Peugeot BUN4219

Peugeot Bistro Pepper and Salt Mill Set (4in)

Model: BUN4219

Introduction

This manual provides instructions for the proper use and care of your Peugeot Bistro Pepper and Salt Mill Set. Designed with precision and crafted from beechwood, these mills are intended to enhance your culinary experience by providing freshly ground spices.

Product Overview

The Peugeot Bistro mills are a classic design, featuring robust mechanisms tailored for specific spices.

- **Iconic Design:** A reproduction of the original Peugeot mill from 1874, manufactured in France.
- **Adjustable Grind:** A knob on the mill head allows for precise adjustment of grind size.
- **Pepper Mill Mechanism:** Features a two-stage grinding mechanism that first cracks peppercorns, then grinds them. It is treated against corrosion.
- **Salt Mill Mechanism:** Made with corrosion-resistant stainless steel, specifically designed for grinding rock salt.
- **Crafted Beechwood:** Made from PEFC-certified wood sourced from sustainably managed forests, coated with water-based paints.

Image: The Peugeot Bistro Pepper and Salt Mill Set, featuring one saffron-colored mill and one slate-colored mill, both 4 inches tall, made of beechwood.

Setup: Filling the Mills

Before first use, or when refilling, follow these steps:

1. Unscrew the top knob of the mill.
2. Lift off the top section of the mill.
3. Carefully fill the mill with your chosen spice.
    - For the pepper mill: Use peppercorns with a maximum size of 1/4 inch (6mm).
    - For the salt mill: Use dry rock salt with a maximum crystal size of 2/5 inch (4mm)**Do not use wet sea salt or pink Himalayan salt in the salt mill, as this can corrode the mechanism.**
4. Ensure not to overfill the mill, as this can impede the grinding mechanism.
5. Replace the top section and screw the knob back on securely.

Operating Instructions

To use your Peugeot Bistro mill and adjust the grind:

1. Hold the body of the mill firmly.
2. Turn the top section of the mill clockwise to grind your spice.
3. To adjust the grind coarseness, turn the knob on the top of the mill:

    - Turn the knob clockwise (tighten) for a finer grind.
    - Turn the knob counter-clockwise (loosen) for a coarser grind.
4. Experiment with different grind settings to achieve the desired flavor intensity for your dishes. A finer grind enhances spice, while a coarser grind highlights aromatic qualities.

Maintenance

Proper care will ensure the longevity and performance of your mills.

- **Cleaning:** Wipe the exterior of the mills with a soft, dry or slightly damp cloth. Do not use abrasive cleaners or harsh chemicals.
- **Dishwasher Safety:** These mills are **not dishwasher safe**. Immersion in water can damage the wood and the grinding mechanism.
- **Storage:** Store in a dry place away from direct sunlight and excessive humidity.

Troubleshooting

Problem	Possible Cause	Solution
Mill is not grinding or grinds poorly.	◦ Mill is overfilled. ◦ Grind setting is too fine. ◦ Incorrect spice type for the mill (e.g., wet salt in salt mill, large peppercorns). ◦ Mechanism is clogged.	◦ Remove some spice to prevent overfilling. ◦ Loosen the top knob slightly for a coarser grind. ◦ Ensure you are using dry rock salt (max 4mm) in the salt mill and peppercorns (max 6mm) in the pepper mill. Avoid wet sea salt or pink Himalayan salt in the salt mill. ◦ Empty the mill and gently tap to dislodge any blockages.
Wood appears dull or dry.	Lack of regular conditioning.	Wipe with a soft cloth dampened with a small amount of food-grade mineral oil to restore luster.

Specifications

Brand	Peugeot
Model Number	BUN4219
Material	Beechwood
Color	Saffron/Slate
Product Dimensions	2"W x 4"H
Item Weight	8 ounces (0.5 Pounds)
Operation Mode	Manual

Dishwasher Safe	No
