

ZWP BTR-12

ZWP BTR-12 Replacement Remote Control User Manual

For Eversolo DMP-A6, DMP-A8 Master, and DMP Series Devices

INTRODUCTION

This manual provides comprehensive instructions for the ZWP BTR-12 Replacement Remote Control. It is designed for seamless compatibility with Eversolo DMP-A6, DMP-A8 Master, and other Eversolo DMP series audio players. Please read this manual carefully to ensure proper setup and operation of your remote control.

SETUP

1. Battery Installation

The ZWP BTR-12 remote control requires two AAA batteries (not included). Follow these steps to install them:

1. Locate the battery compartment on the back of the remote control.
2. Slide open the battery compartment cover.
3. Insert two AAA batteries, ensuring the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.
4. Close the battery compartment cover securely.

Ultra-long standby time

up to 6 months

Requires
Two AAA batteries.
(Batteries are not included)

Not included by default!

Figure 1: Battery installation for the ZWP BTR-12 remote control. Two AAA batteries are required and are not included.

2. Pairing Instructions

To pair the remote control with your Eversolo device, follow these steps:

1. Ensure your Eversolo device is powered on.
2. Point the ZWP BTR-12 remote control directly at your Eversolo device, maintaining a distance of approximately 30 cm (12 inches).
3. Simultaneously press and hold the **Play/Pause** (▶|) and **Volume Down** (-) keys on the remote control.
4. Continue holding until the indicator light on the remote control begins to blink. This indicates successful pairing.

Note: This remote control operates via Infrared (IR) mode. Ensure there is a clear line of sight between the remote and the Eversolo device's IR receiver for optimal performance.

OPERATING INSTRUCTIONS

Once paired, the ZWP BTR-12 remote control functions as a direct replacement for your original Eversolo remote. Most functions will operate intuitively. Point the remote towards your Eversolo device and press the desired button to control playback, volume, and other features.

Simplicity of operator

Use Directly

TROUBLESHOOTING

• Remote not responding:

- Ensure fresh AAA batteries are correctly installed in the remote control.
- Verify there is a clear line of sight between the remote control and the Eversolo device's IR receiver. Obstructions can block the signal.
- Confirm that the remote is operating in IR mode. This remote does not use Bluetooth connectivity.

• Pairing issues:

- Re-attempt the pairing process as described in the 'Setup' section. Ensure you are within 30 cm of the device during pairing.
- Check if the Eversolo device's firmware is up to date, as this can sometimes affect remote compatibility.

MAINTENANCE

- **Battery Replacement:** Replace the AAA batteries when the remote's response becomes sluggish or stops functioning. Always replace both batteries at the same time.
- **Cleaning:** Use a soft, dry cloth to clean the remote control. Avoid using abrasive cleaners, solvents, or harsh

chemicals, as these can damage the surface or internal components.

- **Storage:** If the remote control will not be used for an extended period, remove the batteries to prevent leakage and potential damage.

WARRANTY AND SUPPORT

The ZWP BTR-12 Replacement Remote Control is backed by a 1-year warranty. If you encounter any issues or have questions regarding your remote control, please contact ZWP customer service directly through your purchase platform. Please provide your order details for efficient support.
