1. SETUP

1.1 Unboxing and Initial Inspection

Carefully remove all components from the packaging. Ensure all items listed in the packing list are present and undamaged. The packing list is typically found on the side of the product box or in the quick start guide.

Your browser does not support the video tag.

Video: Airzeen V8 Pro Unboxing and Component Overview. This video demonstrates the unboxing process and highlights the main components included with the robot vacuum.

1.2 Charging Dock Placement

Place the charging dock against a wall in an open area, ensuring there are no obstacles within 1 meter (3 feet) on either side and 1.5 meters (5 feet) in front. Connect the power adapter to the charging dock and plug it into a power outlet. Ensure the indicator light on the charging dock is illuminated.

1.3 Installing Side Brushes

Turn the robot vacuum upside down. Align the side brushes with the corresponding posts on the bottom of the robot and press them down until they click into place.

1.4 Initial Charging

Place the robot vacuum onto the charging dock. Ensure the charging contacts on the robot align with those on the dock. The robot will begin charging automatically. For first-time use, fully charge the robot before operation (approximately 4-5

hours).

1.5 App Installation and Connection

Download the Airzeen app from your mobile device's app store (iOS or Android). Follow the in-app instructions to connect your V8 Pro robot vacuum to your home Wi-Fi network. This typically involves creating an account, selecting your device model, and following pairing steps. The app allows for advanced control, scheduling, and map management.

2. OPERATING INSTRUCTIONS

2.1 Power On/Off

Press and hold the power button on the robot for 3 seconds to power on or off. Alternatively, use the Airzeen app.

2.2 Cleaning Modes

The V8 Pro offers multiple cleaning modes, selectable via the app or the robot's control buttons:

- **Auto Clean:** The robot intelligently navigates and cleans your home using its LiDAR system.
- **Spot Clean:** Cleans a specific area more intensely.
- **Edge Clean:** Cleans along walls and furniture edges.
- **Scheduled Clean:** Set specific times for the robot to clean automatically.

2.3 Vacuuming and Mopping (3-in-1 Function)

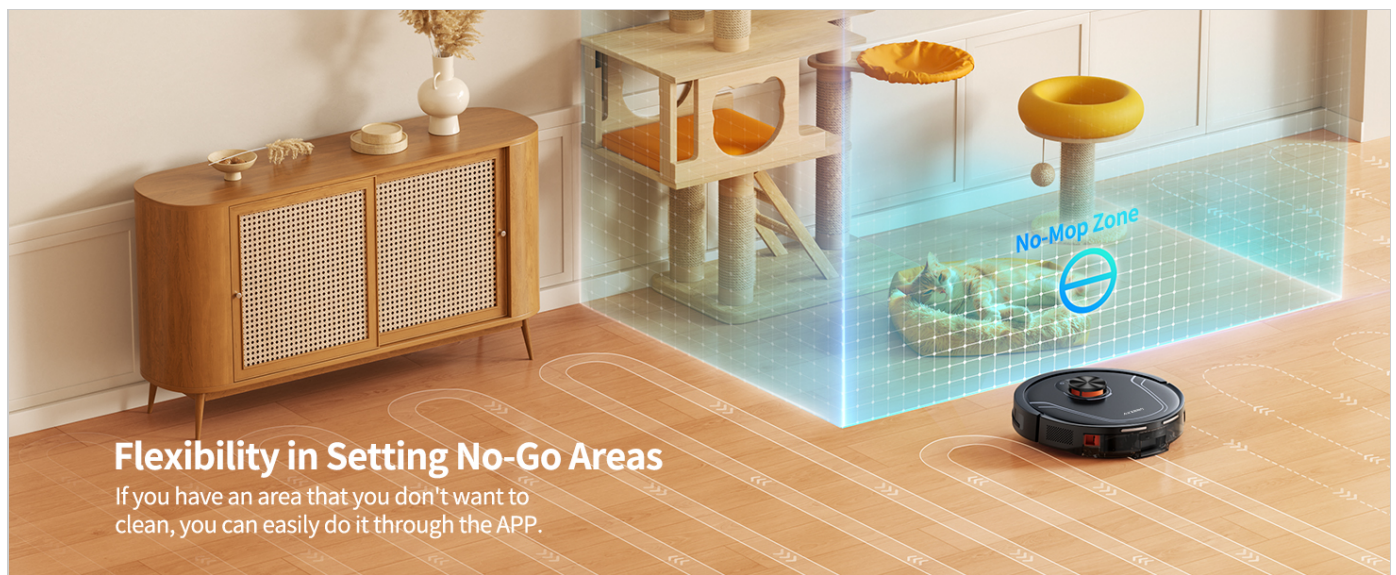

The V8 Pro combines vacuuming, mopping, and sweeping. To use the mopping function, ensure the 2-in-1 water tank and dust box is filled with water and the mop cloth is attached to the mop holder. The robot will automatically detect the mop module and activate mopping mode.

2.4 Suction Power and Water Flow Adjustment

Adjust suction power (Quiet, Standard, Powerful, Max) and water flow levels (Low, Medium, High) via the Airzeen app to suit different floor types and cleaning needs. The robot features a carpet auto-boost function, automatically increasing suction when it detects carpeted surfaces.

Flexibility in Setting No-Go Areas

If you have an area that you don't want to clean, you can easily do it through the APP.

Image: The Airzeen V8 Pro showcasing its 5000 Pa suction power, illustrating how it picks up debris from the floor.

2.5 LiDAR Navigation and Mapping

The V8 Pro uses LiDAR navigation to create a precise map of your home. This map allows for efficient, systematic cleaning paths (Z-shaped cleaning) and enables features like multi-floor mapping (up to 5 maps) and customized cleaning zones.

