## MAINTENANCE

---

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.

- **Electrical Components:** Keep the charging station and LED light components dry. Do not expose to excessive moisture.

## TROUBLESHOOTING

---

### LED Lights Not Working:

- Ensure the vanity is properly plugged into a working power outlet.
- Check if the body sensor is obstructed or if there is sufficient movement to activate it.
- Verify that the power cable for the lights is securely connected.

### Charging Station Not Functioning:

- Confirm the vanity is plugged in and receiving power.
- For wireless charging, ensure your device is compatible and correctly positioned on the charging pad.
- For USB/Type-C ports, try a different cable or device to rule out cable/device issues.
- Some users have reported issues with the phone charger; if problems persist, contact customer support.

### Assembly Difficulties:

- Refer to the detailed instruction booklet and assembly video for visual guidance.
- Ensure all parts are correctly oriented before fastening. Some parts may appear similar but have specific placements.
