Lamshaw LIGE 1829 / A230 Compatible Charger

LIGE Smart Watch Magnetic USB Charging Cable User Manual

Model: Compatible with LIGE 1829, A230 Smart Watches
Brand: Lamshaw

1. Introduction

This user manual provides comprehensive instructions for the Lamshaw Magnetic USB Charging Cable, designed for LIGE 1829 and A230 Smart Watches. Please read this manual carefully to ensure proper use, optimal performance, and longevity of your charging cable.

2. Product Overview and Features

The Lamshaw Magnetic USB Charging Cable offers a convenient and efficient way to charge your compatible LIGE Smart Watch. Its magnetic design ensures a secure connection, while durable materials provide reliable performance.

Key Features:

- **Designed for LIGE Smart Watches:** Specifically compatible with LIGE 1829 and A230 models.
- **Magnetic Connection:** Ensures immediate and secure charging upon contact.
- **Portable Design:** Compact and easy to carry, ideal for travel, office, or car use.
- **Durable Construction:** Features a flexible PVC cable, ABS+PC durable housing, and pure copper probes for stable conduction.
- **Reinforced Design:** Includes multi-layer shielding for more stable power delivery.

Image 2.1: Strong Magnetic Charging for Smart Watch. This diagram illustrates the internal structure of the magnetic charging head, showing how the magnetic pins connect to the smartwatch for immediate and stable power transfer.

Image 2.2: Cable Construction Details. This image highlights the key components of the charging cable, including the pure copper probes for rapid and stable conduction, the durable ABS+PC material of the connector housing, and the flexible PVC cable designed for easy storage and durability.

3. Setup

Setting up your Lamshaw Magnetic USB Charging Cable is straightforward. Follow these steps to begin charging your LIGE Smart Watch.

1. **Unpack the Cable:** Carefully remove the charging cable from its packaging.
2. **Connect to Power Source:** Insert the USB-A end of the charging cable into a compatible USB power source. This can be a USB wall adapter, a computer's USB port, a power bank, or a car charger.
3. **Position Smart Watch:** Place your LIGE Smart Watch near the magnetic charging head of the cable. The magnetic pins will automatically align and snap into place with the charging contacts on your smartwatch.
4. **Verify Connection:** Ensure the magnetic connection is secure. Your smartwatch display should indicate that it is charging.

Image 3.1: Smart Watch Connected to Charger. This image demonstrates the smartwatch being connected to the magnetic charging cable, illustrating the secure magnetic attachment and the initiation of the charging process.

Image 3.2: Multiple Charging Methods. This image shows the versatility of the charging cable, allowing the smartwatch to be charged from various USB power sources such as a laptop's USB port or a multi-port power strip.

4. Operation (Charging)

Once connected, the charging cable will automatically begin to charge your LIGE Smart Watch. The magnetic design ensures a stable and efficient power transfer.

Charging Process:

- The magnetic charging head will securely attach to the charging contacts on the back of your smartwatch.
- The smartwatch display will typically show a charging icon or battery percentage increase, indicating that charging is in progress.
- Charging time may vary depending on the smartwatch's battery level and the power output of the USB source.

Image 4.1: Smart Watch Charging Indication. This image displays a smartwatch screen showing its battery percentage while charging, illustrating the visual feedback users receive during the charging process.

5. Maintenance

Proper maintenance will extend the life of your charging cable and ensure consistent performance.

- **Cleaning:** Gently wipe the magnetic charging pins and the cable with a soft, dry cloth to remove any dust or debris. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use, coil the cable neatly. Avoid sharp bends or kinks, especially near the connectors, as this can damage the internal wires. The flexible PVC cable is designed for easy rolling and storage.
- **Handling:** Always pull from the plug, not the cable, when disconnecting from a power source or your smartwatch.
- **Environment:** Store the cable in a cool, dry place, away from direct sunlight, extreme temperatures, and moisture.

