Lamshaw Blackview W60 Screen Protector

Lamshaw Full Coverage TPU Screen Protector User Manual

For Blackview W60 Military Smart Watch

INTRODUCTION

Thank you for choosing the Lamshaw Full Coverage TPU Screen Protector for your Blackview W60 Military Smart Watch. This protector is designed to offer superior defense against scratches and abrasions while maintaining the original touch sensitivity and clarity of your device's display. This manual will guide you through the installation process, provide maintenance tips, and offer solutions for common issues.

PRODUCT FEATURES

- **Soft TPU Material:** Provides flexible and durable protection compatible with the Blackview W60 Military Smart Watch. Ensure your watch model number matches before purchase.
- **Three-Layer Design:** The protector features a three-layer structure for precise application.
- **Self-Healing Technology:** Minor scratches and small bubbles can automatically disappear within 24 hours due to the self-healing properties of the material.
- **Anti-Scratch and Anti-Abrasion:** Effectively protects your watch screen from daily wear and tear, including scratches and scuffs.
- **High Transparency and Sensitivity:** Maintains the original display clarity and ensures 100% touch screen responsiveness.

Automatic Repair

The self-healing technology constantly eliminates minor scratches and bubbles within 24hrs.

WHAT'S IN THE BOX

Each package contains the following items:

- 6 x Screen Protectors
- 1 x Squeegee
- 1 x Microfiber Cloth
- 3 x Alcohol Cleaning Wipes (Wet & Dry)

