WUBEN E1-M05

WUBEN E1 Selfie Light User Manual

Model: E1-M05

INTRODUCTION

The WUBEN E1 is the first mobile phone flashlight from the WUBEN brand, designed to enhance your mobile photography and videography. Equipped with advanced SMD3030 LEDs, it offers dimmable features and adjustable color temperature to customize lighting for any situation. Its compact and lightweight design makes it an excellent choice for everyday carry, easily fitting into pockets or purses.

Figure 1: WUBEN E1 Selfie Light and its versatile applications with a smartphone.

KEY FEATURES

- **Powerful Illumination:** Max lumen output of 300 lumens with a maximum battery life of 70 hours (in "Low" mode).
- **Adjustable Color Temperature:** 3 Light Modes (Warm Tone/Natural Tone/Cool Tone) with color temperature adjustments from 3000K-6000K.
- **Magnetic Attachment:** Features top-of-the-line N54 magnets for secure attachment to MagSafe-compatible phones or via the included magnetic suction ring.
- **Integrated Phone Stand:** Can be adjusted to any angle for convenient phone propping.
- **USB Type-C Rechargeable:** Efficient and easy recharging.
- **Portable Design:** Weighs only 38 grams, making it ideal for everyday carry.

SETUP

The WUBEN E1 is designed for easy and secure attachment to your smartphone.

Magnetic Attachment

- For MagSafe-Compatible Phones (iPhone 12 series and above):** Simply align the WUBEN E1 with the MagSafe area on the back of your phone. The strong N54 magnets will securely attach the light.
- For Non-MagSafe Phones or Phones with Non-Magnetic Cases:** Use the included magnetic suction ring. Peel off the adhesive backing from the magnetic ring and firmly attach it to the center of the back of your phone or phone case. Once the ring is in place, the WUBEN E1 can be magnetically attached to it.

STRENGTHENED STABILITY

By using top-of-the-line N54 magnets in our MagSafe-compatible design, we greatly improve how securely your device attaches and how long it lasts.

Figure 3: Compatibility options for the WUBEN E1, including direct MagSafe attachment and use with a magnetic ring.

OPERATING INSTRUCTIONS

Power On/Off and Brightness Adjustment

The WUBEN E1 features a knob for intuitive control over power and brightness.

- **Power On/Off:** Rotate the knob to turn the light on or off.
- **Brightness Adjustment:** Continue rotating the knob to infinitely adjust the brightness from 10% to 100%.

Changing Light Modes (Color Temperature)

The E1 offers three distinct light modes to suit different lighting needs.

- **Mode Switching:** Press the button located on the side of the device to cycle through the light modes: Warm Tone (3000K-3500K), Natural Tone (3500K-5000K), and Cool Tone (5000K-6000K).

MULTIPLE LIGHT MODES

You can freely adjust the color temperature and brightness according to your preferences

Using as a Phone Stand

The WUBEN E1's innovative flip design allows it to double as a versatile phone stand.

- **Adjustable Angle:** The light can be flipped out to an angle greater than 270 degrees, allowing you to position your phone vertically or horizontally for optimal viewing.
- **Stable Support:** Provides stable support for hands-free viewing of videos, video calls, or content creation.

FLIP DESIGN

Flexible flip design helps find the perfect angle for better photos

Figure 6: The flexible flip design allows for perfect angles for photos and stable phone propping.

ADJUSTABLE MOBILE PHONE HOLDER

With a 360-degree rotation feature, this stand can effortlessly adjust the viewing angle to suit your preferences.

Figure 7: The 360-degree rotation feature allows effortless adjustment of the viewing angle.

Selfie and Content Creation Lighting

The WUBEN E1 is optimized for improving the quality of your selfies, videos, and live streams.

- **Front-Facing Light:** When attached to your phone, the light can be flipped forward to illuminate your face for selfies and vlogging.
- **Back-Facing Light:** Use the light facing outwards for product photography, general illumination, or enhancing video quality in low-light conditions.