Image 5.1: Cable Durability Features. This image illustrates the reinforced design of the charging cable, highlighting its multi-layer shielding for enhanced stability and the flexible PVC material that allows for easy coiling and storage, contributing to its overall durability.

6. Troubleshooting

If you encounter issues with your charging cable, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Smartwatch not charging.	◦ Loose connection. ◦ Dirty charging contacts. ◦ Faulty power source. ◦ Incompatible smartwatch model.	◦ Ensure the magnetic head is securely attached to the smartwatch. ◦ Clean the charging pins on both the cable and the smartwatch. ◦ Try a different USB power source (e.g., another wall adapter, a different USB port on your computer). ◦ Verify your smartwatch model (LIGE 1829 or A230) is compatible with this charger.

Problem	Possible Cause	Solution
Slow charging.	◦ Low power output from USB source. ◦ Background apps on smartwatch.	◦ Use a USB power adapter with a higher output (e.g., 5V/1A or 5V/2A). ◦ Close unnecessary applications on your smartwatch during charging.
Magnetic connection is weak.	◦ Debris on contacts. ◦ Wear and tear.	◦ Clean the magnetic contacts on both the cable and the smartwatch. ◦ If the cable is old or damaged, consider replacing it.

7. Specifications

Detailed technical specifications for the Lamshaw Magnetic USB Charging Cable:

Brand	Lamshaw
Compatible Devices	LIGE 1829, A230 Smart Watches
Connector Type	USB-A (input), Magnetic 2-Pin (output)
Cable Type	USB
Special Feature	Fast Charging, Magnetic Connection
Color	Black
Cable Length	Approximately 3.3 feet (1 meter)
Maximum Voltage	5 Volts (DC)
Material	ABS+PC (connector housing), Flexible PVC (cable), Pure Copper (probes)

