tunuo 60x36 Inch-Recessed

tunuo Recessed Medicine Cabinet 60x36 Inch with LED Lighting and Defogger - Instruction Manual

Model: 60x36 Inch-Recessed

1. Product Overview

The tunuo 60x36 Inch Recessed Medicine Cabinet is designed to enhance your bathroom with both functionality and modern aesthetics. It features integrated LED lighting with adjustable color temperature and dimming capabilities, an anti-fog mirror, and convenient built-in electrical outlets and USB ports. This cabinet is intended for recessed installation, providing a sleek, flush appearance.

This image displays the tunuo 60x36 Inch Recessed Medicine Cabinet with its integrated LED lighting, positioned above a double sink vanity in a modern bathroom setting.

2. Safety Information

Please read all instructions carefully before installation and use. Retain this manual for future reference.

- Installation must be performed by a qualified electrician in accordance with all local electrical codes.
- Ensure power is disconnected at the circuit breaker before beginning any installation or maintenance.
- This product is designed for hardwired connection only.
- Do not attempt to modify or disassemble the cabinet or its electrical components.
- The mirror is explosion-proof, but handle with care to prevent damage.

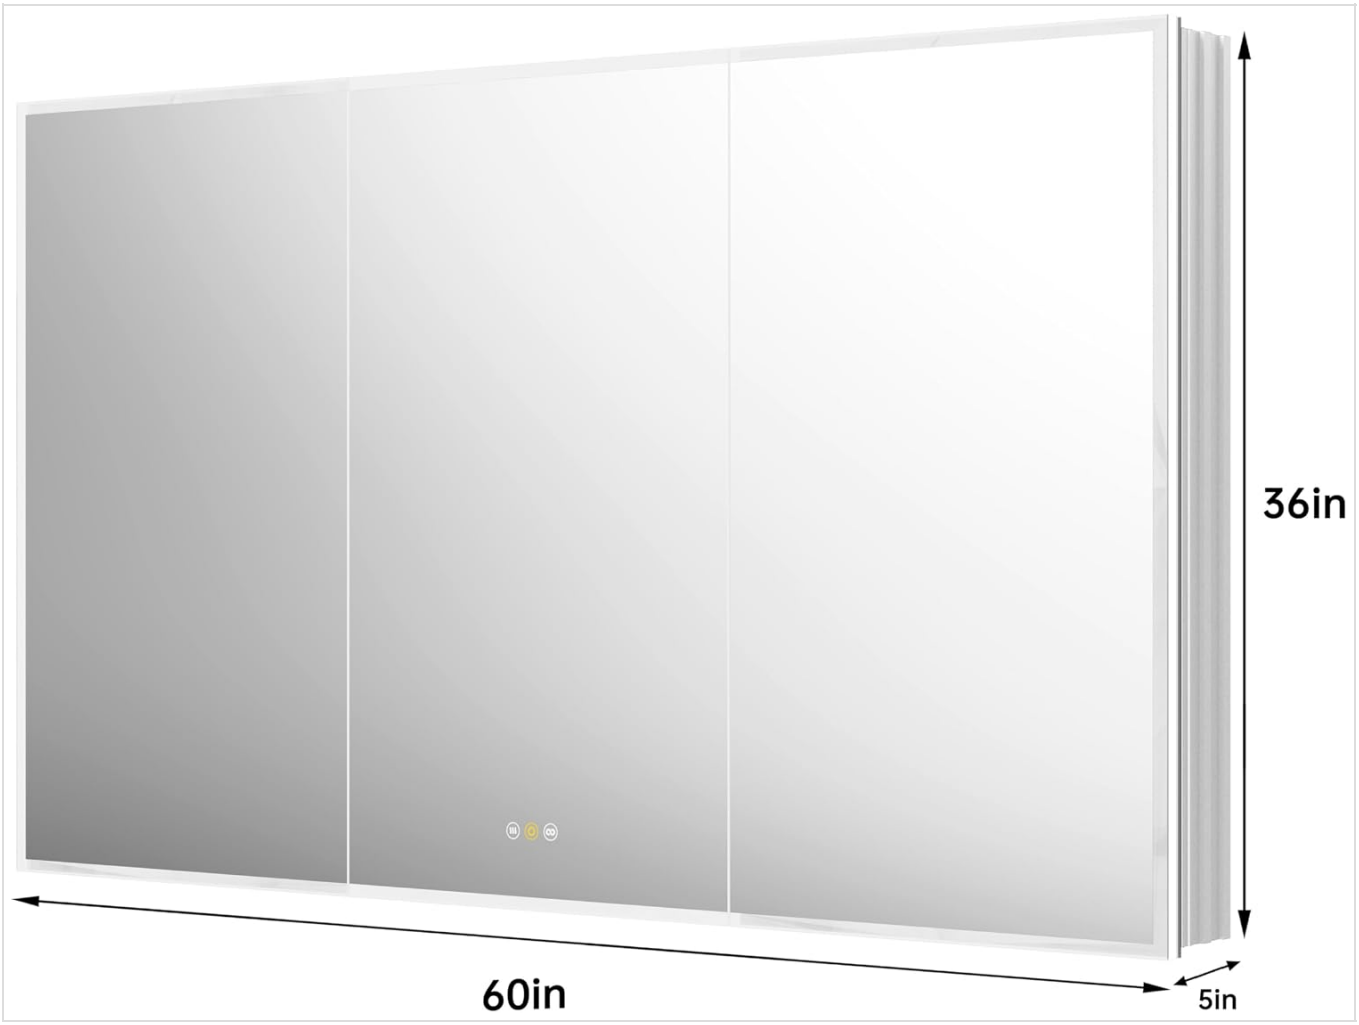

3. Setup and Installation

3.1 Unpacking and Inspection

- Carefully remove the cabinet from its packaging. The packaging is strengthened to protect the cabinet body during transit.
- Inspect all components for any signs of damage. If damage is found, do not proceed with installation and contact customer support.
- Verify all included components are present: Mirror cabinet, shelves, and mounting hardware.

3.2 Site Preparation

This cabinet is designed for recessed mounting. The rough opening in the wall should be at least 1/2 inch larger than the measured cabinet opening to allow for proper door operation and fit. Ensure the wall cavity can accommodate the cabinet's dimensions.

This diagram illustrates the precise measurements of the medicine cabinet, indicating a width of 60 inches, a height of 36 inches, and a depth of 5 inches, crucial for planning the recessed installation.

