2. IMPORTANT SAFETY INFORMATION

WARNING: Failure to follow these safety instructions may result in injury or damage to the product.

- Do not exceed the recommended maximum weight of 159 kg (350 lbs).
- Ensure the chair is placed on a stable, level surface before use, especially when utilizing the tilt or rocking function.
- This chair is designed primarily for relaxation and sleeping. Avoid using it for activities that require excessive movement or standing on the chair.
- Keep children and pets away from moving parts during operation.
- Regularly inspect all components for wear or damage. Do not use the chair if any parts are compromised.
- Keep all packaging materials away from children to prevent choking hazards.

3. PACKAGE CONTENTS

Please check the package carefully to ensure all components are present and undamaged. If any items are missing or damaged, contact customer support immediately.

- Chair Base
- Chair Backrest/Seat Assembly
- Hardware Pack (screws, washers, tools if applicable)
- User Manual (this document)

4. ASSEMBLY INSTRUCTIONS

Assembly of the FLEXISPOT XC6 Lotus Relax Chair is straightforward, typically involving two main parts. While one person can assemble it, having a second person may be helpful.

1. **Unpack Components:** Carefully remove all parts from the packaging. Place them on a soft, clean surface to prevent scratches.
2. **Attach Backrest to Base:** Align the metal brackets on the chair backrest with the corresponding slots on the chair base. Slide the backrest down firmly until it clicks into place. Ensure a secure connection.
3. **Secure with Hardware (if applicable):** If your model includes additional hardware for securing the backrest, insert and tighten the provided screws using the included tool. Do not overtighten.
4. **Final Check:** Gently rock and swivel the chair to ensure all connections are stable and secure before sitting.

5. OPERATING INSTRUCTIONS

The FLEXISPOT XC6 Lotus Relax Chair offers multiple comfort features for an optimal relaxation experience.

5.1 Reclining Function

To recline the chair, locate the pull mechanism, typically on the side of the chair (as shown in the assembly image). Pull the lever to release the backrest and footrest. Lean back gently to achieve your desired reclining angle, up to 145 degrees. To return to the upright position, push forward with your body weight while simultaneously pulling the lever.

5.2 Swivel and Rocker Function

The chair base is designed to provide stable support for both rotational (swivel) and gentle rocking movements. Simply apply gentle pressure to swivel the chair 360 degrees or lean back and forth to engage the rocking motion. Ensure sufficient clear space around the chair before engaging these functions.

5.3 Side Storage Box

The integrated side storage box provides a convenient space for small items such as remote controls, magazines, or personal accessories. To access, simply lift the lid of the storage compartment located on the side of the chair.

6. CARE AND MAINTENANCE

Proper care will extend the life and appearance of your FLEXISPOT XC6 Lotus Relax Chair.

- **Cleaning:** For general cleaning, wipe the fabric with a clean, damp cloth. For spills, blot immediately with a clean, dry cloth. Avoid harsh chemicals or abrasive cleaners, as these can damage the fabric.
- **Fabric:** The chair features skin-friendly linen and high-resilience foam with cotton fill. Regular vacuuming with a soft brush attachment can help maintain its appearance and prevent dust buildup.
- **Moving the Chair:** When moving the chair, lift it rather than dragging it to prevent damage to the base or floor. It is recommended to have two people for moving.
- **Inspection:** Periodically check all bolts and connections to ensure they remain tight. Retighten if necessary.

7. TROUBLESHOOTING

If you encounter any issues with your FLEXISPOT XC6 Lotus Relax Chair, please refer to the following common solutions:

- **Chair does not recline smoothly:** Check for any obstructions around the reclining mechanism. Ensure the lever is fully engaged. If the issue persists, inspect the internal mechanism for loose connections (refer to assembly steps).
- **Chair feels unstable:** Verify that the chair is on a flat, stable surface. Recheck all assembly connections to ensure they are tight and secure.
- **Squeaking noises:** Apply a small amount of silicone-based lubricant to any moving metal parts if squeaking occurs. Avoid oil-based lubricants on fabric.

If these steps do not resolve the issue, please contact FLEXISPOT customer support.
