5. MAINTENANCE

To ensure the longevity and optimal performance of your guitar controller, follow these maintenance guidelines:

- **Cleaning:** Regularly wipe the surface of the guitar with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Button Contact Points:** If a guitar button becomes unresponsive over prolonged use, it may be due to oxidation of the device's contact points. To resolve this, carefully disassemble the neck (if applicable) and gently wipe the contact points with a small amount of rubbing alcohol on a cotton swab or use a pencil eraser. Ensure the area is completely dry before reassembling.

Sometimes the guitar **BUTTON** doesn't work

Prolonged use or non-use may cause oxidation of the device's contact points and cause disconnection. At this point, you just need to wipe the contact points with alcohol or an eraser, and you can use it normally.

- **Storage:** When not in use, store the guitar in a cool, dry place away from direct sunlight and extreme temperatures. The detachable neck allows for easier storage and transport.

6. TROUBLESHOOTING

If you encounter issues with your NBCP Wireless Guitar Hero Controller, please refer to the following common solutions:

- **Controller Not Connecting:**

- Ensure the USB 2.4G RF receiver is securely plugged into a working USB port on your PC or PS3.
- Verify the guitar controller is powered on.
- Try unplugging and re-plugging the USB receiver, then power cycle the guitar controller.
- Confirm that the USB receiver was included in your package. If missing, contact customer support.

- **Buttons Unresponsive:**

- Refer to the Maintenance section (Section 5) for instructions on cleaning button contact points, as oxidation can cause unresponsiveness.
- Ensure the guitar neck is fully and securely attached to the body.

- **PC Specific Issue (Space Bar Clicking):**

- Some PC systems may interpret the guitar's input as a constant space bar press upon connection. It is recommended to configure or program the button mappings within your game (e.g., Clone Hero) **before** plugging in the USB receiver to avoid this behavior.

- **Incorrect Color Received:**

- If you received a different color than ordered, please contact the seller or customer support for assistance.
