Instruction Manual

KWMOBILE REPLACEMENT EAR PADS FOR BERIBES WH305 HEADPHONES

Model: KWM0000401S001C

Introduction

Thank you for choosing kwmobile replacement ear pads. This manual provides essential information for the proper installation and care of your new ear pads, ensuring optimal comfort and extending the life of your BERIBES WH305 headphones. These ear pads are designed to replace worn or damaged cushions, restoring the comfort and sound isolation of your headphones.

Compatibility

These replacement ear pads are specifically designed for use with **BERIBES WH305** headphones. Please verify your headphone model before proceeding with installation.

COMPATIBILITY

BERIBES WH305

Product Features

The kwmobile replacement ear pads are constructed with quality materials for comfort and durability:

- **Soft Leatherette:** The exterior material provides a smooth and comfortable feel against the skin.
- **High-Density Foam:** The internal foam offers excellent cushioning and helps maintain sound isolation.
- **Durable Inner Stitching:** Reinforced stitching enhances the longevity of the ear pads, preventing premature wear and peeling.

PREMIUM UPGRADED EARPADS

Installation Instructions

Follow these steps to replace the ear pads on your BERIBES WH305 headphones:

1. **Remove Old Ear Pads:** Carefully inspect how the existing ear pads are attached. For BERIBES WH305, the ear pads are often mounted on a plastic ring or base that snaps into the headphone housing. Use a thin, flat instrument (such as a plastic pry tool or a dull knife) to gently pry off the *entire* old ear pad assembly from the headphone housing. Start from the edge and work your way around until it detaches.
2. **Clean Headphone Surface:** Once the old ear pads are removed, gently clean any residue or debris from the headphone's ear cup surface where the new pads will attach.
3. **Align New Ear Pads:** Take one of the new kwmobile ear pads. Align its mounting ring or edge with the corresponding grooves or attachment points on your headphone's ear cup. Ensure the orientation is correct (e.g., left/right if applicable, though these are typically symmetrical).
4. **Snap into Place:** Apply gentle, even pressure around the edges of the new ear pad until it securely snaps or clips into position. You should hear or feel a click as it locks into place. Do not force it, as this may damage the ear pad or headphone.

5. **Repeat for Other Side:** Follow the same steps for the other ear pad.
6. **Test Fit:** Once both ear pads are installed, gently press on them to ensure they are firmly attached and do not wobble.

BEFORE

Heat-pressed with no inner seam stitching, making it prone to cracking and peeling over time.

AFTER

Reinforced with inner seam stitching for added durability and long-lasting comfort on your Virtuoso headphones.

10 cm

8 cm

Maintenance and Care

To ensure the longevity and hygiene of your ear pads:

- **Regular Cleaning:** Wipe the surface of the ear pads with a soft, damp cloth. Use a mild soap solution if necessary, but avoid harsh chemicals or abrasive cleaners.
- **Avoid Moisture:** Do not submerge the ear pads in water. If they get wet, gently pat them dry and allow them to air dry completely before use.
- **Store Properly:** When not in use, store your headphones in a clean, dry place away from direct sunlight and extreme temperatures.
- **Handle Gently:** Avoid pulling or stretching the ear pads excessively, as this can damage the material or stitching.

Troubleshooting

- **Ear Pads Don't Fit:**
 - Ensure you have the correct model of headphones (BERIBES WH305).
 - Verify that the old ear pad assembly, including any plastic rings, has been completely removed. The new ear pads are designed to replace the entire old unit.
 - Check the alignment carefully. The ear pads should snap into specific grooves on the headphone housing.
- **Ear Pads Feel Loose:**
 - Re-apply pressure around the edges to ensure all clips or attachment points are securely engaged.
 - If the issue persists, remove and re-install the ear pad, paying close attention to the alignment.

Specifications

Feature	Detail
Brand	kwmobile
Model Number	KWM0000401S001C
Compatible Devices	BERIBES WH305 Headphones
Color	Black
Material	Synthetic materials, Leatherette (exterior), High-density foam (interior)
Item Dimensions (L x W x H)	10 x 8 x 1 cm
Item Weight	40 Grams
Number of Items	2 (pair)
Country of Origin	China
