

WUBEN E1-M04

WUBEN E1 Rechargeable LED Phone Light User Manual

Model: E1-M04

1. INTRODUCTION

The WUBEN E1 is a versatile, rechargeable LED phone light designed to enhance your mobile photography and videography. Featuring a magnetic attachment, adjustable color temperature, and stepless dimming, it provides optimal lighting for various scenarios, including selfies, vlogs, video calls, and product photography. Its compact and portable design makes it an ideal everyday carry accessory.

2. PACKAGE CONTENTS

Please verify that all items are present in your package:

- WUBEN E1 LED Phone Light
- USB Type-C Charging Cable
- Magnetic Suction Ring (for non-MagSafe compatible phones/cases)
- Carrying Case
- User Manual

3. PRODUCT OVERVIEW

The WUBEN E1 features a circular LED array, a control dial, and a magnetic base with a flexible hinge. Understanding these components is key to its operation.

WUBEN EDC PHONE FLASHLIGHT

- ☀ Max 300 Lumens
- 🌀 Magsafe Compatib
- 📷 3-Color Temperature
- 🔌 Stepless Dimming
- 💧 IP65 Waterproof
- 🔋 TYPE-C Rchargeable
- 📱 Adjustable phone stand

Image 3.1: Diagram highlighting key features of the WUBEN E1, including Max 300 Lumens, MagSafe Compatibility, 3-Color Temperature, Stepless Dimming, IP65 Waterproofing, Type-C Rechargeable, and Adjustable Phone Stand.

Key Components:

- **LED Array:** Provides illumination with adjustable color temperature and brightness.
- **Control Dial:** Used for power, brightness adjustment, and color temperature selection.
- **Magnetic Base:** Allows secure attachment to MagSafe compatible devices or surfaces.
- **Flexible Hinge:** Enables adjustment of the light's angle for optimal positioning.
- **USB Type-C Port:** For charging the internal battery.

4. SETUP

4.1 Attaching to a Phone

The WUBEN E1 is designed for easy attachment to smartphones.

1. **For MagSafe Compatible Phones (iPhone 12 series and above) or Cases:** Simply align the magnetic base of the WUBEN E1 with the MagSafe area on the back of your phone or case. The strong N54 magnets will

securely attach the light.

2. **For Non-MagSafe Phones or Cases:** Use the included magnetic suction ring. Peel off the adhesive backing from the magnetic ring and firmly press it onto the center of the back of your phone or phone case. Ensure the surface is clean and dry before application for optimal adhesion. Once the ring is attached, the WUBEN E1 can be magnetically secured to it.

STRENGTHENED STABILITY

By using top-of-the-line N54 magnets in our MagSafe-compatible design, we greatly improve how securely your device attaches and how long it lasts.