3.3 Electrical Connection (Hardwired Only)

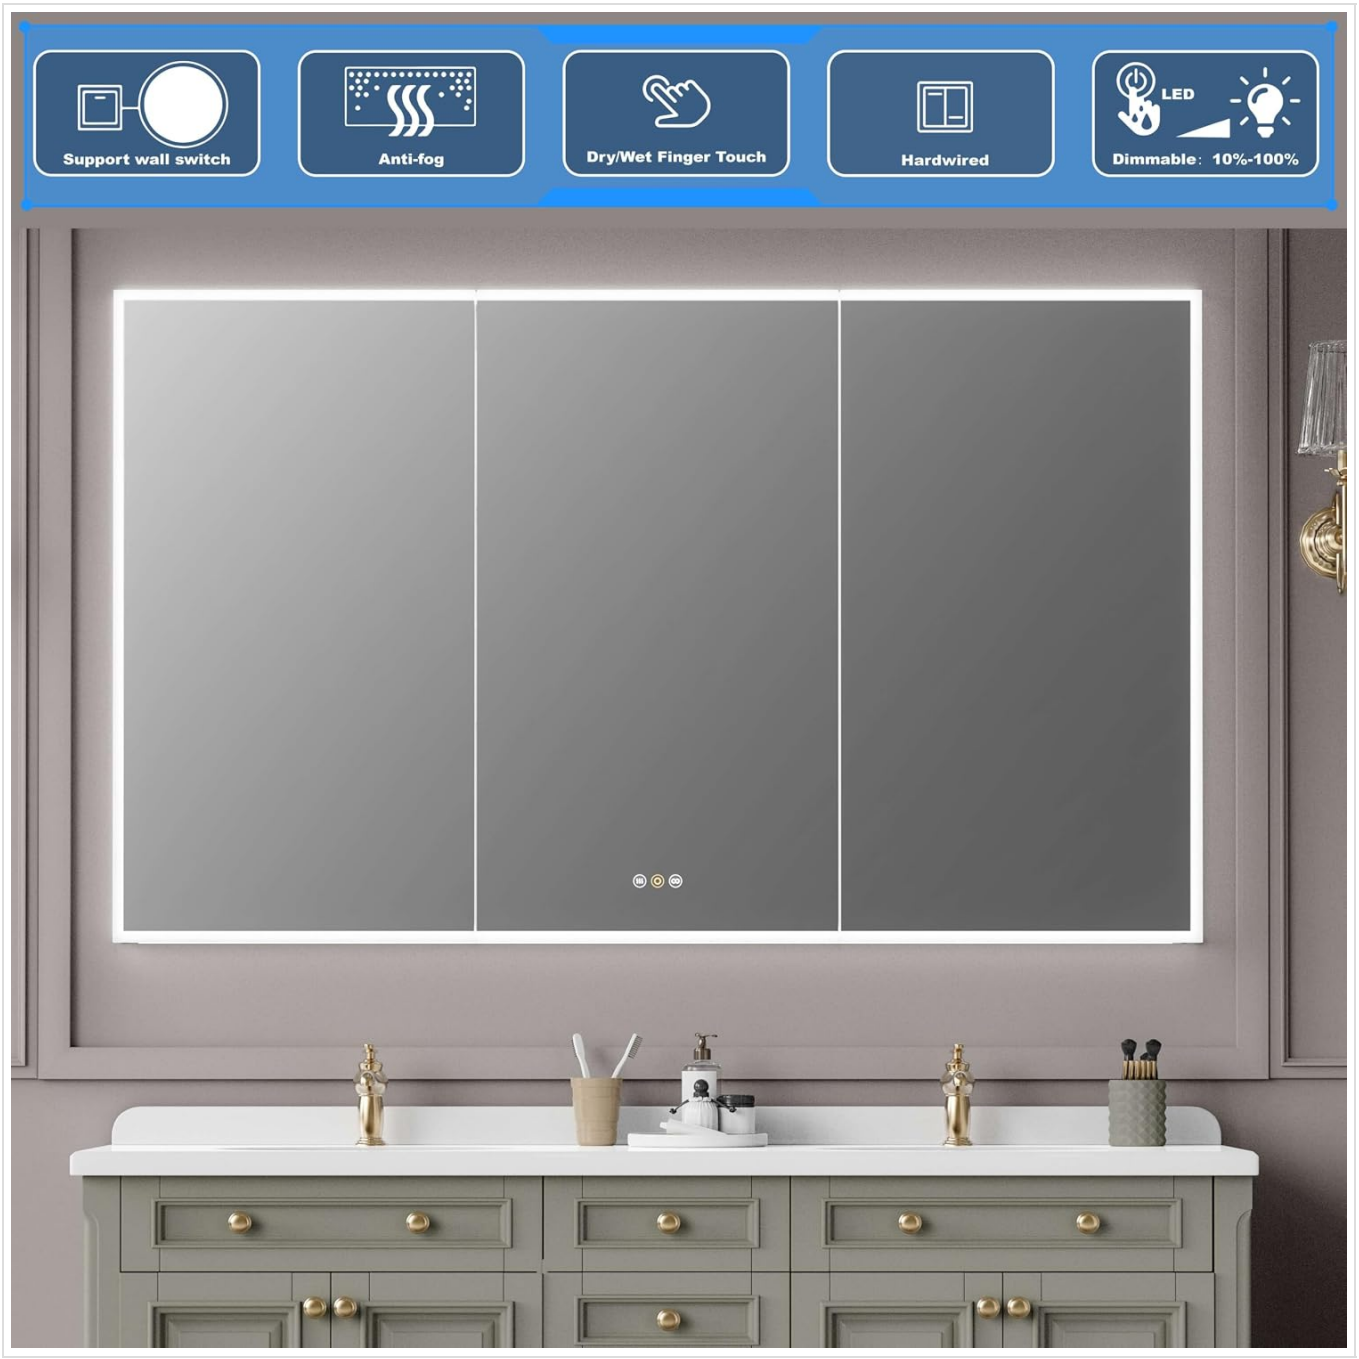

- Ensure the power supply to the installation area is turned off at the main circuit breaker.
- Connect the cabinet's electrical wiring to a dedicated hardwired circuit. This product does not support plug-in operation.
- Follow all local electrical codes and consult a qualified electrician if you are unsure about the wiring process.

