Titan Celestor Smart Watch User Manual

Model: 90206AP02

INTRODUCTION

Welcome to the user manual for your new Titan Celestor Smart Watch. This guide provides comprehensive instructions on how to set up, operate, maintain, and troubleshoot your device. The Titan Celestor is designed to enhance your daily life with its advanced features, including a vibrant AMOLED display, built-in GPS, comprehensive health monitoring, and various sports modes. Please read this manual carefully to ensure optimal performance and longevity of your smartwatch.

WHAT'S IN THE BOX

Upon unboxing your Titan Celestor Smart Watch, please verify that all the following items are included:

- Titan Celestor Smart Watch
- Magnetic Charging Cable
- Quick Start Guide
- Warranty Card

SETUP

1. Initial Charging

Before first use, fully charge your Titan Celestor Smart Watch. Connect the magnetic charging cable to the charging pins on the back of the watch and plug the USB end into a compatible power adapter (not included) or a computer's USB port.

- A full charge typically takes approximately 2 hours.
- The watch display will indicate charging status.

2. Pairing with Your Smartphone

To unlock the full potential of your Titan Celestor, pair it with your smartphone via the dedicated Titan Smart app.

1. Download the "Titan Smart" app from your smartphone's app store (available for Android and iOS).
2. Ensure Bluetooth is enabled on your smartphone.
3. Open the Titan Smart app and follow the on-screen instructions to create an account or log in.
4. Select "Add Device" or "Pair New Device" within the app.
5. The app will search for nearby devices. Select "Titan Celestor" from the list.
6. Confirm the pairing request on both your watch and smartphone.
7. Once paired, the watch will synchronize data with the app.

OPERATING YOUR SMART WATCH

Display and Navigation

The Titan Celestor features a 1.43" AMOLED display with 750 nits brightness for clear visibility. Navigate using the touchscreen and the opto-mechanical crown.

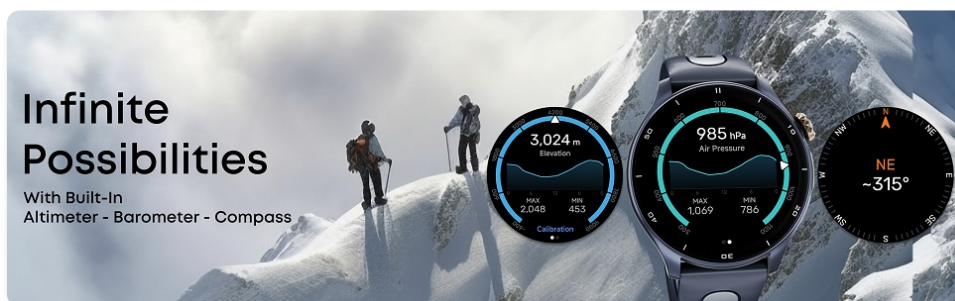

Image: Illustration of the 1.43" Super AMOLED display with Adaptive AOD feature, showing the difference between the AMOLED screen and Adaptive AOD.

- **Touchscreen:** Swipe left/right, up/down to navigate menus and notifications. Tap to select.
- **Crown:** Rotate to scroll through lists or adjust settings. Press to return to the home screen or confirm selections.
- **Adaptive AOD:** The display supports Always-On Display (AOD) with adaptable watch faces for continuous time visibility while conserving battery.

Built-in GPS

The integrated GPS provides accurate location tracking for outdoor activities, ensuring precise distance and route mapping.

Image: A person running with the smartwatch, illustrating the built-in GPS tracking feature with a map of the route on the watch face.

- Activate GPS in relevant sports modes (e.g., running, cycling).
- Allows for rapid GPS start and tracks elevation gain.
- Compatible with Strava for activity synchronization.

Advanced Health Intelligence

Monitor your well-being with comprehensive health tracking features.

