## E ECSEM c00+

# MEGWR Dog Bark Collar Charger User Manual

Model: c00+

## INTRODUCTION

---

This manual provides essential information for the safe and effective use of your E ECSEM Replacement Charger for MEGWR Dog Bark Collars. Please read this manual thoroughly before use and retain it for future reference.

## PRODUCT OVERVIEW

---

The E ECSEM Replacement Charger is designed specifically for MEGWR Dog Bark Collars, featuring a magnetic USB charging cable for convenient and reliable power delivery.

## SPECIFICATIONS

Feature	Detail
Input Voltage	5V
Input Current	0.5-1A
Cable Length	60 CM (1.96 FT)
Power Protection	Yes (Over-voltage & Over-current protection)
Connector Type	USB-A to Magnetic 2-Pin
Model Number	c00+

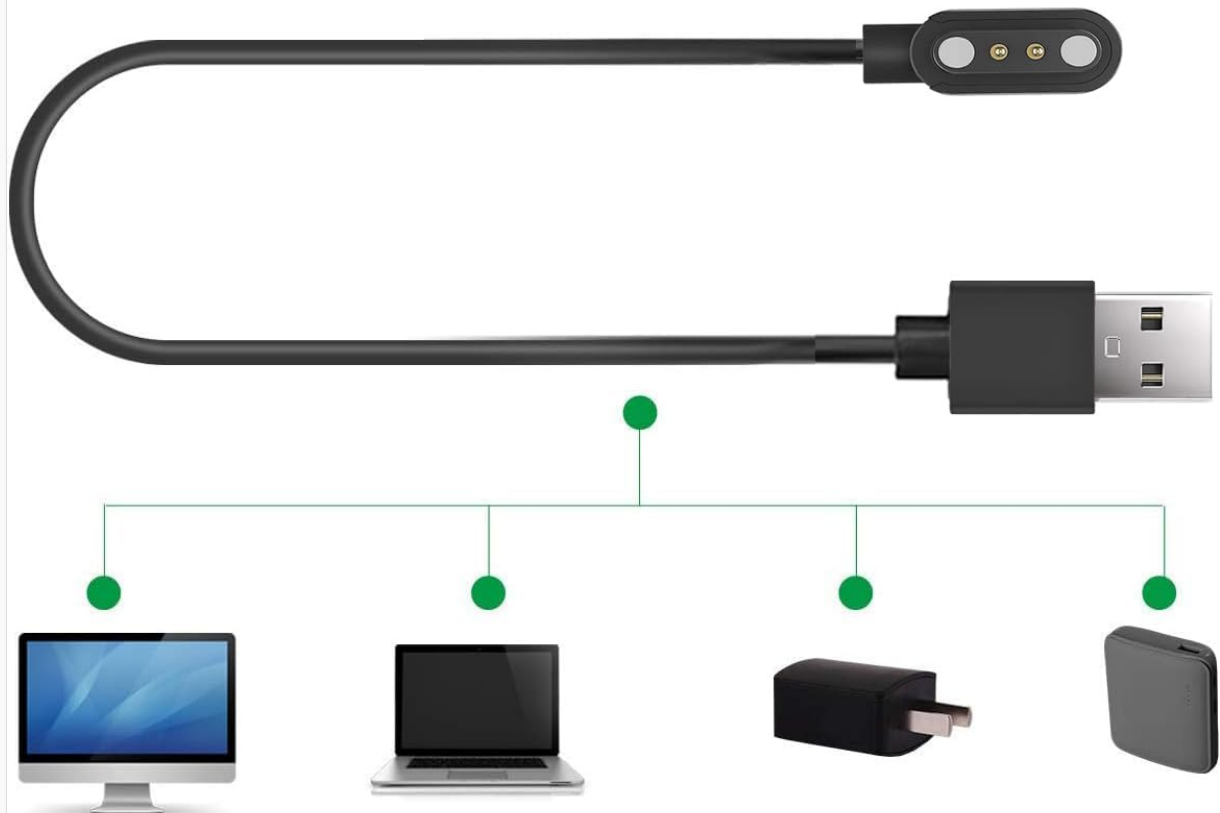

## SETUP AND OPERATION

## Connecting the Charger

1. Ensure your MEGWR Dog Bark Collar is clean and dry before charging.
2. Connect the USB-A end of the charging cable to a stable USB power source. Recommended sources include a PC, Mac, laptop, or notebook USB port for stable voltage.
3. **Important:** Do not use a cell phone charger or fast charging adapter, as this may damage the cable or the collar.
4. Align the magnetic charging puck with the charging contacts on your MEGWR Dog Bark Collar. The magnetic connection will snap into place.

# Handy USB Charging

Connect to USB ports on PC, laptop and any USB-enabled devices for stable charging.

**Note: Please do not use fast charging adaptor.**

## Charging Guidelines

- Charge your MEGWR collar before its battery completely runs down to prolong battery life.
- Limit recharging time to approximately 100 minutes. Overcharging can reduce battery longevity.
- The charging cable is equipped with a built-in smart chip for effective power protection, including over-

voltage and over-current protection.

## Multiple Protection

Smart Chip

Light And Portable

Stable Charging

Safe And Efficient

## MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your E ECSEM charging cable, follow these maintenance tips:

- Keep the magnetic contacts clean and free of debris. Use a soft, dry cloth to wipe them if necessary.
- Avoid excessive bending or sharp angles with the cable, especially near the connectors. The cable features a reinforced design for durability, but proper handling is still recommended.
- Store the charger in a cool, dry place when not in use.

## REINFORCED DESIGN

Sturdy Cord

Safe Charging

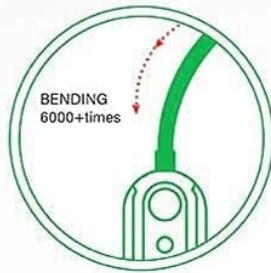

Image: A visual representation of the cable's reinforced design, demonstrating its flexibility with a 180-degree bending radius and emphasizing its sturdy construction for safe charging.

## Ultra Durable

**6000+** times bending life

Image: A graphic illustrating the ultra-durable nature of the cable, indicating it can withstand over 6000 bends, signifying its long lifespan.

### TROUBLESHOOTING

---

If you encounter issues with your charger, consider the following:

- **Not Charging:** Ensure the USB-A connector is fully inserted into a stable power source (PC, laptop). Verify the magnetic puck is correctly aligned and securely attached to the collar's charging points. Clean the charging contacts on both the cable and the collar.
- **Slow Charging:** Confirm you are not using a low-power USB port or an incompatible adapter. Use a recommended USB power source (5V/0.5-1A).

- **Cable Damage:** Inspect the cable for any visible signs of damage, such as fraying or kinks. If damaged, discontinue use and replace the cable.

If problems persist, please refer to the Warranty and Support section.

## WARRANTY AND SUPPORT

---

Your E ECSEM Replacement Charger comes with a **30-day money-back guarantee** and a **12-month warranty**.

If you experience any issues with your charger for MEGWR Dog Bark Collars, please do not hesitate to contact E ECSEM customer support. We are committed to providing assistance and will respond to your inquiries within 24 hours.