3.4 Mounting the Cabinet

- Carefully insert the cabinet into the prepared wall opening.
- Secure the cabinet using the provided mounting hardware, ensuring it is level and firmly attached to the wall studs or appropriate anchors.
- Install the adjustable glass shelves to your desired height.

4. Operating Instructions

The cabinet features touch controls located on the mirror surface. These controls are designed to be responsive to both dry and wet finger touches.

This graphic highlights the cabinet's advanced functionalities, including compatibility with a wall switch, an anti-fog mirror, touch controls operable with wet or dry hands, hardwired power connection, and adjustable brightness from 10% to 100%.

4.1 Power On/Off and Dimming

- **Power Button (Middle):** Short press the middle power button to turn the LED light on or off.
- **Dimming:** After turning on the light, long press the middle power button to adjust the brightness from 10% to 100%. Release the button when the desired brightness is reached.

This graphic illustrates the adjustable brightness of the LED lighting, allowing users to dim the light from 10% to 100% to suit their preference and ambient conditions.

4.2 Color Temperature Adjustment

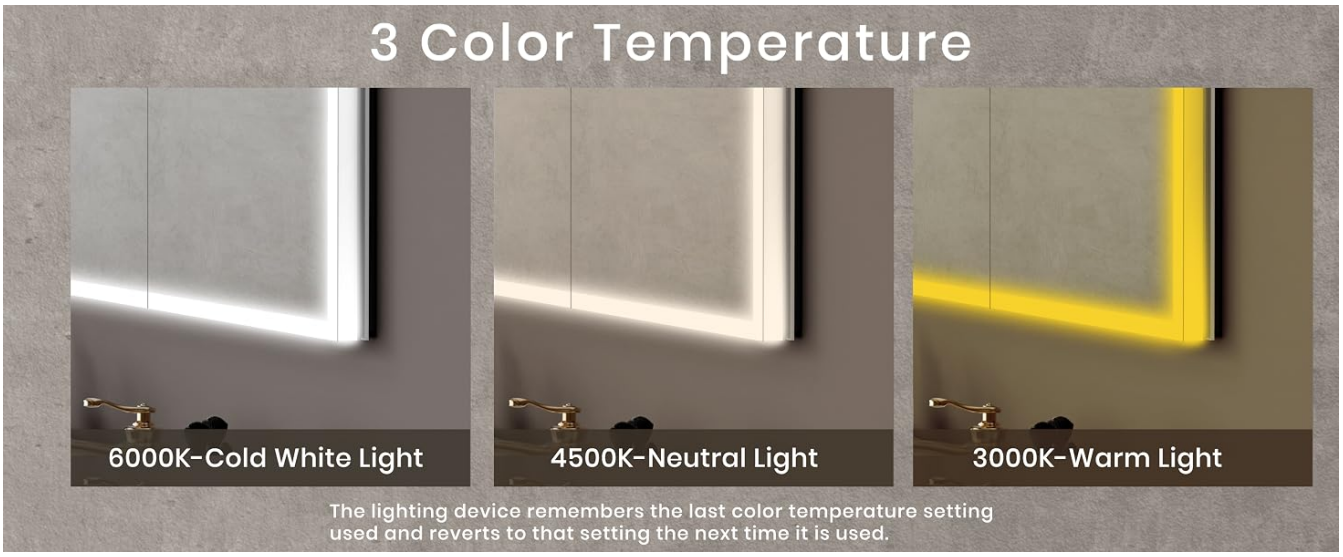

- **Color Change Button (Right):** After turning on the light, short press the right button to cycle through the three available color temperatures:
  - 3000K (Warm Light)
  - 4500K (Neutral Light)
  - 6000K (Cold White Light)

This visual guide shows the different lighting moods achievable with the cabinet's adjustable color temperature feature: a bright 6000K cold light, a cozy 3000K warm light, and a balanced 4500K neutral light.

4.3 Anti-Fog Function

- **Anti-Fog Button (Left):** Press the left button to activate the anti-fog feature. This quickly clears steam from the mirror surface after showering.

This image demonstrates the effectiveness of the anti-fog feature, showing a clear mirror surface after activation, contrasting with a fogged area, ensuring visibility even after a hot shower.