Intelligent SLAM Radar Navigation

Automatically map your house and intelligently detect objects. Cleaning just got easier!

Image: The Airzeen V8 Pro utilizing intelligent SLAM radar navigation to automatically map the house and detect objects for efficient cleaning.

2.6 Customized Cleaning and No-Go Zones

Using the Airzeen app, you can define specific cleaning areas, set cleaning schedules for individual rooms, and establish "No-Go Zones" or "No-Mop Zones" to prevent the robot from entering certain areas or mopping carpets.

Image: A smartphone screen displaying the Airzeen app interface, illustrating how users can customize cleaning schedules and define no-go areas for the robot vacuum.

2.7 Auto-Recharge and Resume

When the battery is low, the V8 Pro will automatically return to its charging dock. Once fully charged, it will resume cleaning from where it left off, ensuring complete coverage of larger areas.

Image: The Airzeen V8 Pro robot vacuum returning to its charging dock for automatic recharge, with an illustration of its ability to resume cleaning after charging.

2.8 Safety Features

The robot is equipped with anti-drop sensors to prevent falls from stairs and anti-collision sensors to avoid obstacles. It can also climb over obstacles up to 20mm high.

Image: Visual representation of the Airzeen V8 Pro's safety features, including anti-drop, anti-collision, and its ability to climb over small obstacles.

2.9 Voice Control

The V8 Pro supports voice control via Amazon Alexa and Google Assistant. Link your Airzeen account to your smart home assistant app and use voice commands to start, stop, or pause cleaning.

3. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your Airzeen V8 Pro. Always power off the robot before performing any maintenance.

3.1 Cleaning the 2-in-1 Dustbin and Water Tank

1. Press and hold the snap on the side of the robot to remove the 2-in-1 dustbin and water tank.
2. Open the dustbin cover and empty the debris.
3. Remove the HEPA filter and tap it gently to remove dust. Do not wash the HEPA filter with water.
4. Rinse the dustbin and water tank with water. Ensure they are completely dry before reinserting the filter and placing them back into the robot.

3.2 Cleaning the Mop Cloth and Holder

Remove the mop cloth from the mop holder. Wash the mop cloth with water and mild detergent. Allow it to air dry

completely before reattaching. Rinse the mop holder if necessary.

3.3 Cleaning Side Brushes

Periodically remove the side brushes and clean any hair or debris wrapped around them. Use the cleaning tool provided to cut tangled hair if needed.

3.4 Cleaning Main Brush

Open the main brush cover on the bottom of the robot and remove the main brush. Use the cleaning tool to remove hair and debris from the brush and its bearings. Reinstall the main brush, ensuring it clicks into place.

3.5 Cleaning Sensors and Charging Contacts

Wipe the anti-drop sensors, anti-collision sensors, and charging contacts on both the robot and the charging dock with a clean, dry cloth. This ensures proper navigation and charging.

4. TROUBLESHOOTING

If your Airzeen V8 Pro encounters an issue, refer to the following common solutions before contacting support.

Problem	Possible Cause	Solution
Robot does not power on.	Low battery or not charged.	Place the robot on the charging dock and ensure it is charging. Allow several hours for a full charge.
Robot gets stuck or moves erratically.	Obstacles, tangled brushes, or dirty sensors.	Clear obstacles from the cleaning path. Clean the main brush, side brushes, and all sensors.
"Move to a leveled surface" error.	Cliff sensors are dirty or detecting a false drop.	Clean the cliff sensors on the bottom of the robot with a dry cloth. Ensure the robot is on a flat surface.
Poor cleaning performance.	Full dustbin, dirty filters, or worn brushes.	Empty the dustbin and clean the filter. Check and clean or replace the main brush and side brushes.
Robot does not return to charging dock.	Charging dock is obstructed or dirty contacts.	Ensure the charging dock is in an open area. Clean the charging contacts on both the robot and the dock.
App connection issues.	Incorrect Wi-Fi password, weak signal, or app glitch.	Verify Wi-Fi password and signal strength. Restart the robot and your router. Re-pair the device in the app.

5. SPECIFICATIONS

Feature	Detail
Brand	Airzeen
Model Number	V8 Pro
Suction Power	Up to 5000Pa
Navigation Type	LiDAR Navigation

Feature	Detail
Cleaning Functions	3-in-1 (Vacuuming, Mopping, Sweeping)
Mapping Capability	Multi-Floor Mapping (up to 5 maps)
Control Method	App Control, Voice Control (Alexa/Google Assistant)
Filter Type	HEPA
Power Source	Battery Powered
Product Dimensions	32.5L x 32.5W x 9.7H Centimetres
Surface Recommendation	Carpet, Hard Floors
Included Components	Robot Vacuum, Charging Dock, Adapter, 2-in-1 Dustbin & Water Tank, Side Brush, Main Brush, Mop Cloth Holder, High-efficiency Filter, Cleaning Brush, User Manual, Quick Guide, Mop Cloth

6. WARRANTY & SUPPORT

6.1 Warranty Information

The Airzeen V8 Pro Robot Vacuum and Mop comes with a standard manufacturer's warranty. Please refer to the warranty card included in your product packaging for specific terms, conditions, and duration. Keep your purchase receipt as proof of purchase for warranty claims.

6.2 Customer Support

For technical assistance, troubleshooting not covered in this manual, or warranty inquiries, please contact Airzeen customer support. Contact details can typically be found on the official Airzeen website or in your product's quick start guide.

- **Online Support:** Visit the official Airzeen website for FAQs, support articles, and contact forms.
- **Email Support:** Refer to your product documentation for the customer service email address.
- **Phone Support:** Check your product documentation for regional phone support numbers.
