.3mm "MIC 1" and "MIC 2" input jacks.
- **Microphone Volume:** Adjust the microphone volume using the "MIC VOL +/-" controls.
- **Echo Effect:** Use the "EQ/ECHO" knob or button to add an echo effect to the microphone audio.
- **Voice Cancel:** Activate the "VOICE CANCEL" function (often labeled "KEY/VOICE CANCEL") to reduce or remove vocals from a playing track, making it suitable for karaoke.

## 5.6. Sound Enhancements and Equalizer

- **Super Bass:** Press the "SUPER BASS" button to activate or deactivate the enhanced bass effect.
- **Equalizer Presets:** Use the "EQ" button to cycle through 5 preset equalizer functions (e.g., Pop, Rock, Jazz, Classic, Flat) to optimize sound for different music genres.

## 5.7. LED Lighting

- **Light Control:** Press the "LIGHT" button to cycle through different LED light modes or to turn the

lights off. The unit features intermittent LED lights with mode selection.

## 6. MAINTENANCE

---

Proper care and maintenance will ensure the longevity of your audio tower.

- **Cleaning:** Always unplug the device before cleaning. Use a soft, dry cloth to wipe the exterior surfaces. Do not use abrasive cleaners, waxes, or solvents as they may damage the finish.
- **Storage:** If not in use for an extended period, unplug the power cable and store the unit in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Ventilation:** Ensure the ventilation openings are free from dust and debris. Use a soft brush or vacuum cleaner to gently clear any blockages.

## 7. TROUBLESHOOTING

---

If you encounter issues with your Aiwa AWPOK200D, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
No power	Power cable not connected; Power outlet not working; Unit is off.	Ensure power cable is securely connected. Test the outlet with another device. Press the power button to turn on the unit.
No sound	Volume too low; Incorrect input mode selected; Audio cable not connected properly; Bluetooth not paired.	Increase the master volume. Select the correct input mode (Bluetooth, USB, AUX, RCA). Check audio cable connections. Re-pair Bluetooth device.
Bluetooth pairing fails	Device too far; Bluetooth not enabled on source device; Unit not in pairing mode.	Move the source device closer to the audio tower. Ensure Bluetooth is enabled on your device. Make sure the audio tower is in Bluetooth pairing mode.
Microphone not working	Microphone not connected; Microphone volume too low; Microphone switch off.	Ensure microphone is securely plugged into the correct input. Increase "MIC VOL". Check if the microphone's power switch is on.
TWS pairing fails	Units too far apart; One unit not in TWS pairing mode; Already connected to another device.	Ensure both units are close to each other. Verify both units are in Bluetooth mode and one is initiating TWS pairing. Disconnect any existing Bluetooth connections before TWS pairing.
