SYNCWIRE SW2010

SYNCWIRE MagSafe Car Mount (Model SW2010) Instruction Manual

1. INTRODUCTION

This manual provides comprehensive instructions for the SYNCWIRE MagSafe Car Mount, Model SW2010. Please read this guide thoroughly before installation and use to ensure optimal performance and safety. This device is designed to securely hold your smartphone in various vehicle environments.

What's in the Box

- MagSafe Car Mount x 1
- Metal Ring x 2 (White & Black)
- Positioner for Metal Ring x 1
- User Guide x 1
- Warranty Card x 1

2. SAFETY INFORMATION

- Do not obstruct your view of the road or vehicle controls when installing the mount.
- Ensure the mount is securely attached before placing your device.
- Avoid adjusting the mount or your phone while driving to prevent distractions.
- Keep out of reach of children.
- Do not expose the adhesive to extreme temperatures outside the specified range (-40°F to +300°F) during installation.

3. PRODUCT FEATURES

- **360° Rotation & Two-Axis Foldable Design:** The mount features a 360° rotatable base and a two-axis adjustable aluminum alloy arm, allowing for flexible angle adjustments. It can be fixed on various surfaces such as car dashboards, windshields, Tesla screens, and desktops. The foldable design allows for discreet storage when not in use.
- **Seamless Magnetic Connection:** Designed for quick, one-handed operation, providing a convenient and compact solution for securing your device.
- **High-quality Metal Craftsmanship:** The swivel arm is constructed from high-hardness aluminum alloy, precision CNC processed for durability and resistance to deformation. The anodized surface provides a delicate metal texture.
- **Optimal Magnetic Balance:** Utilizes powerful N52 neodymium magnets with precisely adjustable magnetic force to ensure a secure connection for your phone.
- **Ring Ventilation Design:** Features a ring vent design to help dissipate heat from the phone by guiding cool air. Compatible with Pop Grips with MagSafe functionality without needing to remove the magnetic ring.
- **Genuine 3M Adhesive:** Equipped with genuine 3M GPH-160 adhesive for enhanced stability, maintaining adhesion in temperatures from -40°F to +300°F. Spare adhesive pads are included for replacement.

4. SETUP AND INSTALLATION

Proper installation is crucial for the stability and longevity of your car mount. Follow these steps carefully:

1. **Clean the Surface:** Identify a smooth, flat area on your dashboard or windshield for installation. Use wet wipes to clean the target area thoroughly, rubbing vigorously and repeatedly at least 10 times.
2. **Allow to Dry:** Wait for approximately 15 seconds after wiping to ensure the surface is completely dry and free of moisture.
3. **Apply Adhesive:** Remove the white film from the 3M adhesive pad on the base of the mount. Press the mount firmly onto the cleaned surface for 10 seconds.
4. **Curing Time:** Allow the adhesive to set for a minimum of 5 hours before placing any weight on the mount or using it. This ensures maximum adhesion.

Important Notes for Adhesive Application:

- The included adhesive is genuine 3M GPH-160, designed for strong, long-lasting adhesion in various temperatures.
- Ensure the surface is clean and dry before application.
- Pressing firmly for 10 seconds and allowing 5 hours for curing are critical steps for optimal adhesion.
- Spare adhesive pads are provided for future re-installation if needed.

5. OPERATING INSTRUCTIONS

Using your SYNCWIRE MagSafe Car Mount is simple and intuitive:

1. **Attaching Your Phone:** Align your MagSafe-compatible phone or phone case with the magnetic ring on the mount. The powerful N52 magnets will securely snap your phone into place.
2. **Adjusting the Angle:** Utilize the two-axis adjustable aluminum alloy arm and the 360° rotatable base to position your phone at the desired viewing angle (portrait or landscape). The anti-loosening axle ensures the chosen angle remains stable.
3. **Detaching Your Phone:** Gently pull your phone away from the magnetic ring to detach it. The one-handed operation allows for quick removal.
4. **Folding for Storage:** When not in use, the mount can be folded flat to create a neater environment and minimize obstruction.

6. COMPATIBILITY

The SYNCWIRE MagSafe Car Mount is designed for broad compatibility:

- **MagSafe Compatible Devices:** Works with iPhone 12, 12 Pro, 12 Pro Max, 12 Mini, iPhone 13, 13 Pro, 13 Pro Max, 13 Mini, iPhone 14, 14 Pro, 14 Pro Max, 14 Plus, iPhone 15, 15 Pro, 15 Pro Max, 15 Plus, iPhone 16, 16 Pro, 16 Pro Max, 16 Plus, iPhone 17, 17 Pro, 17 Pro Max, 17 Air, and any MagSafe or MagSoft cases.
- **Non-MagSafe Devices:** For Android phones (Samsung, HTC, Google, etc.) and older iPhone models (iPhone 11 and earlier) or non-MagSafe cases, use the included metal rings. Affix a metal ring to the back of your phone case to enable magnetic attachment.

7. MAINTENANCE

To maintain the appearance and functionality of your car mount:

- Wipe the mount regularly with a soft, damp cloth to remove dust and grime.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- Ensure the magnetic surface is clean for optimal phone grip.

8. TROUBLESHOOTING

If you encounter any issues with your SYNCWIRE MagSafe Car Mount, refer to the following:

Problem	Possible Cause	Solution
Mount not adhering securely to the dashboard.	Improper surface preparation; insufficient curing time; unsuitable surface material (e.g., soft leather, suede, highly textured).	Ensure the surface is clean, dry, and flat before application. Press firmly for 10 seconds and wait at least 5 hours before use. Use on recommended surfaces (plastic, glass, wood, metal). Utilize a spare adhesive pad if necessary.

Problem	Possible Cause	Solution
Phone detaches easily from the mount.	Phone/case not MagSafe compatible; metal ring improperly placed; magnetic surface is dirty.	Ensure your phone or case is MagSafe compatible. If not, use the included metal ring and position it correctly on the outside of your phone case. Clean the magnetic surface of both the mount and your phone/ring.
Adjustable arm is too stiff or difficult to move.	Designed for stability, the arm may feel stiff initially.	The arm's stiffness is intentional to maintain position. Apply gentle, consistent force to adjust. Avoid excessive force that could dislodge the mount if not fully cured.

9. SPECIFICATIONS

Feature	Detail
Model Number	SW2010
Package Dimensions	7.99 x 7.87 x 0.83 inches
Item Weight	4.2 ounces
Special Features	Adjustable, Foldable, Lightweight, One-Hand Operation, Rotatable
Mounting Type	Dashboard
Adhesive Type	Genuine 3M GPH-160
Temperature Resistance	-40°F to +300°F
Magnetic Strength	N52 Neodymium Magnets
Color	Space Gray

10. WARRANTY AND SUPPORT

SYNCWIRE products are manufactured to high-quality standards. This product comes with a limited warranty against defects in materials and workmanship. Please refer to the included Warranty Card for specific terms and conditions, including warranty period and how to obtain service.

For technical support, product inquiries, or warranty claims, please contact SYNCWIRE customer service through the contact information provided on the Warranty Card or visit our official website.
