megacom DuoMon3 Pro

megacom DuoMon3 PRO 2025ver. Instruction Manual

Your comprehensive guide to the DuoMon3 PRO auto-catcher.

Introduction

The megacom DuoMon3 PRO 2025ver. is an advanced auto-catcher designed to enhance your mobile gaming experience. It features automatic catching and spinning, dual account support, and a compact, waterproof design. With innovative charging solutions and customizable alerts via a dedicated app, the DuoMon3 PRO offers convenience and efficiency for continuous gameplay.
This manual provides detailed instructions for setting up, operating, and maintaining your DuoMon3 PRO, along with troubleshooting tips and product specifications.

Package Contents

Upon opening your DuoMon3 PRO package, please verify that all the following items are included:

- 1x DuoMon3 PRO Auto Catcher device
- 1x Silicone Pouch
- 1x Magnetic Charging Pad
- 1x USB-C Cable
- 1x Lanyard
- 1x Instruction Manual (this document)

Setup

1. Initial Charging

Before first use, fully charge your DuoMon3 PRO. The device supports both Type-C wired charging and wireless magnetic charging.

1. **Wired Charging:** Connect the provided USB-C cable to the DuoMon3 PRO and a compatible USB power source.
2. **Wireless Charging:** Place the DuoMon3 PRO onto the included magnetic charging pad. Ensure the device is properly aligned for efficient charging. The charging pad can also charge your smartphone.

2. App Download and Installation

To unlock the full potential of your DuoMon3 PRO and customize its settings, download the **MEGACOM Center** app from your device's app store. The app is required for advanced features and customization.

- For iOS devices, the app requires iOS 16 or later.

3. Device Pairing

The DuoMon3 PRO connects to your smartphone via Bluetooth. Follow these steps to pair your device:

1. Ensure Bluetooth is enabled on your smartphone.
2. Turn on the DuoMon3 PRO using its on/off switch.
3. Open the MEGACOM Center app and follow the on-screen instructions to connect your DuoMon3 PRO.
4. Once paired, the device will indicate a successful connection (e.g., via LED lights or voice notification).

The DuoMon3 PRO features **One-Touch Reconnection**, allowing you to seamlessly reconnect to your iPhone or Android phone without needing to remove the device from your bag. Simply tap the Ball icon on your game screen

to reconnect.

Operating Instructions

1. Auto-Catch and Auto-Spin

The DuoMon3 PRO automatically catches creatures and spins Pokéstops/Gyms within its range, allowing you to earn in-game resources without constant manual interaction. This feature is active when the device is connected and the game is running.

- The device has a powerful 65-foot (20m) connection range for stable operation.
- The automatic reconnection feature in the MEGACOM Center app helps the game recover from hourly disconnections, enabling 24-hour continuous capture and collection. Note: The game screen must remain active for this feature.

Image: Demonstrating the auto-reconnect feature for continuous 24-hour auto-catching, even while busy or driving.

2. Dual Account & Device Support (1P/2P Mode)

The DuoMon3 PRO can seamlessly connect and manage two accounts or devices simultaneously. This is ideal for multi-account users or for playing with friends and family.

- Each account can be independently switched to sleep mode for enhanced power saving.
- To switch between 1P (single player) and 2P (two players) modes, use the dedicated button on the device.

Image: Two users simultaneously engaging with the DuoMon3 PRO, highlighting its ability to support two accounts or devices.

3. Customizable Alerts

The MEGACOM Center app provides unparalleled control over your notification preferences. You can adjust settings for voice notifications, LED lights, and vibrations.

- **Light Settings:** Adjust LED brightness from 0% to 100% (0% means lights off). Choose between Standard Mode and Simple Mode.
- **Sound Settings:** Turn sound notifications ON/OFF, adjust volume, or switch to beep sounds for noisy environments.
- **Vibrating Settings:** Turn vibration ON/OFF.
- **Language Settings:** Change the language of notifications to English, Japanese, or Chinese.

Maintenance

1. Waterproofing (IPX7)

The DuoMon3 PRO is IPX7 waterproof, meaning it can withstand immersion in water up to 1 meter for 30 minutes. While it is designed to be durable, avoid prolonged submersion or exposure to high-pressure water jets.

- If the device gets wet, wipe it dry with a clean, soft cloth before charging or storing.
- Do not attempt to charge the device if the charging port is wet.

Image: The DuoMon3 PRO's compact size and IPX7 waterproof rating, emphasizing its portability and durability.

2. Cleaning and Storage

To clean your DuoMon3 PRO, use a soft, dry, lint-free cloth. Do not use abrasive cleaners, solvents, or aerosol sprays. Store the device in a cool, dry place away from direct sunlight and extreme temperatures.

3. Battery Care

The DuoMon3 PRO uses a rechargeable battery. To maximize battery lifespan:

- Avoid fully discharging the battery frequently.
- Charge the device regularly, even if not in use for extended periods.
- Use only the provided charging pad and USB-C cable. If using other wireless charging pads, ensure compatibility with the DuoMon3 PRO's compact size.
- Monitor the device and charging pad for excessive heat during charging. If overheating occurs, disconnect immediately and contact support.

Troubleshooting

Problem	Possible Cause	Solution
Device not connecting or frequently disconnecting.	Bluetooth interference, device out of range, app not running in foreground, game issues.	• Ensure device is within 65-foot (20m) Bluetooth range. • Restart Bluetooth on your phone and the DuoMon3 PRO. • Close and reopen the game and the MEGACOM Center app. • Ensure the game screen remains active for continuous connection.
Device not auto-catching or auto-spinning.	In-game settings, low inventory (full bag), no available creatures/Pokéstops, connection issue.	• Check in-game settings to ensure auto-catch/spin is enabled. • Verify you have enough Poké Balls. • Clear inventory space if your bag is full. • Ensure a stable connection as per the previous point. • Note that catch rates can vary and may not always be 100%.
Device or charging pad getting hot during charging.	Improper alignment on wireless pad, faulty cable/charger, internal issue.	• Ensure the DuoMon3 PRO is correctly centered on the wireless charging pad. • Use only the provided charging accessories. • If overheating persists, discontinue use and contact customer support.
Voice notifications are too loud or cannot be silenced.	App settings, inherent device design.	• Adjust sound volume or switch to beep sounds via the MEGACOM Center app. • Note that some voice prompts (e.g., full bag, disconnects) are integral to the device's feedback system and may not be fully disabled.
MEGACOM Center app not working on iOS.	Outdated iOS version.	• Ensure your iOS device is running iOS 16 or later. • Update your operating system if necessary.

SPECIFICATIONS
