Aquastar 16 fl oz Aluminum Bottle

Aquastar Natural Spring Water 16 fl oz Aluminum Bottle User Manual

Model: 16 fl oz Aluminum Bottle | UPC: 860011959786

1. INTRODUCTION

This manual provides essential information for the proper use, care, and maintenance of your Aquastar Natural Spring Water 16 fl oz aluminum bottles. Please read this manual thoroughly to ensure optimal enjoyment and to understand the product's features and environmental benefits.

2. PRODUCT OVERVIEW

Aquastar Natural Spring Water is sourced from pristine natural springs and packaged in eco-friendly, 100% recyclable aluminum bottles. Each bottle contains 16 fluid ounces (473 mL) of pure, refreshing spring water, free from BPA and harmful additives.

This image displays the Aquastar Natural Spring Water in its 16 fluid ounce aluminum bottle packaging. A single bottle is prominently featured in the foreground, with a 12-pack of bottles visible in the background, illustrating the product's packaging.

3. SETUP AND FIRST USE

1. **Unpacking:** Remove the bottles from their packaging. Inspect each bottle for any signs of damage.
2. **Initial Rinse:** Although the bottles are sealed and filled with purified water, a quick rinse of the exterior with clean water is recommended before first use.
3. **Storage:** Store bottles in a cool, dry place away from direct sunlight. Refrigeration is recommended for optimal taste and temperature.

4. OPERATING INSTRUCTIONS

Using your Aquastar Natural Spring Water bottle is straightforward:

1. **Opening the Bottle:** Twist the cap counter-clockwise to break the seal and open the bottle.
2. **Drinking:** Enjoy the refreshing taste of natural spring water.
3. **Resealing:** To reseal, twist the cap clockwise until it is securely tightened. This helps prevent spills and maintains water freshness.

This image shows a hand holding an Aquastar Natural Spring Water bottle against a clear sky, emphasizing its convenient size and portability for on-the-go hydration.

5. STORAGE AND MAINTENANCE

Proper storage and maintenance ensure the quality of your water and the integrity of the bottle.

- **Temperature:** For best taste, store water in a cool environment. The aluminum bottle helps keep water colder for longer once chilled.
- **Cleaning:** The bottles are designed for single use with the original contents. If you choose to reuse the bottle for other purposes, wash thoroughly with warm water and mild soap. Rinse completely.
- **Avoid Freezing:** Do not freeze the bottles when full, as expansion of water can damage the aluminum.

Aquastar Natural Spring Water bottles are shown submerged in ice within a clear bucket, illustrating the aluminum bottle's ability to keep water cold.

6. RECYCLING INFORMATION

Aquastar aluminum bottles are 100% recyclable. Please dispose of empty bottles in designated recycling bins according to your local recycling guidelines. Recycling aluminum helps reduce waste and conserve natural resources.

A side profile of the Aquastar Natural Spring Water bottle, showcasing its ergonomic and modern design, which is also designed for easy recycling.

7. TROUBLESHOOTING

- **Leaking Bottle:** Ensure the cap is securely tightened. If leaking persists from a new, unopened bottle, do not consume the water and contact customer support.
- **Unusual Taste:** Aquastar Natural Spring Water is rigorously tested for purity. If you detect an unusual taste, check the expiration date on the bottle. Do not consume if the seal was broken prior to opening or if the water appears discolored.

8. SPECIFICATIONS

Brand	Aquastar
Item Volume	16 Fluid Ounces (473 mL)
Package Information	Bottle
Variety	Spring Water
Flavor	No Flavor
Material	Aluminum (100% Recyclable, BPA-Free)
UPC	860011959786
Manufacturer	Aquastar LLC
