## Doli Yearning

# Doli Yearning Baby Bath Thermometer User Manual

Model: DYWDJ005

## 1. INTRODUCTION

The Doli Yearning Baby Bath Thermometer is designed to provide accurate and rapid temperature readings for your baby's bath water and room environment. Its seal-shaped design makes it a safe and engaging bath toy while ensuring optimal safety through precise temperature monitoring. This device is made from BPA-free materials and features a clear LCD display for easy readability.

## 2. SAFETY INFORMATION

Your baby's safety is paramount. This thermometer is constructed from BPA-free materials, ensuring it is safe for contact with your child. Always ensure the battery compartment is securely closed to maintain its waterproof integrity. The device provides visual cues for temperature safety:

- **Blue Indicator:** Water temperature is too cool.
- **No Flashing Indicator:** Water temperature is just right.
- **Red Indicator:** Water temperature is too hot.

Always double-check the temperature with your hand before placing your baby in the water, even if the thermometer indicates a safe temperature.

### TIPS:

You can set an exclusive temperature warning for your baby.

Water Temp is  
Too Cool

Water Temp is  
Just Right

Water Temp is  
Too Hot

### 3. PACKAGE CONTENTS

Upon opening the package, please verify that all components are present:

- Doli Yearning Baby Bath Thermometer (Seal Shape)
- User Manual (this document)
- 2 x LR44 Button Batteries (pre-installed or included separately)

### 4. SETUP

Before first use, or when replacing batteries, follow these steps:

1. Locate the battery cover on the underside of the thermometer.
2. Using a small screwdriver, unscrew the battery cover.

3. If present, remove the insulation piece located between the batteries. This piece prevents battery drain during storage.
4. Ensure the 2 LR44 button batteries are correctly inserted with the positive (+) side facing up.
5. Securely replace the battery cover and tighten the screw to ensure the device remains waterproof.

## ATTENTION:

Please open the battery cover to remove the insulation piece between the batteries before use .

Change Display Between Fahrenheit And Celsius

Unscrew The Screw To Replace The Battery

## 5. OPERATING INSTRUCTIONS

### 5.1 Measuring Water Temperature

Place the thermometer directly into the bath water. The large LCD display will show the water temperature within approximately 1 second. The thermometer will float, allowing for continuous monitoring during bath time.

### 5.2 Measuring Room Temperature

The thermometer can also be used to measure ambient room temperature. Simply place it in the desired room, and the display will show the current air temperature.

### 5.3 Switching Between Celsius (°C) and Fahrenheit (°F)

To change the temperature unit, locate the "°C/°F" button on the bottom of the thermometer. Press this button to toggle between Celsius and Fahrenheit readings.

### 5.4 Automatic Shut-off

The thermometer is designed to automatically turn off after a period of inactivity to conserve battery life.

## 6. MAINTENANCE AND CARE

### 6.1 Cleaning

To clean the thermometer, hand wash it with mild soap and water. Do not use abrasive cleaners or immerse the device in harsh chemicals.

## 6.2 Battery Replacement

When the display becomes dim or unresponsive, it is time to replace the batteries. Follow the steps outlined in the "Setup" section (Section 4). It is crucial to ensure the battery cover is securely fastened after replacement to maintain the device's waterproof rating.

Image: A visual guide showing the battery compartment opened with two LR44 button batteries removed, illustrating the battery replacement process.

## 6.3 Storage

Store the thermometer in a cool, dry place when not in use. Avoid prolonged exposure to direct sunlight or extreme temperatures.

## 7. TROUBLESHOOTING

If you encounter issues with your Doli Yearning Baby Bath Thermometer, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Display is dim or blank.	Low battery or insulation piece still present.	Replace batteries (refer to Section 4 & 6.2). Ensure the insulation piece is removed.
Inaccurate temperature readings.	Sensor obstruction or device malfunction.	Ensure the sensor area is clean. If the problem persists, contact customer support.
Device does not turn on.	Batteries incorrectly installed or dead.	Check battery orientation and replace if necessary. Ensure the insulation piece is removed.
Water leakage into battery compartment.	Battery cover not securely closed.	Ensure the battery cover is tightly screwed on. If water has entered, dry thoroughly and replace batteries. If leakage continues, discontinue use.

## 8. SPECIFICATIONS

- **Model Number:** DYWDJ005

- **Power Source:** 2 x LR44 Button Batteries (included)
- **Dimensions:** 9.53 x 8 x 4.8 cm (3.75 x 3.15 x 1.89 inches)
- **Weight:** 66.7 g (2.35 ounces)
- **Material:** BPA-free Plastic
- **Display Type:** LCD
- **Special Feature:** High Accuracy, Waterproof
- **Care Instructions:** Hand wash