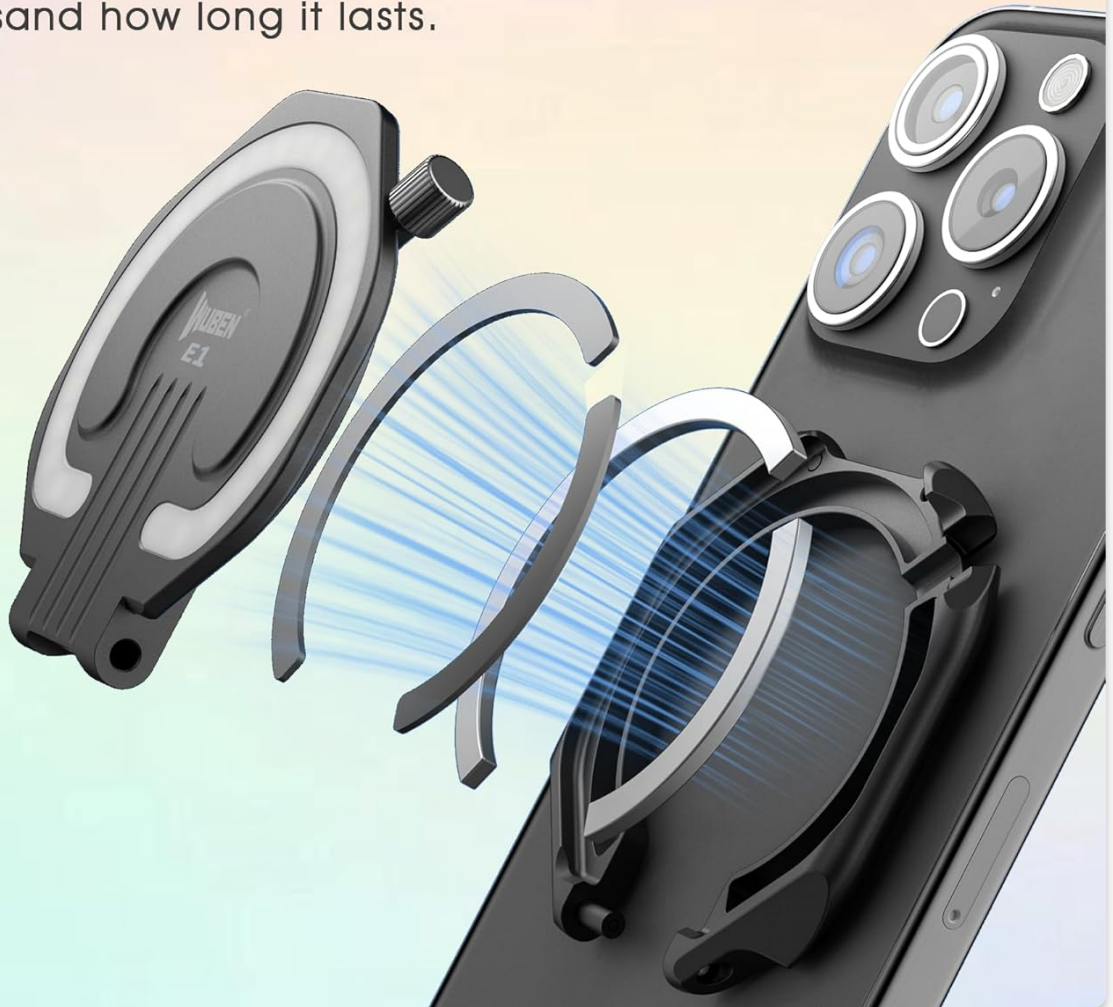

Image 4.1: Illustration of the WUBEN E1 magnetically attaching to a phone, demonstrating the strong N54 magnet design for secure device attachment.

Image 4.2: Visual guide to WUBEN E1 compatibility, showing direct use with iPhone 12 and above, use with MagSafe cases, and use with non-MagSafe phones via a metal plate.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

- **To Power On:** Press and hold the control dial for approximately 1-2 seconds. The light will illuminate with the last used settings.
- **To Power Off:** Press and hold the control dial for approximately 1-2 seconds. The light will turn off.

5.2 Adjusting Brightness (Stepless Dimming)

Once the light is on, rotate the control dial to adjust the brightness level. Rotate clockwise to increase brightness and counter-clockwise to decrease brightness. The brightness can be adjusted steplessly from 10% to 100%.

5.3 Changing Color Temperature

The WUBEN E1 offers three distinct color temperature modes: Warm Tone, Natural Tone, and Cool Tone.

- **To Change Mode:** While the light is on, quickly press the control dial once. Each press will cycle through the modes: Warm Tone (3000-3500K), Natural Tone (3500-5000K), and Cool Tone (5000-6000K).

MULTIPLE LIGHT MODES

You can freely adjust the color temperature and brightness according to your preferences

Color Temperature Adjustment from 3000K-3500K

Color Temperature Adjustment from 3500K-5000K

Color Temperature Adjustment from 5000K-6000K

Infinitely Adjustable Brightness from 10%-100%

Image 5.1: Visual representation of the WUBEN E1's multiple light modes, demonstrating Warm Tone (3000-3500K), Natural Tone (3500-5000K), and Cool Tone (5000-6000K), along with infinitely adjustable brightness from 10%-100%.

5.4 Using as a Phone Stand

The flexible hinge allows the WUBEN E1 to function as a phone stand. Simply fold out the light to the desired angle to prop up your phone for hands-free viewing or recording.

ADJUSTABLE MOBILE PHONE HOLDER

With a 360-degree rotation feature, this stand can effortlessly adjust the viewing angle to suit your preferences.

Image 5.2: Various configurations of the WUBEN E1 acting as an adjustable mobile phone holder, showcasing its 360-degree rotation feature for effortless viewing angle adjustments.

5.5 Flexible Angle Adjustment

The light features a flip design that allows for more than 270 degrees of rotation. This enables you to direct the light precisely where needed, whether for front-facing selfies or illuminating subjects from behind the phone.

FLIP DESIGN

Flexible flip design helps find the perfect angle for better photos

Image 5.3: The WUBEN E1 demonstrating its flexible flip design, allowing for over 270 degrees of angle adjustment to achieve optimal lighting for photos.

6. CHARGING

The WUBEN E1 is equipped with a USB Type-C port for convenient and fast charging.

1. Connect the provided USB Type-C cable to the charging port on the WUBEN E1.
2. Connect the other end of the cable to a USB power source (e.g., wall adapter, computer USB port, power bank).
3. The indicator light will show red during charging and turn blue when charging is complete.

A full charge typically takes approximately 50 minutes. The maximum battery life is up to 70 hours in 'Low' mode.

TYPE-C FAST CHARGING

It only takes 50 minutes to fully charge, and the maximum battery life is up to 70 hours.

Charging

Charging completed

7. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the light. Avoid using abrasive cleaners or solvents.
- **Storage:** Store the WUBEN E1 in a cool, dry place when not in use. If storing for an extended period, ensure it is partially charged to prolong battery life.
- **Water Resistance:** The WUBEN E1 has an IP65 rating, meaning it is protected against dust ingress and low-pressure water jets from any direction. It is not designed for submersion.

Image 7.1: The WUBEN E1 demonstrating its high Color Rendering Index (CRI) of 90+, which helps restore true colors in photography.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	Low battery.	Charge the device using the provided USB Type-C cable.
Light does not turn on.	Control dial not pressed long enough.	Press and hold the control dial for 1-2 seconds to power on.
Magnetic attachment is weak or light falls off.	Phone/case is not MagSafe compatible or magnetic ring is not properly installed.	Ensure your phone or case is MagSafe compatible. If not, use the included magnetic suction ring and ensure it is firmly and centrally attached to your phone or case.
Light does not charge.	Faulty cable or power source.	Try a different USB Type-C cable or power adapter. Ensure connections are secure.
Brightness or color temperature cannot be adjusted.	Device is off or controls are not being used correctly.	Ensure the device is powered on. Rotate the dial for brightness, press the dial for color temperature.
