SETUP GUIDE

1. Installing the Phone Case

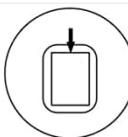

1. Ensure your Vortex C24 phone is clean and free of dust.
2. Gently align your phone with the silicone inner case.
3. Press the phone firmly into the case, ensuring all corners are securely seated.
4. Verify that all ports and buttons are accessible and aligned correctly.

2. Installing the Tempered Glass Screen Protector

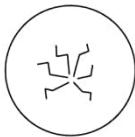

1. Clean your phone screen thoroughly using the provided cleaning wipes (if included) or a microfiber cloth. Ensure no dust particles remain.
2. Carefully peel off the protective film from the adhesive side of the screen protector.
3. Align the screen protector with your phone's screen, paying attention to the cutouts for the camera and sensors.
4. Gently lower the screen protector onto the screen. It will adhere automatically.
5. If air bubbles appear, gently push them towards the edges using a soft cloth or a credit card.

OPERATING INSTRUCTIONS

Using the Kickstand Feature

The case features a built-in kickstand for hands-free viewing. To activate, simply fold the back cover of the case outwards until it forms a stable triangular support. This allows you to prop your phone up in landscape orientation for watching videos or making video calls.

Using the Card Slots

The wallet portion of the case includes multiple slots designed to hold credit cards, ID cards, and cash. Open the front flap of the case to access these slots. Insert your cards securely into the designated pockets.

CARD STORAGE

- Carry 3 cards and cash
- Combines a wallet and phone case in one handy unit

MAINTENANCE AND CARE

- **Cleaning the Case:** Wipe the PU leather and silicone surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as they may damage the material.
- **Cleaning the Screen Protector:** Use a microfiber cloth to gently wipe the screen protector. For stubborn smudges, a small amount of screen cleaner can be applied to the cloth, not directly to the screen.
- **Avoid Extreme Temperatures:** Do not expose the case to extreme heat or cold, as this can affect the material's integrity and appearance.
- **Prevent Overstuffing:** Avoid overfilling the card slots, as this can stretch the material and prevent the case from closing properly.

TROUBLESHOOTING

Case Not Fitting Properly

Ensure you have the correct model of phone (Vortex C24). Double-check that the phone is aligned correctly within the silicone inner case and all corners are fully seated. Remove any existing screen protectors or films that might interfere with the fit.

Screen Protector Bubbles

Small bubbles can often be pushed out to the edges using a soft cloth or a credit card wrapped in a cloth. Ensure the screen was thoroughly cleaned before application to prevent dust-induced bubbles.

Kickstand Instability

Ensure the kickstand is fully extended and locked into its triangular position. Use on a flat, stable surface. Avoid placing excessive weight or pressure on the phone when in kickstand mode.
