

## Taurus Prior Glass 1500

# Taurus Prior Glass 1500W Blender Instruction Manual

Model: Prior Glass 1500 (JB1510C)

## 1. IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using the appliance and retain them for future reference. Incorrect use can lead to damage to the appliance or injury to the user.

- Always ensure the blender jar is correctly fixed to the base before operation. The appliance features a safety system that prevents activation if the jar is not properly secured.
- Do not immerse the motor base in water or any other liquid. Clean with a damp cloth only.
- Keep hands and utensils out of the jar during blending to prevent injury and damage to the blades. Use the provided measuring cup to add ingredients during operation.
- Unplug the appliance from the power outlet before cleaning, assembling, or disassembling parts.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Ensure the power cord is not damaged. If damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a hazard.
- The blender is equipped with non-slip feet for optimal stability and reduced vibrations during use. Ensure it is placed on a stable, flat surface.

## 2. PRODUCT COMPONENTS

Familiarize yourself with the parts of your Taurus Prior Glass 1500W Blender:

- **Motor Base:** Contains the 1500W motor, speed control knob, and Turbo function.

- **Glass Jar (1.5 Liters):** Graduated for precise measurements, with an ergonomic handle and pouring spout.
- **4-Blade Stainless Steel System:** Ultra-sharp, removable blades for efficient blending.
- **Airtight Lid:** Features an opening for adding ingredients during blending.
- **Measuring Cup (50 ml):** Fits into the lid opening for precise ingredient addition.

### 3. SETUP AND ASSEMBLY

1. **Unpack:** Carefully remove all components from the packaging.
2. **Clean:** Before first use, wash the glass jar, lid, measuring cup, and blade assembly in warm, soapy water. Rinse thoroughly and dry. The blades are dishwasher-safe.
3. **Assemble Blades:** Ensure the 4-blade stainless steel system is securely attached to the bottom of the glass jar.
4. **Place Jar:** Position the glass jar onto the motor base. Rotate it clockwise until it locks securely into place. The blender will not operate if the jar is not correctly fixed.
5. **Add Ingredients:** Place your desired ingredients into the glass jar. Do not exceed the maximum fill line (1.5 liters).
6. **Secure Lid:** Place the airtight lid onto the jar and ensure it is firmly closed. The 50 ml measuring cup can be inserted into the lid opening.
7. **Connect Power:** Plug the power cord into a suitable electrical outlet (230 Volts).

## 4. OPERATING INSTRUCTIONS

---

The Taurus Prior Glass 1500W Blender offers two speeds and a Turbo function for versatile blending.

1. **Speed Selection:** Turn the rotary control knob to select your desired speed (1 or 2). Speed 1 is for softer ingredients or lighter blending, while Speed 2 is for harder ingredients or more intensive blending.
2. **Turbo Function:** For maximum power and to crush hard ingredients like ice, turn the knob to the 'Turbo' position. This function provides a burst of high-speed blending. Release the knob to return to the '0' (off) position.
3. **Adding Ingredients During Blending:** If additional ingredients are needed during operation, remove the measuring cup from the lid opening and carefully add them. Replace the measuring cup immediately.
4. **Stopping Operation:** To stop the blender, turn the control knob back to the '0' position.
5. **Pouring:** Once blending is complete, turn the knob to '0' and unplug the appliance. Carefully remove the lid and pour the contents using the integrated pouring spout.

## 5. MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and extends the life of your blender.

1. **Unplug:** Always unplug the blender from the power outlet before cleaning.
2. **Disassemble:** Remove the glass jar from the motor base. Carefully detach the blade assembly from the bottom of the jar. Remove the lid and measuring cup.
3. **Jar, Lid, Measuring Cup, Blades:** These parts are dishwasher-safe. Alternatively, wash them in warm, soapy water using a brush to clean the blades thoroughly. Rinse and dry completely.
4. **Motor Base:** Wipe the motor base with a damp cloth. Do not immerse the motor base in water or any other liquid. Do not use abrasive cleaners or scouring pads.
5. **Storage:** Once all parts are clean and dry, reassemble the blender or store the components separately in a dry place.

## 6. TROUBLESHOOTING

If you encounter issues with your blender, refer to the following common problems and solutions:

- **Blender does not turn on:**
  - Ensure the power cord is securely plugged into a working electrical outlet.
  - Verify that the glass jar is correctly fixed and locked onto the motor base. The safety mechanism prevents operation if not properly assembled.
- **Ingredients are not blending smoothly:**
  - Add more liquid to the mixture.
  - Use the Turbo function for short bursts to break down stubborn ingredients.
  - Ensure the blades are clean and free from obstructions.
- **Loud noise or vibration during operation:**
  - Ensure the blender is placed on a stable, flat surface.
  - Check that the jar is securely seated on the motor base.
  - Reduce the amount of ingredients if the jar is overfilled.

If the problem persists, please contact customer support.
