PDEEY RS2-CHARGER-CABLE-2PCS Y-Splitter USB Charging Cable Instruction Manual

INTRODUCTION

This instruction manual provides essential information for the safe and effective use of your PDEEY RS2-CHARGER-CABLE-2PCS Y-Splitter USB Charging Cable. Please read this manual thoroughly before using the product and retain it for future reference.

PRODUCT OVERVIEW AND FEATURES

The PDEEY Y-Splitter USB Charging Cable is designed to provide a convenient and efficient charging solution for compatible dog training collars and other devices. It features a Y-splitter design, allowing for simultaneous charging of two devices.

Key Features:

- **Y-Splitter Design:** Charges two devices simultaneously via one USB port.
- **Dual Output:** Provides 2A output for both Micro USB and DC barrel connections, enabling fast charging.
- **Universal USB Compatibility:** Connects to various USB 2.0 power sources such as power banks, car chargers, AC adapters, power bricks, laptops, and PCs.
- **Durable Construction:** Made with flexible PVC material for long-lasting use and reliable performance.
- **Optimal Length:** 2.6 feet (approximately 0.8 meters) cable length for convenient use.
- **Wide Compatibility:** Specifically designed as a replacement charger for Bousnic Dog Shock Collar RS2B and RS2, PaiPaitek PD520C, PetSpy X-Pro, Dog Care TC01, TC05, TC08, AB02, E-Collar PE-900, PE-902, EZ-900, EZ-902, EZ-903, EZ-904, and PE-903 dog training collars.

SETUP AND CHARGING INSTRUCTIONS

- 1. Identify Your Devices:** Ensure your dog training collar or other device requires a Micro USB or DC barrel (round tip) 5V input for charging.
- 2. Connect to Power Source:** Insert the standard USB-A end of the Y-splitter cable into a compatible USB 2.0 power source. This can be a power bank, car charger, AC adapter (wall charger), laptop, or PC USB port. Ensure the power source provides 5V output.
- 3. Connect to Devices:**
 - For devices with a Micro USB port, connect the Micro USB end of the Y-splitter cable.
 - For devices with a DC barrel (round tip) charging port, connect the DC barrel end of the Y-splitter cable.

- 4. Begin Charging:** Once connected, your devices should begin charging. The cable is designed to deliver 2A output to both connected devices simultaneously for efficient charging.
- 5. Charging Indicators:** Refer to your device's specific instruction manual for information on charging indicators (e.g., LED lights) to determine charging status and completion.

Note: Always ensure the charging ports are clean and free of debris before connecting the cable to prevent damage or poor connection.

OPERATION AND USAGE

The PDEEY Y-Splitter USB Charging Cable operates by drawing power from a standard USB-A port and distributing it to two separate output connectors: a Micro USB and a DC barrel. This allows you to charge two compatible devices at once, such as a dog training collar and its remote, or two separate collars, provided they use these connector types.

The cable is suitable for both indoor and outdoor use, offering flexibility in where you can charge your devices. Its 2.6-foot length provides adequate reach without excessive clutter.

SPECIFICATIONS

Specification	Detail
Model Number	RS2-CHARGER-CABLE-2PCS
Connector Type (Input)	USB-A
Connector Type (Output)	Micro USB, DC Barrel (Round Tip)
Output Voltage	5V
Output Current	2 Amps (per output)
Cable Length	2.6 feet (approximately 0.8 meters)
Material	Polyvinyl Chloride (PVC)
Color	Black
Usage Environment	Indoor, Outdoor
Package Quantity	2 cables

MAINTENANCE

- Storage:** Store the cable in a cool, dry place away from direct sunlight and extreme temperatures.
- Cleaning:** Use a soft, dry cloth to wipe the cable and connectors. Avoid using harsh chemicals or abrasive materials.
- Handling:** Avoid sharp bends, kinks, or excessive pulling on the cable, especially near the connectors, to prevent internal wire damage.
- Inspection:** Periodically inspect the cable for any signs of wear, fraying, or damage. Discontinue use if damage is observed.

TROUBLESHOOTING

Issue: Device is not charging.

- **Solution 1:** Ensure the USB-A end is fully inserted into a working power source. Try a different USB port or power adapter.
- **Solution 2:** Verify that the Micro USB or DC barrel connector is securely plugged into your device's charging port.
- **Solution 3:** Confirm that your device is compatible with a 5V input and uses either a Micro USB or DC barrel connector.
- **Solution 4:** Check the cable for any visible damage. If damaged, replace the cable.

Issue: Charging is slow.

- **Solution 1:** Ensure your power source can provide sufficient current (at least 2A for optimal charging). Lower amperage power sources will result in slower charging.
- **Solution 2:** If charging two devices simultaneously, the total current draw might be higher. Ensure your power source can handle the combined load.
- **Solution 3:** Clean the charging ports on your devices and the cable connectors to ensure good contact.

WARRANTY AND SUPPORT

For warranty information or technical support regarding your PDEEY RS2-CHARGER-CABLE-2PCS Y-Splitter USB Charging Cable, please refer to the product packaging or contact PDEEY customer service directly through the retailer where the product was purchased. Keep your purchase receipt as proof of purchase.
