## French Connection FCB3B-S

# French Connection Analog Black Dial Men's Watch

Model: FCB3B-S

Brand: French Connection

## 1. OVERVIEW

The French Connection Analog Black Dial Men's Watch (Model FCB3B-S) is a stylish and contemporary timepiece designed for the modern man. It combines functionality with fashion, featuring a robust mineral glass face, a comfortable silicone strap, and 5 ATM water resistance. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your watch.

## 2. SETUP

## 2.1 Unboxing

Carefully remove the watch and its accessories from the packaging. Inspect the watch for any visible damage. Ensure all components, including the watch, warranty card, and user manual, are present.

Figure 2: The watch comes packaged in a sleek French Connection branded box, ensuring protection during transit.

## 2.2 Initial Time Setting

1. Locate the crown on the right side of the watch case.
2. Gently pull the crown out to the time-setting position (usually the outermost click).
3. Rotate the crown clockwise or counter-clockwise to set the hour and minute hands to the correct time.
4. Once the time is set, push the crown back in firmly to its original position. This will start the watch movement.

Figure 3: Side view of the watch, highlighting the crown and pushers used for time setting and chronograph operation.

### 2.3 Strap Adjustment

The silicone strap is designed for comfort and durability. Adjust the strap by inserting the buckle pin into the desired hole to achieve a snug yet comfortable fit on your wrist. Ensure the watch is not too tight, which could restrict circulation, or too

loose, which could cause it to move excessively.

## 3. OPERATING INSTRUCTIONS

### 3.1 Time Display

The watch features a classic analog display with hour, minute, and second hands. The black dial with clear markers ensures easy readability.

### 3.2 Chronograph Function

This watch is equipped with a multi-functional chronograph. The sub-dials on the main face provide additional timing capabilities. Use the pushers located above and below the crown to operate the chronograph:

- **Top Pusher:** Starts and stops the chronograph.
- **Bottom Pusher:** Resets the chronograph to zero when stopped.

Figure 4: Diagram highlighting key features including multi-functional watch, premium silicone strap, and water resistance.

### 3.3 Water Resistance

The watch has a water resistance rating of 5 ATM (Atmospheres). This means it is suitable for everyday use and can withstand splashes, rain, and brief immersion in water. It is **not** suitable for swimming, diving, or showering with hot water,

as steam can penetrate the seals.

## **4. MAINTENANCE**

### **4.1 Cleaning**

To maintain the appearance of your watch, wipe the case and strap regularly with a soft, dry cloth. For the silicone strap, a mild soap solution and water can be used, followed by thorough drying. Avoid using harsh chemicals or abrasive materials.

### **4.2 Battery Replacement**

The watch is powered by a Lithium Ion battery. When the watch stops running, it indicates that the battery needs replacement. It is highly recommended to have the battery replaced by a qualified watch technician to ensure the water resistance seal is maintained.

### **4.3 Storage**

When not in use, store your watch in a cool, dry place, away from direct sunlight and extreme temperatures. The original watch box is ideal for storage.

Figure 5: Rear view of the watch, showing the stainless steel caseback with model and water resistance markings.

## 5. TROUBLESHOOTING

- Watch Not Running:

Ensure the crown is fully pushed in. If the watch still does not run, the battery may need replacement. Refer to Section 4.2.

- **Time Inaccurate:**

Check if the crown is fully pushed in. If the time continues to be inaccurate, the watch may require professional inspection.

- **Condensation Under Crystal:**

This indicates a breach in the water resistance. Avoid further contact with water and seek professional service immediately.

For issues not covered here, please contact customer support or an authorized service center.

## 6. SPECIFICATIONS

| Feature            | Detail                   |
