Babymoov A001135

Babymoov Nutribaby(+) 6-in-1 Food Processor

Model: A001135

1. Introduction

Thank you for choosing the Babymoov Nutribaby(+) 6-in-1 Food Processor. This versatile appliance is designed to simplify meal preparation for your baby and the entire family. It combines six essential functions: steaming, blending, defrosting, sterilizing, warming baby bottles, and warming baby food jars. Please read this manual carefully before first use to ensure safe and optimal operation.

2. Safety Instructions

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and/or injury to persons, including the following:

- Read all instructions before use.
- Do not immerse the motor unit, cord, or plug in water or other liquids.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Avoid contact with moving parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Use only attachments recommended or sold by the manufacturer.

- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Always operate on a flat, stable surface.
- Exercise caution when handling sharp blending blades.
- Do not touch hot surfaces. Use handles or knobs.

3. Product Components

The Babymoov Nutribaby(+) includes the following main components:

- Main motor unit with control panel
- Steaming unit with water reservoir
- 2 Steaming baskets (upper and lower)
- Blending carafe with lid and blade assembly
- Cooking liquid collector tray

Image: Overview of the Babymoov Nutribaby(+) components, including the steaming and blending units.

4. Setup and First Use

1. **Unpack:** Carefully remove all components from the packaging.
2. **Clean:** Wash all removable parts (steaming baskets, blending carafe, lids, cooking liquid collector) with warm soapy water before first use. The main motor unit should be wiped with a damp cloth.
3. **Assemble:** Place the steaming unit on the main motor base. Ensure the water reservoir is empty and clean.
4. **Power:** Plug the appliance into a suitable electrical outlet (230 Volts).

5. Operating Instructions

The Nutribaby(+) offers 6 pre-programmed functions, accessible via its intuitive control panel.

Image: The control panel of the Nutribaby(+), showing its digital display and function buttons for easy operation.

5.1. Steaming

1. Pour water into the water reservoir (maximum 400ml).
2. Place chopped ingredients into the steaming baskets. You can use one or both baskets.
3. Place the baskets onto the steaming unit and cover with the lid.
4. Select the steaming function on the control panel and set the desired cooking time. Refer to the cooking guide (not provided in this manual, typically in a separate booklet) for recommended times.
5. The appliance will automatically shut off and emit an audible alarm when steaming is complete.

5.2. Blending

1. After steaming, transfer the cooked ingredients from the baskets into the blending carafe.
2. Add some of the collected cooking liquid from the tray to adjust the consistency. This liquid contains valuable nutrients.

3. Secure the blending carafe lid.
4. Select the blending function. The Nutribaby(+) offers 3 blending speeds to achieve different textures, suitable for various stages of baby-led weaning (from smooth purees for 4-6 months to chunkier textures for 8+ months).
5. Blend until the desired consistency is reached.

Image: Illustrates the three blending speeds, allowing for progressive food textures suitable for babies from 4 months to over 8 months.

5.3. Other Functions (Defrosting, Sterilizing, Warming)

- **Defrosting:** Place frozen food in a steaming basket or suitable container within the steaming unit. Select the defrost function and set the appropriate time.
- **Sterilizing:** Place baby bottles or accessories in the steaming baskets. Add water to the reservoir and select the sterilizing function. The steam will sterilize the items.
- **Warming Baby Bottles/Jars:** Place the bottle or jar in a steaming basket. Add water to the reservoir and select the warming function.

Image: The Nutribaby(+) performing its 6-in-1 functions, including steaming salmon and broccoli, and blending fruit puree.

6. Batch Cooking

With a large capacity of 2.2 L (1500 ml for cooking, 700 ml for blending), the Nutribaby(+) is ideal for batch cooking. You can prepare multiple meals at once, saving time and effort. The independent steaming baskets allow you to cook different foods simultaneously without mixing flavors.

7. Cleaning and Maintenance

7.1. Daily Cleaning

- Always unplug the appliance before cleaning.
- All removable parts (steaming baskets, blending carafe, lids, cooking liquid collector) are dishwasher safe.
- Wipe the main motor unit with a damp cloth. Do not immerse it in water.
- Clean the blending blade assembly carefully, as blades are sharp.

7.2. Descaling

Over time, mineral deposits may accumulate in the water reservoir. Regular descaling is recommended to maintain performance.

1. Mix 100ml of white vinegar with 100ml of water.
2. Pour the mixture into the water reservoir.
3. Let it sit for several hours (or overnight) without operating the appliance.
4. Empty the reservoir and rinse thoroughly with clean water.
5. Run a steaming cycle with clean water to flush out any remaining vinegar smell.

8. Troubleshooting

Problem	Possible Cause	Solution
Appliance does not turn on	Not plugged in; power outage; faulty outlet.	Check power connection; try a different outlet.
Steaming not working	No water in reservoir; reservoir lid not properly closed; descaling needed.	Fill water reservoir; ensure lid is secure; descale the appliance.
Blender not working	Carafe not properly assembled; lid not secure; motor overheated.	Ensure carafe and lid are correctly assembled; allow motor to cool down.
Blender leaks	Blade assembly not tightened; seal damaged; carafe overfilled.	Ensure blade assembly is securely tightened; check seal for damage and replace if necessary; do not overfill the carafe.
Food not cooking evenly	Food pieces too large; baskets overloaded.	Cut food into smaller, uniform pieces; do not overload baskets.

9. Specifications

- **Model Number:** A001135
- **Functions:** 6-in-1 (Steam, Blend, Defrost, Sterilize, Warm Bottles, Warm Jars)
- **Capacity:** 2.2 liters total (1500 ml steaming, 700 ml blending)
- **Power Source:** AC Adapter
- **Voltage:** 230 Volts
- **Wattage:** 500 watts
- **Blending Speeds:** 3
- **Dimensions (D x W x H):** 25 cm x 31.5 cm x 39.5 cm
- **Weight:** 3.83 Kilograms
- **Material:** Plastic (BPA-free)
- **Blade Material:** Stainless Steel
- **Dishwasher Safe Parts:** Yes (removable parts)
- **Special Features:** Programmable, Automatic Shut-off, Audible Alarm
