## Sunjoy Sunjoy

# Sunjoy Modern Black Garden Fence Instruction Manual

Model: Sunjoy

Brand: Sunjoy

## INTRODUCTION

---

The Sunjoy Modern Black Garden Fence with LED Path Lights is designed to enhance your outdoor space with both aesthetic appeal and practical functionality. This solar-powered border fencing offers an energy-efficient solution for defining garden areas, pathways, or flower beds, while providing subtle illumination at night. Crafted from durable materials, it ensures long-lasting performance and easy installation.

## PRODUCT FEATURES

---

- **Energy-Efficient Power:** Equipped with solar panels that have a long lifespan and require minimal maintenance, contributing to reduced electricity bills.
- **Secure Interlocking System:** Each panel connects easily via interlocking rings on the side, ensuring a sturdy and reliable fence setup.
- **Effortless Installation:** Designed for quick and hassle-free setup, requiring no digging or additional tools. Simply insert the panels directly into the soil.
- **Modern Aesthetic:** Features a contemporary design crafted from thick wrought iron solid steel, adding elegance and sophistication to any outdoor space.
- **Durable Construction:** Made from robust wrought iron solid steel, these panels are heavier and sturdier, providing enhanced durability and longevity.

## DURABLE CONSTRUCTION

Crafted from thick wrought iron solid steel, these panels are heavier and sturdier, providing enhanced durability and longevity for your garden border.

### SETUP GUIDE

---

The Sunjoy Garden Fence is designed for quick and tool-free installation. Follow these steps to set up your new garden border:

1. **Unpack Components:** Carefully remove all fence panels and solar light tops from the packaging.
2. **Attach Solar Lights:** Each fence post is designed to accommodate a solar light. Gently place the solar light unit onto the top of each designated fence post. Ensure it is seated securely.
3. **Position Panels:** Determine the desired layout for your garden fence. The panels feature an interlocking system for easy connection.
4. **Interlock Panels:** Connect the panels by aligning the interlocking rings on the sides of adjacent panels and securing them together. This creates a continuous and sturdy fence line.
5. **Insert into Soil:** Once connected, simply insert the pointed ends of the fence posts directly into the soil. No digging or special tools are required. Ensure the panels are firmly planted for stability.

## EFFORTLESS INSTALLATION

No digging or tools needed – simply insert panels into the soil for quick and hassle-free setup, saving time and effort.

## OPERATING INSTRUCTIONS

---

The Sunjoy Garden Fence features integrated solar-powered LED lights that operate automatically. For optimal performance, ensure the solar panels receive adequate sunlight during the day.

- **Automatic Operation:** The solar lights are equipped with a light sensor that automatically turns them on at dusk and off at dawn.
- **Charging:** Allow the solar panels to charge for 6-8 hours in direct sunlight for full battery capacity. Even on cloudy days, the efficient solar panels will charge, though performance may vary.
- **Illumination Duration:** A full charge provides up to 8 hours of continuous illumination during the night.

## ENERGY-EFFICIENT POWER

Solar panels with a long lifespan and low maintenance reduce electricity bills, offering long-term savings.

## MAINTENANCE

---

The Sunjoy Garden Fence is designed for low maintenance. Regular cleaning will help maintain its appearance and ensure optimal performance of the solar lights.

- **Cleaning:** Periodically wipe down the fence panels and solar light surfaces with a damp cloth to remove dust, dirt, or debris. For more stubborn grime, a mild soap solution can be used.
- **Waterproof Design:** The fence has an IP44 waterproof rating, meaning it is protected against splashing water from any direction. It can withstand rain and general outdoor exposure.
- **Solar Panel Care:** Ensure the solar panels are kept clean and free from obstructions (like leaves or snow) to maximize sunlight absorption and charging efficiency.

## TROUBLESHOOTING

---

If your Sunjoy Garden Fence lights are not performing as expected, consider the following common issues and solutions:

- **Lights Not Turning On at Night:**
  - Ensure the solar panel is clean and free from obstructions.
  - Verify the fence is placed in an area that receives at least 6-8 hours of direct sunlight daily.
  - Check if there are any external light sources (e.g., streetlights, porch lights) near the solar panel that might be preventing the light sensor from activating.
  - Allow the lights to charge for a full sunny day before expecting full performance.
- **Lights Dim or Short-Lived:**
  - Insufficient charging due to cloudy weather or shaded location. Relocate if possible or ensure panels are clean.
  - Battery may be reaching the end of its lifespan. While designed for longevity, rechargeable batteries have a finite life.
- **Physical Damage:**
  - Inspect panels for any visible damage. Contact customer support if significant damage is present.

## SPECIFICATIONS

---

Attribute	Detail
Material	Iron/Solar Panel
Color	Black
Brand	Sunjoy
Style	Strip Pattern
Product Dimensions	23.03"L x 14.05"W
Assembly Required	No
Number of Pieces	5
Unit Count	5.0 Count
Item Weight	13.23 pounds
Country of Origin	China
Item Model Number	Sunjoy
Included Components	Fences
Batteries Required?	No