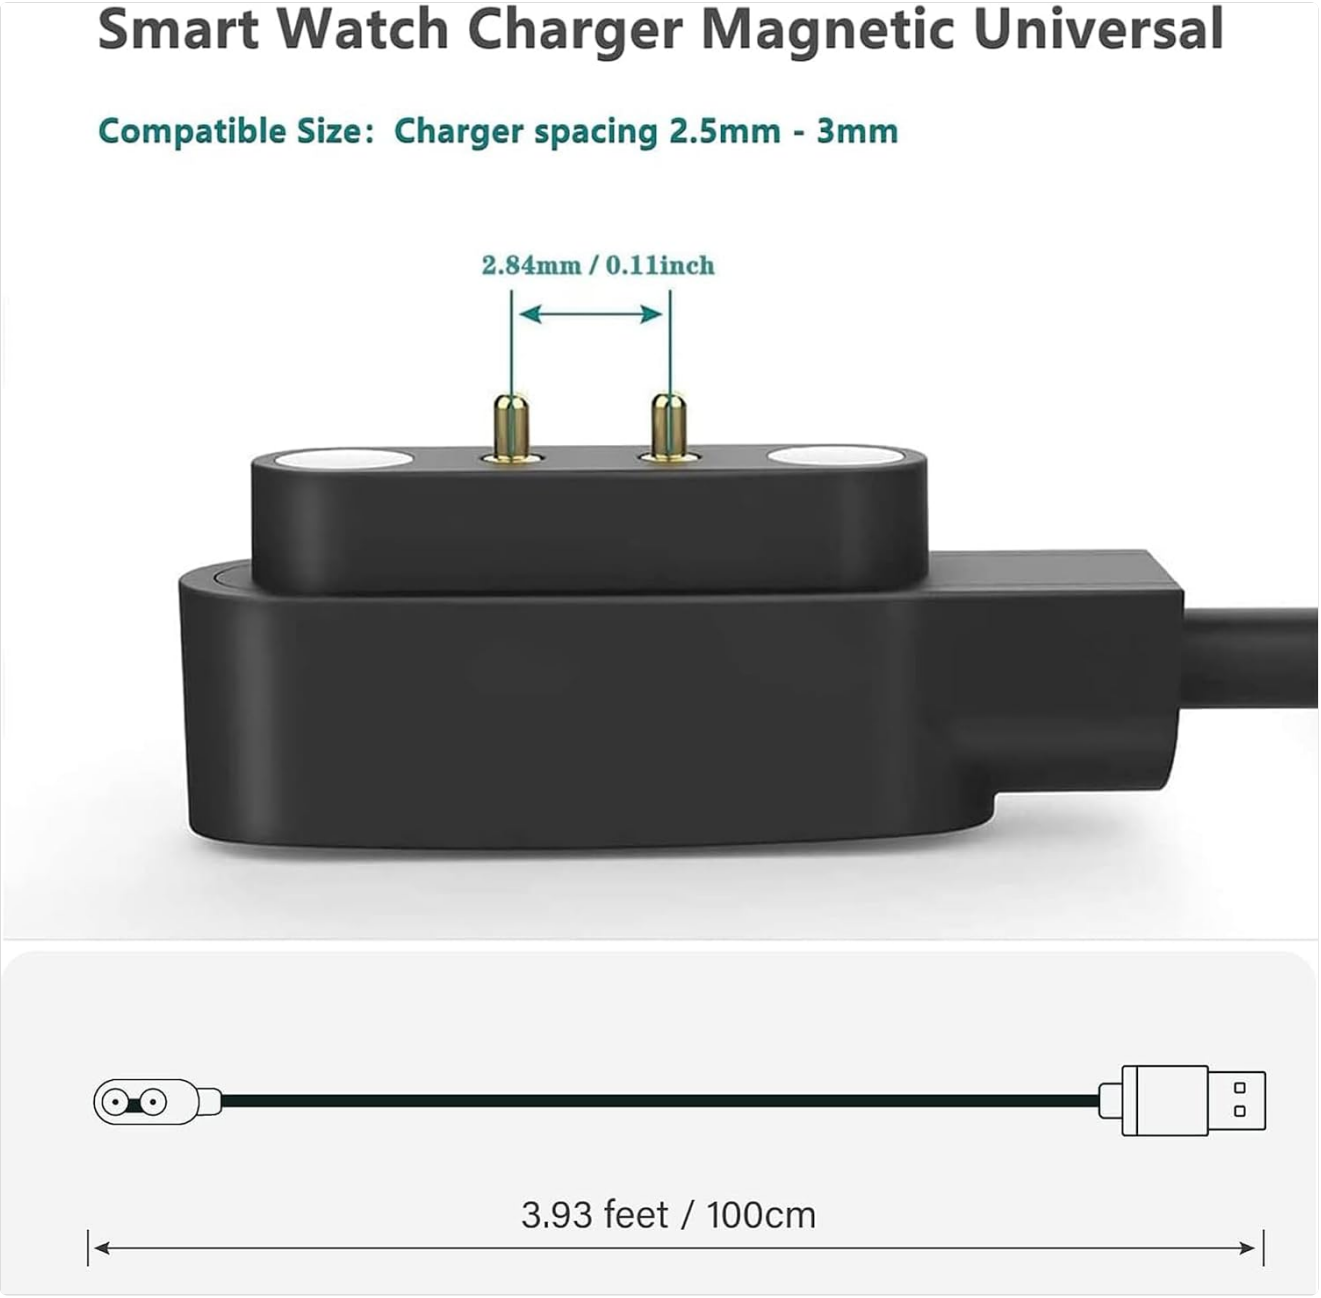

Image 7.1: Charger Dimensions and Cable Length. This image provides key dimensions for the charger, including the compatible charging pin spacing (2.5mm - 3mm) and the overall cable length of approximately 3.93 feet (100 cm).

8. Warranty and Support

Information regarding product warranty and customer support was not provided in the product details. Please refer to the seller's or manufacturer's website for specific warranty terms and contact information for support inquiries.
