The case is designed with a built-in kickstand feature. To use, simply fold the back cover of the case to create a triangular support. This allows your phone to stand horizontally, providing a convenient viewing angle for watching videos or making video calls.

2.2 Magnetic Closure

The case features a magnetic closure to keep the front flap securely closed. This helps protect your phone screen and keeps your cards and money safely inside the wallet compartments. The magnet is integrated into the design for a sleek appearance.

2.3 Card Storage

The wallet case includes dedicated slots for storing cards and cash. Open the front flap to access these compartments. It is designed to hold multiple cards securely, combining your phone case and wallet into one convenient accessory.

3. MAINTENANCE

To maintain the appearance and longevity of your PU leather case, wipe it regularly with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the material. Keep the case away from direct sunlight and extreme temperatures to prevent fading or cracking.

4. TROUBLESHOOTING

- **Case does not fit:** Ensure you have the correct model of phone (Tecno Bg6m) for this specific case. Double-check the product listing for compatibility.
- **Magnetic closure is weak:** Overstuffing the card slots can reduce the effectiveness of the magnetic closure. Try removing some cards or cash.
- **Screen protector bubbles:** If bubbles appear after installation, gently press them towards the nearest edge with a soft cloth. Small bubbles may disappear on their own within 24-48 hours.