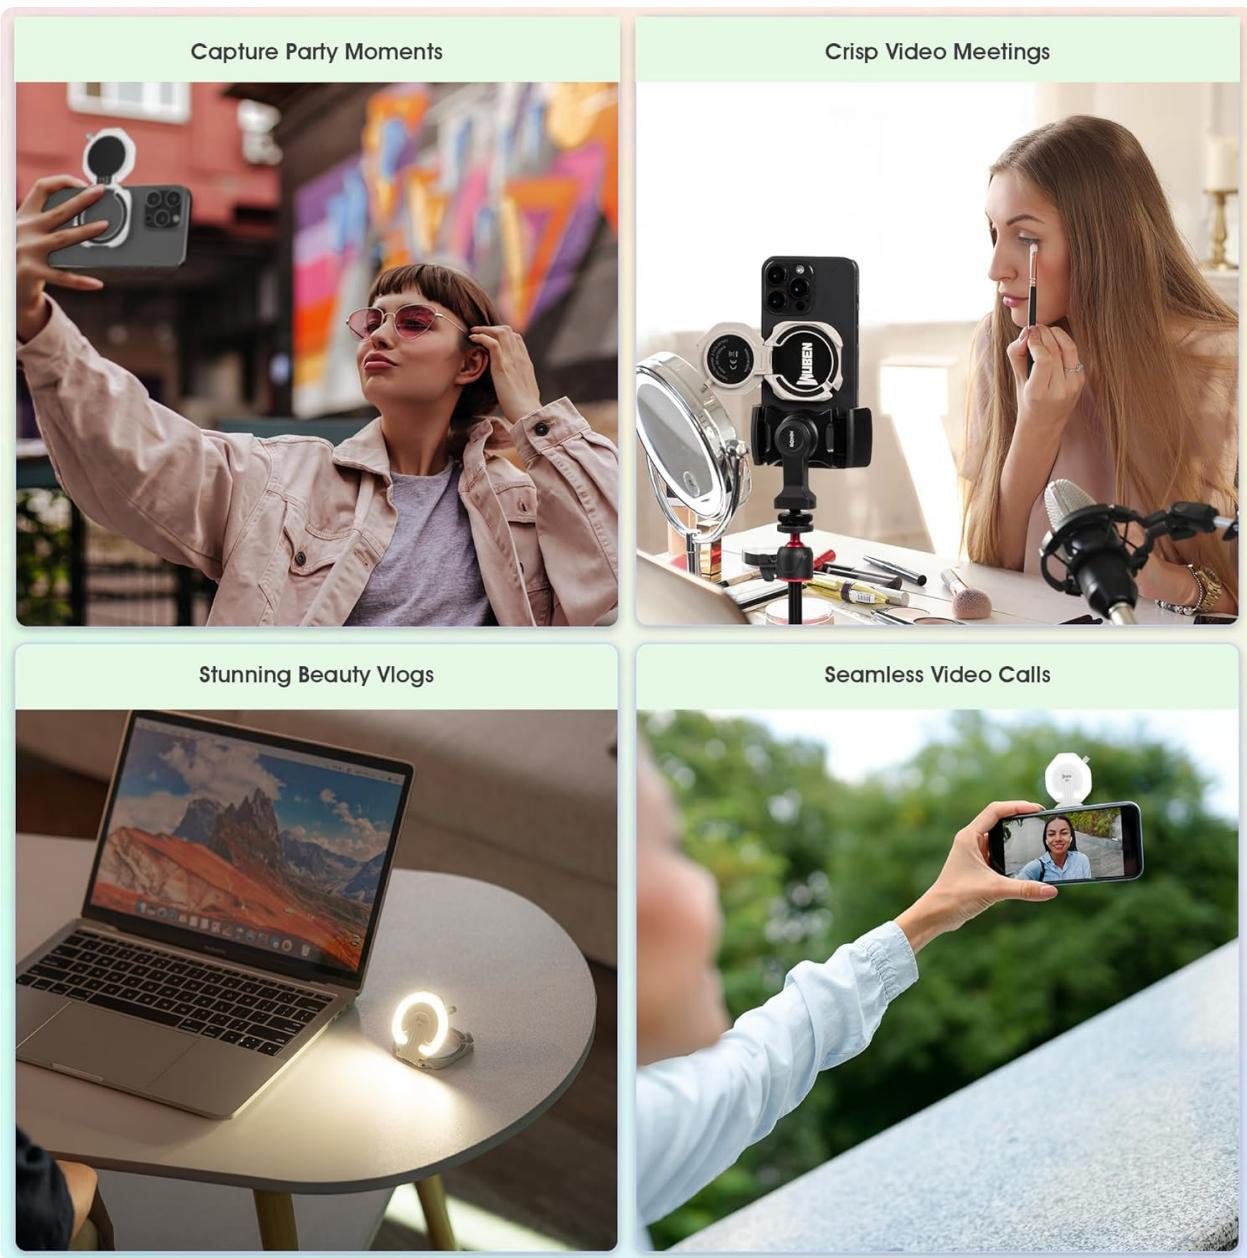

Figure 9: The WUBEN E1 enhances various daily activities and content creation.

CHARGING

The WUBEN E1 is equipped with a convenient USB Type-C port for fast and efficient charging.

- **Charging Process:** Connect the included USB Type-C cable to the E1's charging port and plug the other end into a compatible USB power source (e.g., wall adapter, computer, power bank).
- **Charging Indicator:** The battery indicator light will show red during charging and turn blue when charging is completed.
- **Charging Time:** It takes approximately 50 minutes to fully charge the device.

TYPE-C FAST CHARGING

It only takes 50 minutes to fully charge, and the maximum battery life is up to 70 hours.

Figure 10: The WUBEN E1 supports fast charging via its USB Type-C port.

MAINTENANCE

To ensure the longevity and optimal performance of your WUBEN E1, follow these maintenance guidelines:

- **Cleaning:** Wipe the device with a soft, dry cloth. Avoid using abrasive cleaners or solvents.
- **Storage:** Store the E1 in a cool, dry place away from direct sunlight and extreme temperatures.
- **Water Resistance:** The WUBEN E1 has an IP65 waterproof rating, meaning it is protected against dust and low-pressure water jets. Avoid submerging the device in water.
- **Impact Resistance:** The device is designed to withstand impacts from up to 1.5 meters.