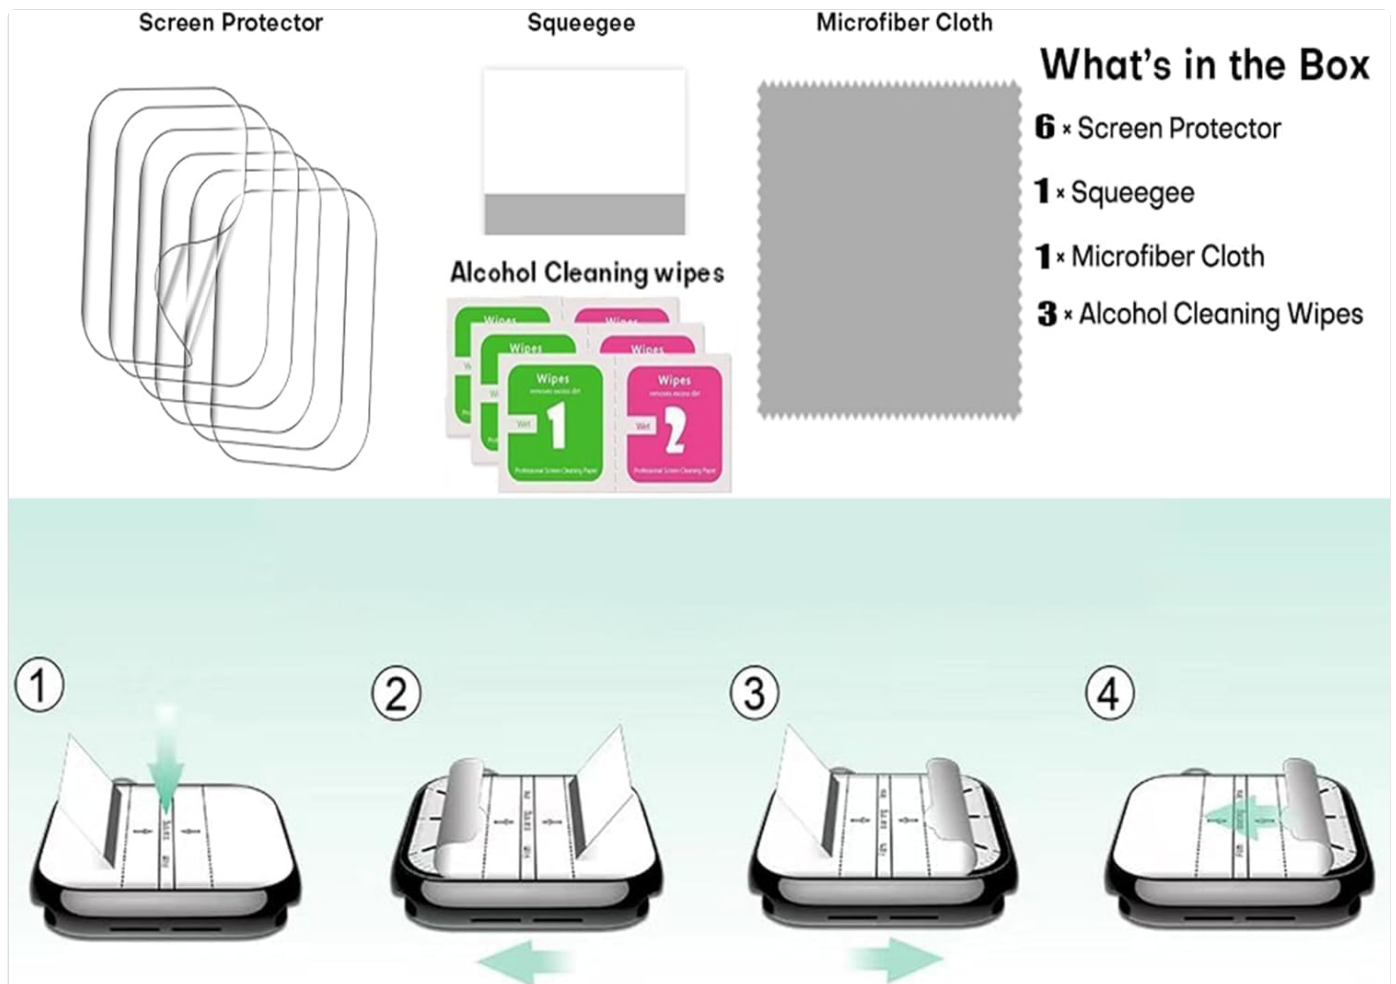

Image: Step-by-step visual guide for applying the screen protector.

Important Notes for Installation:

- If you encounter a situation where the side to "Front 2" does not seem sticky, it might be that you peeled "Front 2" first. The middle layer is more adhesive on the side of "Back 1". If this happens, gently wrinkle the red "Back 1" layer, separate it into two layers, remove the middle layer, and re-attach it to the black "Front 1" side before attempting installation again.
- For large bubbles, it may be necessary to gently lift the protector and re-apply, smoothing from the center outwards.

OPERATING

Once installed, the Lamshaw TPU Screen Protector operates seamlessly with your Blackview W60 Smart Watch. It is designed to preserve 100% of the screen's original touch sensitivity, ensuring that all gestures, taps, and swipes register accurately without any delay or reduction in responsiveness. You can continue to use your smartwatch as normal, enjoying full functionality while benefiting from enhanced screen protection.

MAINTENANCE

To ensure the longevity and clarity of your screen protector, follow these simple maintenance guidelines:

- **Regular Cleaning:** Use a soft, lint-free cloth, such as the provided microfiber cloth, to gently wipe the screen protector. For stubborn smudges, slightly dampen the cloth with water or a screen cleaner designed for electronics.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, alcohol (other than the provided wipes for initial cleaning), or solvents on the screen protector, as these can damage the TPU material.
- **Protect from Sharp Objects:** While the protector is anti-scratch, extreme pressure from very sharp objects can still cause damage. Avoid placing your watch face down on rough surfaces or exposing it to sharp metal objects.

TROUBLESHOOTING

Here are solutions for common issues you might encounter:

- **Bubbles After Installation:**
 - **Small Bubbles:** Due to the self-healing property of the TPU material, small bubbles often disappear naturally within 24 hours. Be patient.
 - **Large Bubbles:** If a large bubble persists, gently lift the nearest edge of the protector and re-apply it, using the squeegee to push the air out as you lay it back down. Ensure the screen is clean before re-application.
- **Dust Under the Protector:** If you notice dust particles, it's best to carefully lift the protector, use a dust-absorber sticker (not included, but commonly found in screen protector kits) or tape to remove the dust from both the screen and the protector's adhesive side, then re-apply.
- **Edges Not Sticking:** Ensure the screen is perfectly clean and dry before application. If edges lift, gently press them down with your finger or the squeegee. Sometimes, slight re-alignment is needed.

SPECIFICATIONS

Brand	Lamshaw
Compatible Device	Blackview W60 Military Smart Watch
Material	Thermoplastic Polyurethane (TPU)
Item Hardness	6H
Special Features	Shatterproof, Anti-scratch, Self-healing, High Transparency, High Sensitivity