4.4 Memory Function

The LED medicine cabinet supports a wall switch and features a memory function. This function retains the last selected light brightness and color temperature settings, so you do not need to reset them each time the cabinet is turned off and on.

4.5 Internal Power Outlets

The cabinet includes a built-in electrical outlet and a USB port, conveniently located inside. These are ideal for charging shavers, electric toothbrushes, or other small electronic devices within the bathroom environment.

The open cabinet reveals its spacious interior with adjustable glass shelves, a convenient integrated electrical outlet and USB charging port, and the durable, quiet soft-close hinges.

5. Maintenance

5.1 Cleaning the Mirror and Cabinet

- Use a soft, damp cloth and a mild, non-abrasive glass cleaner to clean the mirror surfaces.
- Avoid using harsh chemicals or abrasive materials that could damage the mirror or cabinet finish.
- Wipe the cabinet exterior with a soft, dry cloth.

5.2 Hinge Care

The cabinet is equipped with strong mute cushioning damping hinges, designed for quiet and smooth operation. Periodically check the hinges for any signs of loosening and tighten if necessary. Avoid excessive force when opening

or closing the doors.

5.3 LED Belts

The energy-saving LED belts are waterproof. No special maintenance is required for the LED lighting system under normal use.

6. Troubleshooting

6.1 Lights Not Turning On

- Check the main power supply to the cabinet at the circuit breaker.
- Ensure the hardwired connection is secure.
- Verify that the touch power button is being pressed correctly.

6.2 Anti-Fog Not Working

- Ensure the anti-fog button has been activated.
- Allow a few moments for the defogger to heat up and clear the mirror surface.

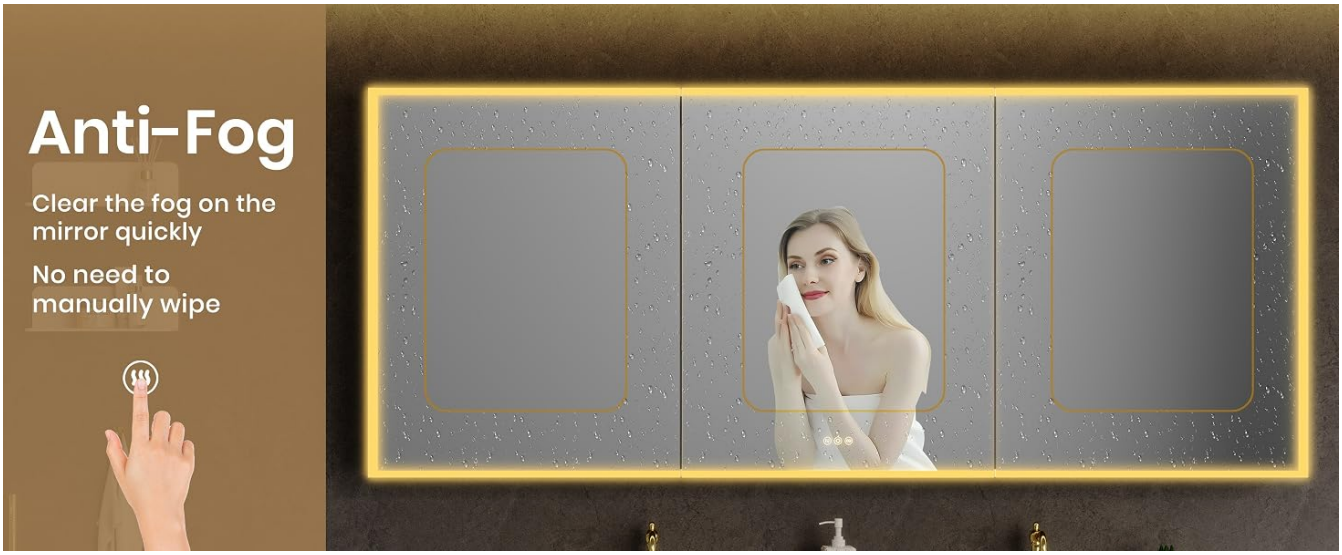

6.3 Doors Not Aligning Properly

- Check the hinge adjustments. Most soft-close hinges allow for minor adjustments to align the doors.
- Ensure the cabinet itself is installed level and plumb within the wall opening.

7. Specifications