Figure 11: The WUBEN E1 features IP65 waterproof and 1.5-meter impact resistance for durability.

TROUBLESHOOTING

If you encounter any issues with your WUBEN E1, please refer to the following common troubleshooting steps:

- **Light Not Turning On:** Ensure the device is fully charged. Connect it to a power source using the USB Type-C cable and check the charging indicator.
- **Light Not Bright Enough:** Rotate the knob to increase the brightness. Ensure you are in the desired light mode (Warm, Natural, or Cool).
- **Magnetic Attachment Issues:** Verify that your phone is MagSafe-compatible or that the included magnetic suction ring is properly attached to your phone/case. Ensure there are no obstructions between the light and the phone.
- **Charging Problems:** Try using a different USB Type-C cable or power adapter. Ensure the charging port is clean and free of debris.

If the problem persists after trying these steps, please contact WUBEN customer support for further assistance.

SPECIFICATIONS

Feature	Detail
Product Dimensions	10 x 4 x 10 inches
Item Weight	3.52 ounces (38 grams)
Model Number	E1-M05
Connectivity Technology	USB Type C
Flash Modes Description	Adjustable brightness and adjustable color temperature (3000K-6000K)

Max Lumen Output	300 lumens
Max Battery Life	70 hours (in Low mode)
Waterproof Rating	IP65
Impact Resistance	1.5 Meters
