TYCOLE GDS-1567-042

TYCOLE GDS-1567-042 Bracket 1x1 - 1x1 Inverted Building Bricks Instruction Manual

Model: GDS-1567-042 | Brand: TYCOLE

Introduction

This manual provides instructions for the TYCOLE GDS-1567-042 Bracket 1x1 - 1x1 Inverted building bricks. These components are designed for creative construction and are compatible with major brick building systems. Please read this manual carefully to understand the proper use and care of your new building bricks.

Product Overview

The GDS-1567-042 is a specialized bracket brick, measuring 1x1 stud on its base and featuring an inverted 1x1 stud connection on its side. This design allows for unique structural connections and creative building techniques.

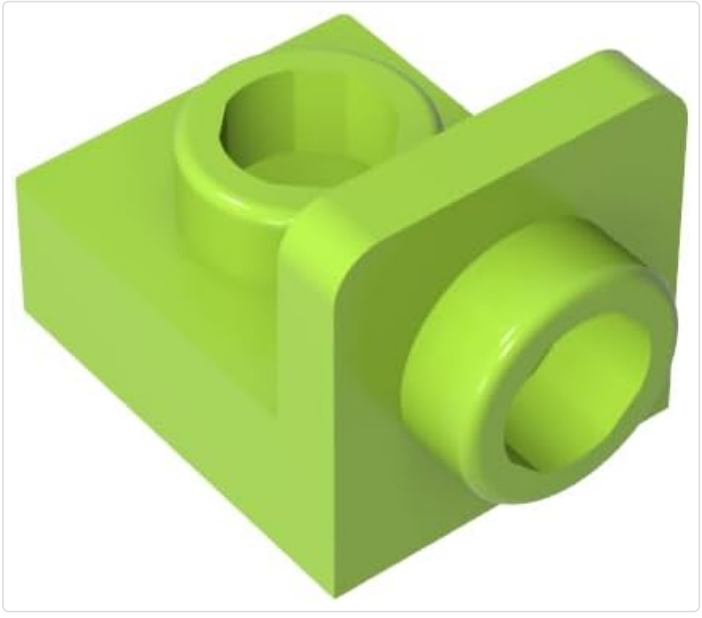

Image: A single lime green TYCOLE GDS-1567-042 Bracket 1x1 - 1x1 Inverted building brick, shown from an isometric angle, highlighting its unique connection points.

Setup

No specific setup is required for individual bricks. Ensure a clean, flat surface for building. Sort bricks by type or color if desired for easier access during construction. It is recommended to work in a well-lit area to clearly see the components.

Operating (Usage)

To connect bricks, align the studs of one brick with the anti-studs (holes) of another. Apply gentle, even pressure until the bricks fit securely. The inverted bracket allows for connections at right angles, expanding building possibilities. This 1x1 inverted bracket is particularly useful for creating offset connections, attaching elements to the underside of structures, or building intricate details.
For optimal connection, ensure that the studs are fully inserted into the anti-studs without excessive force, which could damage the bricks.

Maintenance

Clean bricks with a soft cloth dampened with mild soap and water. Avoid harsh chemicals or abrasive materials, as these can damage the plastic. Rinse thoroughly with clean water and air dry completely before storage. Store bricks in a cool, dry place away from direct sunlight to prevent material degradation and color fading.

Troubleshooting

- **Loose Connections:** If bricks feel loose, ensure studs and anti-studs are free from debris. Verify that the bricks are fully pressed together.
- **Difficulty Connecting:** Apply even pressure. Avoid forcing bricks, as this can cause damage. If a brick is consistently difficult to connect, inspect it for manufacturing defects or foreign objects in the connection points.

Specifications

Model Number	GDS-1567-042
Type	Bracket 1x1 - 1x1 Inverted
Material	Plastic
Quantity (as per variant)	70 Pieces
Color (as per variant)	Lime
Compatibility	100% Compatible with Lego and All Major Brick Brands
Recommended Age	18 years and up

Safety Information

- **Choking Hazard:** This product contains small parts and is not suitable for children under 3 years of age.
- **Age Recommendation:** While building bricks are often enjoyed by all ages, this product is recommended for ages 18 and up due to specific product listings. Adult supervision is advised for younger users.

Warranty

TYCOLE products are manufactured to high standards. For information regarding product warranty or returns, please refer to the retailer's policy or contact TYCOLE customer support directly. Please retain your proof of purchase for any warranty claims.

Support

For further assistance, technical support, or inquiries regarding your TYCOLE GDS-1567-042 building bricks, please contact TYCOLE customer support through the retailer's platform where the product was purchased, or visit the official TYCOLE website for contact information.
