EASYERA HS-VS200A

EASYERA Electric Mason Jar Vacuum Sealer User Manual

Model: HS-VS200A

1. INTRODUCTION

The EASYERA Electric Mason Jar Vacuum Sealer is designed to extend the freshness of your stored food items by removing air from mason jars. This device features a dual-head design for compatibility with both regular and wide-mouth jars, automatic stop functionality, and simple one-button operation. It is portable, rechargeable, and operates quietly, making it a convenient tool for various food preservation needs.

2. IMPORTANT SAFETY INFORMATION

- Read all instructions before use.
- Keep the device away from water and other liquids. Do not immerse the unit in water.
- Do not operate the device if it has been damaged in any way.
- This device is intended for household use only.
- Keep out of reach of children.
- Use only the provided charging cable.
- Ensure jar lids are clean and dry before sealing to achieve an effective vacuum.
- This device is for vacuum sealing only and is not intended for canning processes that require heat treatment.

3. PACKAGE CONTENTS

Verify that all items are present in your package:

- 1 x EASYERA Electric Mason Jar Vacuum Sealer (Model HS-VS200A)
- 5 x Wide-mouth Mason jar lids
- 5 x Regular-mouth Mason jar lids
- 1 x Bottle opener (for releasing vacuum seal)
- 1 x USB Charging cable
- 2 x Dust covers

4. PRODUCT OVERVIEW

The EASYERA Electric Mason Jar Vacuum Sealer features a compact design with two distinct sealing heads to accommodate different jar sizes. It includes intuitive controls for ease of use.

Key Features:

- **Dual-Head Design:** One side for wide-mouth jars, the other for regular-mouth jars.
- **One-Button Operation:** Simple press-and-seal functionality.
- **Auto-Stop Technology:** Automatically stops when a vacuum seal is achieved.
- **Rechargeable:** Built-in battery for cordless operation.
- **Quiet Operation:** Designed to minimize noise during use.

The dual-head design of the sealer, compatible with both wide-mouth (3.39in/86mm) and regular-mouth (2.76in/70mm) mason jars.

5. SETUP AND CHARGING

5.1 Initial Charge

Before first use, fully charge the vacuum sealer. Connect the provided USB charging cable to the Type-C charging port on the device and to a suitable USB power source.

- **Charging:** Indicator light is solid red.
- **Fully Charged:** Indicator light turns green.
- **Low Battery:** Indicator light flashes red.

5.2 Preparing Jars and Lids

Ensure that your mason jars and lids are clean and completely dry before use. Any moisture or debris can prevent a proper seal.

6. OPERATING INSTRUCTIONS

6.1 Sealing a Mason Jar

1. **Prepare the Jar:** Fill your mason jar with the desired food item. Ensure the rim of the jar is clean and dry. Place a new or undamaged metal canning lid (regular or wide-mouth) on top of the jar.
2. **Select Sealer Head:** Identify the correct sealing head on the device for your jar size (wide-mouth or regular-mouth). Remove the corresponding dust cover.
3. **Position the Sealer:** Place the appropriate end of the vacuum sealer firmly and centrally over the lid on the mason jar. Ensure a snug fit.
4. **Activate Sealing:** Press the corresponding button on the sealer (the button closer to the selected sealing head). The device will begin to vacuum the air out of the jar.
5. **Automatic Stop:** The sealer will automatically stop once a sufficient vacuum has been achieved. You may hear a beep indicating completion.
6. **Remove Sealer:** Carefully lift the vacuum sealer off the jar. The lid should now be securely sealed.

Important Tip: Always press the button that corresponds to the side of the sealer you are using (e.g., if using the wide-mouth side, press the button closer to that side).

ONE-TOUCH OPERATION

Demonstration of the one-touch operation for sealing a mason jar.

6.2 Releasing the Vacuum Seal

To open a vacuum-sealed jar, use the provided bottle opener. Gently pry up the edge of the metal lid until you hear the air release. The lid can then be easily removed.

7. MAINTENANCE AND CARE

- **Cleaning:** Wipe the exterior of the vacuum sealer with a damp cloth. Do not use abrasive cleaners or immerse the device in water.
- **Storage:** Store the device in a cool, dry place. Use the provided dust covers to protect the sealing heads when not in use.
- **Battery Care:** For optimal battery life, avoid completely draining the battery frequently. Charge the device regularly, even if not in constant use.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	Low or no battery charge.	Charge the device using the provided USB cable.
Jar does not seal properly.	Lid or jar rim is wet, dirty, or damaged. Sealer not positioned correctly. Incorrect button pressed.	Ensure jar rim and lid are clean and dry. Reposition the sealer firmly and centrally. Press the correct button for the jar size. Use new, undamaged lids.
Sealer stops prematurely or runs too long.	Device malfunction or improper use.	Ensure the sealer is firmly pressed onto the lid. If issues persist, contact customer support.
Device is noisy.	Normal operation sound.	The device is designed for quiet operation, but some motor sound is normal during vacuuming.