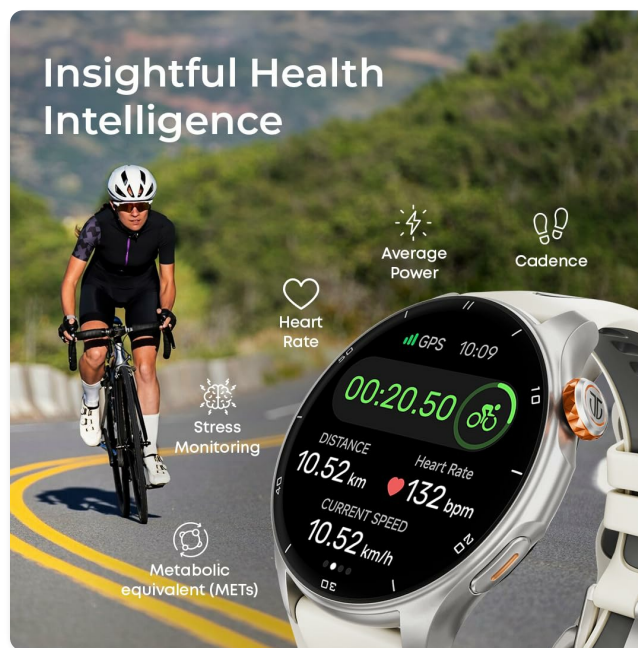

Image: A cyclist with the smartwatch, displaying various health metrics like heart rate, stress monitoring, average power, cadence, and metabolic equivalents (METs).

- **Heart Rate Monitoring:** Continuous heart rate tracking throughout the day.
- **SpO2 Monitoring:** Measure your blood oxygen saturation levels.
- **Sleep Tracking:** Analyze your sleep patterns and quality.
- **Stress Monitoring:** Track stress levels and receive prompts for relaxation.
- **Activity Tracking:** Counts steps, distance, and calories burned.

Sports Modes and Outdoor Features

The watch supports over 100 sports modes and includes specialized outdoor sensors.

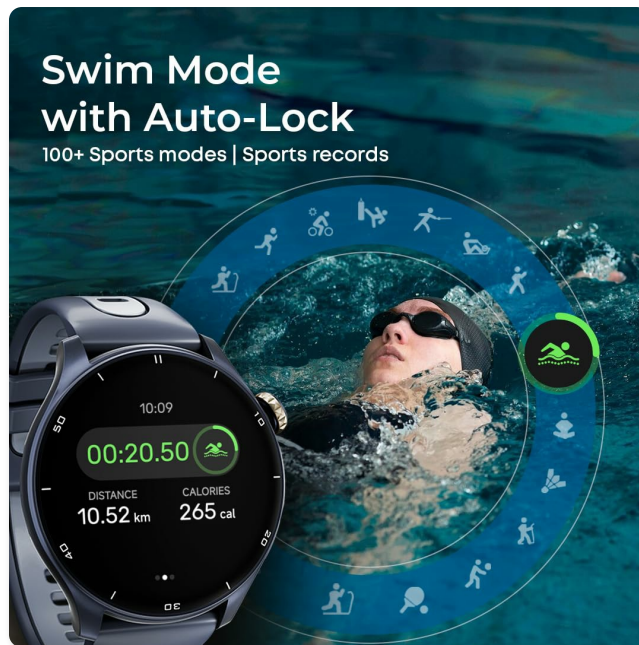

Image: A person swimming with the smartwatch, highlighting the swim mode with auto-lock and water eject features, along with icons for various sports modes.

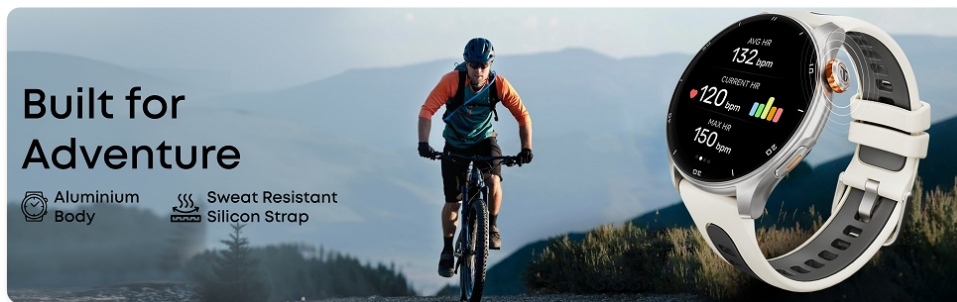

Image: Mountain climbers with the smartwatch, illustrating the Altimeter, Barometer, and Compass (ABC) features with their respective readings on the watch face.

