PACKAGE CONTENTS

Please check the box for the following items:

- Boult Audio UFO Truly Wireless Earbuds (Left and Right)
- Charging Case
- USB Charging Cable
- User Manual
- Additional Eartips (various sizes)

INITIAL SETUP

Charging the Earbuds and Case

Before first use, fully charge the earbuds and the charging case.

1. Place the earbuds into the charging case, ensuring they are correctly seated.
2. Connect the USB charging cable to the charging port on the case and plug the other end into a compatible USB power source.
3. The LED indicators on the case will show the charging status. Once fully charged, the indicators will change or turn off.

Pairing with Your Device

The earbuds feature fast pairing with Blink & Pair™ tech for quick connection.

1. Open the charging case. The earbuds will automatically enter pairing mode.
2. On your device (smartphone, tablet, etc.), enable Bluetooth.
3. Search for available Bluetooth devices and select "Boult Audio UFO" from the list.
4. Once connected, you will hear a confirmation tone, and the earbuds' LED indicators will change.

Using the Boult Amp App

Maximize your audio experience by downloading the Boult Amp App. The app allows you to customize touch controls, personalize your music with 6 built-in EQ modes, and view device details.

Image: Screenshot of the Boult Amp App interface, showing options to customize touch controls and personalize music with EQ modes.

Voice Assistant

Activate your device's voice assistant (e.g., Google Assistant, Siri) by long-pressing the touch control area on either earbud. This allows for hands-free control and quick access to information.

CARE AND MAINTENANCE

- **Cleaning:** Regularly clean the earbuds and charging case with a soft, dry, lint-free cloth. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, store the earbuds in their charging case to protect them and keep them charged.
- **Avoid Water:** While designed for daily use, avoid submerging the earbuds in water or exposing them to excessive moisture.
- **Temperature:** Do not expose the earbuds to extreme temperatures (hot or cold) as this can affect battery life and performance.

TROUBLESHOOTING
Problem	Possible Solution

Problem	Possible Solution
Earbuds not pairing	Ensure earbuds are charged. Turn off and on Bluetooth on your device. Forget the device in Bluetooth settings and re-pair.
No sound from one earbud	Place both earbuds back in the case, close it, then open again. Check device's audio balance settings.
Charging case not charging	Check the USB cable and power adapter. Ensure the charging port is clean and free of debris.
Low volume	Adjust volume on both earbuds and your connected device. Ensure eartips provide a good seal.
Intermittent connection	Ensure you are within the 10-meter wireless range. Avoid obstacles between earbuds and device. Reduce interference from other wireless devices.
