FULMINARE PUT10

FULMINARE PUT10 HEPA Air Purifier Instruction Manual

Model: PUT10

1. SETUP

Follow these steps for initial setup of your FULMINARE PUT10 HEPA Air Purifier.

1. **Unboxing:** Carefully remove the air purifier from its packaging. Ensure all components are present: the main unit, power cord, and user manual.
2. **Filter Installation:** Before first use, open the bottom cover of the air purifier and remove the plastic packaging from the filter. Insert the filter back into the unit and secure the bottom cover.
3. **Placement:** Place the air purifier on a flat, stable surface in the desired room. Ensure there is adequate space around the unit for optimal air intake and output.
4. **Power Connection:** Plug the power cord into the air purifier and then into a standard electrical outlet.

2. OPERATING INSTRUCTIONS

Your FULMINARE PUT10 Air Purifier features intuitive touch controls for easy operation.

- **Power On/Off:** Touch the power icon on the top panel to turn the unit on or off.
- **Fan Speed Adjustment:** Cycle through 3 fan speeds (Low, Medium, High) by touching the fan speed icon.
- **Automatic Mode:** The air purifier is equipped with a precise air quality sensor. In Auto Mode, it dynamically adjusts its operating power based on real-time ambient air quality.
- **Sleep Mode:** Activate Sleep Mode for ultra-quiet operation (as low as 22 dBs). In this mode, indicator lights turn off, and the fan operates at its lowest setting for an undisturbed environment.
- **Timer Function:** Set the purifier to operate for a specific duration using the timer function. Available settings include 2, 4, 8, 10, and 12 hours.
- **Child Lock:** To prevent accidental changes to settings, activate the Child Lock feature by pressing and holding the lock icon. Repeat to unlock.

- **Air Quality Indicator:** The unit features a visible real-time air quality indicator that changes color: Blue for Good Air Quality, Yellow for Moderate Air Quality, and Red for Bad Air Quality.

3. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your air purifier.

- **Filter Replacement:** The smart indicator light will illuminate automatically when the filter needs to be replaced, typically every 3-6 months depending on usage.
- **Replacing the Filter:** To replace, unplug the unit, unscrew the bottom cover, remove the old filter, insert a new FULMINARE original filter, and re-secure the cover.
- **Reset Filter Indicator:** After replacing the filter, press and hold the filter reset button for 3 seconds until the indicator light turns off.

4. TROUBLESHOOTING

If you encounter any issues with your FULMINARE PUT10 Air Purifier, refer to the following common solutions:

- **Unit Not Turning On:** Ensure the power cord is securely plugged into both the unit and a working electrical outlet. Check if the outlet is functional.
- **Reduced Airflow/Effectiveness:** The filter may be clogged. Check the filter replacement indicator. If lit, replace the filter and reset the indicator.
- **Unusual Noise:** Ensure the unit is placed on a stable, flat surface. Check if the filter is correctly installed and the bottom cover is securely tightened.
- **Air Quality Indicator Always Red/Yellow:** This indicates poor or moderate air quality. Allow the purifier to run in Auto Mode for an extended period. If the issue persists, consider replacing the filter.
- **Controls Unresponsive:** Check if the Child Lock function is activated. Deactivate it by pressing and holding the lock icon.

5. SPECIFICATIONS

Brand	FULMINARE
Model Number	PUT10
Product Dimensions	8"D x 8"W x 13"H (8 x 8 x 13 inches)
Item Weight	4.2 Pounds (4.15 Pounds)
Coverage Area	Up to 1095 ft ² (102 m ²)
Filtration Type	True H13 HEPA (3-layer system)
Noise Level	As low as 22 dBs (Sleep Mode)
Power Source	AC

Color	White
-------	-------
