Installation

Follow these steps to replace the water tank cap and insert assembly on your Bissell Powerfresh Steam Mop:

1. Ensure your steam mop is unplugged and completely cooled down before beginning any replacement procedures.
2. Locate the water tank on your Bissell Powerfresh Steam Mop.
3. Carefully unscrew and remove the existing water tank cap and insert assembly. Dispose of the old part responsibly.
4. Take the new KEEPOW Water Tank Cap and Insert Assembly. Ensure the rubber seal is properly seated within the cap.
5. Align the new cap with the water tank opening. Screw it on clockwise until it is securely tightened. Do not overtighten.
6. Once installed, you can fill the water tank as usual. Ensure the cap is firmly in place to prevent leaks during operation.

Maintenance

To ensure the longevity and proper function of your KEEPOW Water Tank Caps and Insert Assembly:

- Regularly inspect the cap and its internal seal for any signs of wear, cracks, or damage.
- Clean the cap periodically with a damp cloth to remove any mineral deposits or residue from water.
- If you notice any leaks or difficulty in securing the cap, inspect the seal for proper placement or consider replacing the assembly.

Troubleshooting

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Water leaking from tank cap area.	Cap not tightened sufficiently; Seal is misaligned or damaged.	Ensure cap is securely tightened. Remove and re-seat the cap, checking the seal for proper alignment. If damage is visible, replace the cap assembly.
Difficulty screwing on the cap.	Threads are misaligned or damaged; Debris in threads.	Carefully re-align the cap and try again. Clean any debris from the threads of both the cap and the tank opening.

Specifications

- **Package Dimensions:** 4.3 x 3.3 x 1.3 inches
- **Item Weight:** 1.44 ounces
- **Material:** High-quality ABS and heat-resistant plastic
- **Compatibility:** Bissell Powerfresh Steam Mop 1940 series and other listed models.
