MONODEAL UKS820

MONODEAL UKS820 IP68 Waterproof Bone Conduction Swimming Headphones User Manual

Model: UKS820

INTRODUCTION

Thank you for choosing the MONODEAL UKS820 IP68 Waterproof Bone Conduction Swimming Headphones. This device is engineered for an exceptional audio experience during various activities, including swimming, fitness, cycling, and running. Its IP68 waterproof rating allows for underwater use, making it an ideal companion for aquatic sports. Please note that for optimal performance underwater, the MP3 mode should be utilized, as Bluetooth transmission is limited in water.

PRODUCT FEATURES

- **IP68 Waterproof Rating:** Professional-grade waterproofing, allowing submersion up to 2 meters for 2 hours. Ideal for swimming and water sports.
- **Bone Conduction Technology:** Delivers audio through your cheekbones, leaving your ears open to ambient sounds for enhanced safety and awareness.
- **Integrated 32GB MP3 Player:** Store thousands of songs or audiobooks directly on the headphones, perfect for underwater listening where Bluetooth signals are weak.
- **Bluetooth 5.4 Connectivity:** Ensures faster and more stable wireless connections for land-based activities.
- **Lightweight and Comfortable Design:** Weighing only 24g, made from soft silicone material for extended wear comfort.
- **Long Battery Life:** Up to 8 hours of continuous music playback on a single charge.
- **Directional Sound Transmission:** Enhanced sound quality with reduced sound leakage, protecting your privacy during calls.
- **Built-in Microphone:** For clear hands-free calls.

2024 3th Generation

1th Generation

- Air Conduction
- No Waterproof

3th Generation

- Bluetooth 5.4
- IP68 Waterproof
- Premium Sound Quality

2th Generation

- Bluetooth 5.0
- Sound Leakage

PACKAGE CONTENTS

The MONODEAL UKS820 package typically includes:

- MONODEAL UKS820 Bone Conduction Headphones
- Charging Cable
- User Manual
- Earplugs (foam and silicone, as mentioned in reviews)

SETUP

1. Charging the Headphones

1. Connect the provided charging cable to the charging port on the headphones.
2. Plug the other end of the cable into a USB power adapter (not included) or a computer's USB port.
3. The LED indicator will show the charging status. A full charge typically takes approximately [X] hours (*specific time not provided, user should refer to product documentation or LED behavior*).

2. Powering On/Off

- **To Power On:** Press and hold the Power button for [X] seconds until the LED indicator lights up (*specific time not provided*).
- **To Power Off:** Press and hold the Power button for [X] seconds until the LED indicator turns off (*specific time not provided*).

OPERATING INSTRUCTIONS

1. Bluetooth Mode (Wireless Streaming)

1. Ensure the headphones are powered on.
2. Activate Bluetooth on your smartphone or other device.
3. Search for "MONODEAL UKS820" (or similar name) in your device's Bluetooth settings and select it to pair.
4. Once paired, the LED indicator will confirm the connection, and you can stream audio wirelessly.
5. **Note:** Bluetooth connectivity is not effective underwater. Switch to MP3 mode for swimming.

2. MP3 Mode (Internal Storage Playback)

- 1. Transferring Music:** Connect the headphones to a computer using the charging cable. The headphones will appear as a removable drive. Drag and drop your audio files (e.g., MP3, WAV) into the headphone's storage.
- 2. Switching to MP3 Mode:** Locate the mode button on the headphones (*specific button not detailed in input, assume a dedicated button or combination*). Press it to switch from Bluetooth mode to MP3 mode.
- 3. Playback:** Use the control buttons (e.g., Play/Pause, Next/Previous Track) to manage your music.
- 4. Volume Control:** Adjust volume using the dedicated volume buttons.

3. Call Management

- **Answer/End Call:** Press the Multi-function button once (assuming a multi-function button).
- **Reject Call:** Press and hold the Multi-function button for [X] seconds (specific time not provided).

A woman with dark hair is floating on her back in clear blue water. She is wearing a pair of dark, over-ear headphones. Her eyes are closed, and she appears relaxed. The water is slightly rippled, and the background is a bright blue.

Open-Ear Comfort

Bud-free listening for all-day comfort
in the water or while exercising

Image: A woman relaxing in water with the MONODEAL UKS820 headphones, highlighting the open-ear comfort for bud-free listening during aquatic activities.

Safety and Awareness

Enjoy music and keep aware of your surroundings

Image: A cyclist wearing the MONODEAL UKS820 headphones, emphasizing the safety and awareness benefits of the open-ear design, allowing users to hear their surroundings.

MAINTENANCE

- **Cleaning:** After use, especially after swimming, rinse the headphones with fresh water to remove chlorine or salt. Wipe them dry with a soft cloth.
- **Storage:** Store the headphones in a cool, dry place away from direct sunlight and extreme temperatures.
- **Charging Port:** Ensure the charging port is dry before connecting the charging cable to prevent damage.
- **Earplugs:** If using the included earplugs, clean them regularly according to their specific instructions.

TROUBLESHOOTING

Problem	Possible Solution
No power/Won't turn on	Ensure the headphones are fully charged. Connect to a power source and check the charging indicator.
Cannot pair via Bluetooth	Ensure headphones are in Bluetooth pairing mode. Turn off and on Bluetooth on your device. Move closer to your device (within 10 meters). Forget the device in your phone's Bluetooth settings and try pairing again.
No sound in MP3 mode	Ensure the headphones are switched to MP3 mode. Check if audio files are properly loaded onto the 32GB internal storage. Adjust the volume.
Poor sound quality underwater	Ensure you are using MP3 mode for underwater listening. Bluetooth transmission is significantly degraded in water.
Headphones not recognized by computer	Try a different USB port or cable. Ensure the headphones are powered on when connecting to the computer.
