VTech KidiMagic Galaxy Light Instruction Manual

Model: 572705

INTRODUCTION

The VTech KidiMagic Galaxy Light is a versatile 9-in-1 device designed for children aged 6 to 12 years. It functions as an alarm clock, FM radio, speaker, and features an aurora borealis projector, interactive light effects, and various games and activities. This manual provides instructions for proper setup, operation, and maintenance of your device.

SAFETY INFORMATION

- **WARNING:** Not suitable for children under 36 months due to small parts.
- Always supervise children during use.
- Do not immerse the device in water. Clean with a dry cloth only.
- Use only the recommended batteries or VTech power adapter (sold separately).
- Keep away from heat sources and direct sunlight.

PACKAGE CONTENTS

- 1 KidiMagic Galaxy Light unit
- 4 LR6-AA batteries (for demonstration purposes)
- 1 Audio cable (for external music player connection)

PRODUCT OVERVIEW

Familiarize yourself with the main components and controls of your KidiMagic Galaxy Light.

Radio réveil avec projection d'aurores boréales au plafond

Controls and Display:

- **LCD Screen:** Displays time, game information, and settings.
- **Sensor:** Located on top, detects hand movements for light effects.
- **Buttons:** Various buttons for navigation, settings, and game control.
- **Speaker:** Integrated speaker for audio output.
- **Audio Input Jack:** For connecting external music players.
- **Battery Compartment:** Located at the back.

SETUP

1. Battery Installation

1. Locate the battery compartment on the back of the unit.
2. Using a screwdriver, open the battery compartment cover.
3. Insert 4 new LR6-AA batteries, ensuring correct polarity (+/-).
4. Replace the cover and tighten the screw.

Alternatively, the device can be powered by a VTech duo AC adapter (002181), sold separately.

2. Initial Power On

Press the Power button to turn on the device. The screen will light up, and you may be prompted to set the time.

BASIC OPERATION

Setting the Time

1. Access the 'Settings' menu using the navigation buttons.
2. Select 'Time' and adjust the hour and minute using the arrow buttons.
3. Confirm your selection with the 'OK' button.

Setting an Alarm

1. Navigate to the 'Alarm' menu.
2. Choose an alarm slot and set the desired wake-up time.
3. Select an alarm melody from the available options.
4. Confirm to activate the alarm.

Volume Adjustment

Use the dedicated volume buttons (usually marked with '+' and '-') to increase or decrease the sound level.

Automatic Shut-off

The device features an automatic shut-off timer to conserve battery life. You can set it to 60 minutes, 120 minutes, 240 minutes, or disable the sleep mode entirely through the settings menu.

FEATURES

Aurora Borealis Projection

The KidiMagic Galaxy Light projects beautiful aurora borealis effects onto the ceiling, creating a celestial atmosphere in the room. This feature can be activated and customized through the light settings.

6 activités magiques et 4 jeux intégrés

Image: A child interacting with the KidiMagic Galaxy Light, demonstrating the dynamic light effects and color changes.

Interactive Light Effects and Color Changes

Wave your hand over the magic sensor on the device to change its color and activate 12 different light effects and 7 color variations. This allows for personalized ambiance.

FM Radio

Tune into your favorite FM radio stations. The device can store preferred stations for quick access.

External Music Player (MP3) Connection

Connect an external music player, such as an MP3 player, using the included audio cable. This transforms the KidiMagic Galaxy Light into a speaker, allowing you to play your own music.

Se transforme en enceinte musicale

Magic Activities

Explore 6 magical activities designed for fun and relaxation:

1. Crystal Ball
2. Magic Card
3. Your Elf of the Day
4. Emotion Management
5. Positive Emotions
6. Relaxation

MAINTENANCE

- **Cleaning:** Wipe the device with a slightly damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Battery Replacement:** Replace batteries when the device's performance diminishes or if the screen becomes dim. Follow the battery installation steps.
- **Storage:** Store the device in a cool, dry place away from direct sunlight when not in use for extended periods. Remove batteries if storing for several months.

TROUBLESHOOTING

Device does not turn on:

- Check if batteries are inserted correctly with proper polarity.
- Replace with fresh batteries.
- If using an AC adapter, ensure it is properly connected and functional.

Screen is dim or flickering:

- Batteries may be low. Replace them.
- Ensure the device is not exposed to extreme temperatures.

Sound issues:

- Check the volume settings.
- If using an external music player, ensure the audio cable is fully inserted and the external device's volume is up.