- **100+ Sports Modes:** Select the appropriate mode for accurate tracking of your workouts.
- **Swim Mode:** Features auto-lock and a water eject function for swimming activities.
- **Altimeter:** Measures current altitude and elevation changes.
- **Barometer:** Provides atmospheric pressure readings, useful for weather prediction.
- **Compass:** Offers directional guidance for navigation.

SingleSync BT Calling & AI Voice Assistant

- **Bluetooth Calling:** Make and receive calls directly from your watch when connected to your smartphone.
- **AI Voice Assistant:** Interact with your watch using voice commands for quick access to functions.

Custom Watchface Studio & SOS Feature

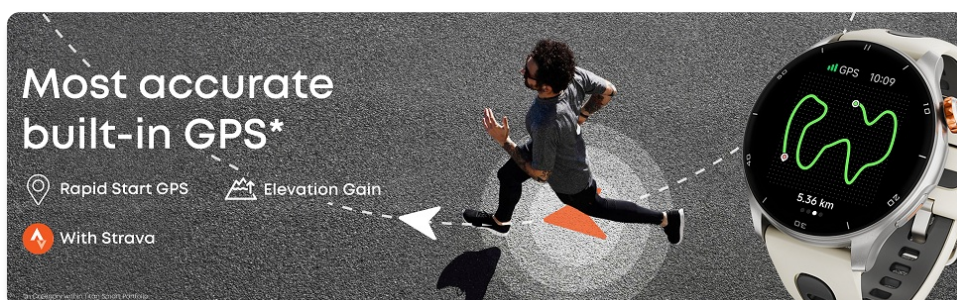

Image: A mobile phone screen showing the Custom Watchface Studio interface, alongside illustrations of battery life, daily highlights, and Bluetooth calling features on the smartwatch.

- **Watchface Studio:** Personalize your watch face with various designs and complications.
- **SOS Feature:** In case of emergency, activate the SOS function to send alerts to pre-selected contacts.

MAINTENANCE

- **Cleaning:** Wipe the watch and strap regularly with a soft, damp cloth. Avoid harsh chemicals.
- **Water Resistance:** The watch is water-resistant. However, avoid prolonged submersion in hot water or exposure to high-pressure water jets. Ensure the watch is dry before charging.
- **Charging:** Use only the provided magnetic charging cable. Do not force the charger.
- **Storage:** Store the watch in a cool, dry place when not in use.
- **Strap Care:** The dual-tone sweat-resistant silicone strap can be cleaned with mild soap and water.

TROUBLESHOOTING

Problem	Possible Solution
Watch not turning on/charging	Ensure the charging cable is properly connected to both the watch and the power source. Try a different USB port or power adapter. Allow the watch to charge for at least 30 minutes before attempting to turn it on.
Cannot pair with smartphone	Ensure Bluetooth is enabled on your phone and the watch. Make sure the watch is discoverable. Restart both the watch and the phone. Clear Bluetooth cache on your phone if issues persist.
Inaccurate health data	Ensure the watch is worn snugly on your wrist, about one finger's width above the wrist bone. Clean the sensor on the back of the watch. Update the watch firmware and app to the latest versions.
Short battery life	Reduce screen brightness, disable unnecessary notifications, limit continuous heart rate monitoring, and turn off Always-On Display if not needed. Ensure background app refresh is optimized.
GPS not connecting/inaccurate	Ensure you are in an open outdoor area with a clear view of the sky. Wait for the GPS signal to acquire before starting an activity. Update watch firmware.

SPECIFICATIONS

Feature	Detail
Brand	Titan
Model Name	Celestor
