3. SETUP

3.1 Initial Charging of the Power Bank

1. Before first use, fully charge your miisso portable charger.
2. Connect the provided USB charging cable to the Type-C input port on the power bank.
3. Plug the other end of the USB charging cable into a compatible USB wall adapter (not included) or a computer's USB port.
4. The battery indicator lights will illuminate to show the charging progress. Once all indicator lights are solid, the power bank is fully charged.

3.2 Checking Battery Level

Press the power button once to check the current battery level. The LED indicator lights will show the remaining charge.

4. OPERATING INSTRUCTIONS

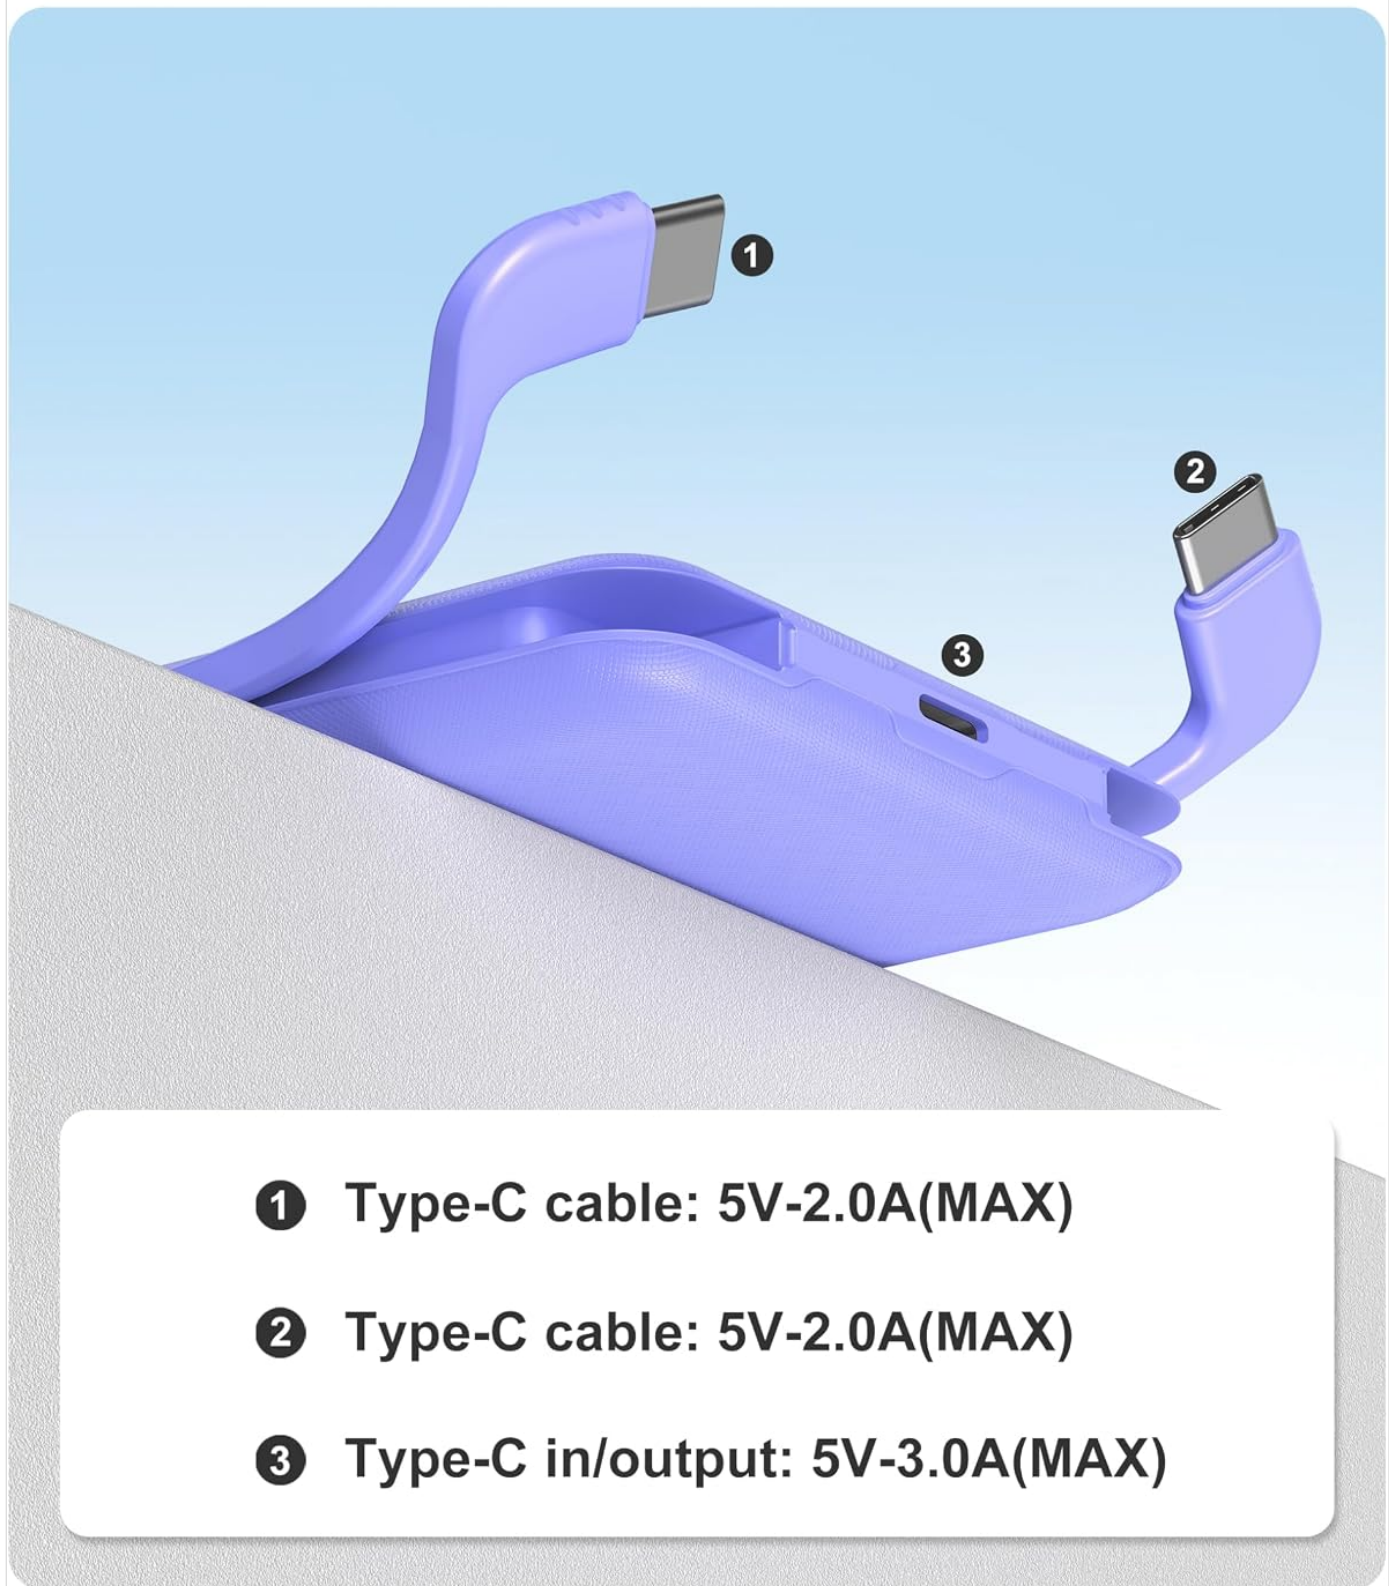

4.1 Charging Your Devices

The miisso portable charger offers versatile charging options:

- **Using Built-in Type-C Cables:** Gently pull out one of the two built-in Type-C cables from the side of the power bank. Connect the cable directly to your compatible device (e.g., iPhone 15/16/17, Android USB-C phone, iPad).
- **Using External Type-C Port:** For devices requiring a different cable or if both built-in cables are in use, connect your device's charging cable to the external Type-C output port on the power bank.

The power bank will automatically begin charging your device. You can charge up to three devices simultaneously using the available output options.

5. MAINTENANCE

- Keep the power bank away from water, fire, and extreme temperatures.

- Avoid dropping or subjecting the device to strong impacts.
- Clean the device with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- When not in use for extended periods, store the power bank in a cool, dry place and recharge it every 3-6 months to maintain battery health.
- Ensure the built-in cables are properly tucked away when not in use to prevent damage.

6. TROUBLESHOOTING

- **Device not charging:**
 - Ensure the power bank is sufficiently charged.
 - Check that the charging cable is securely connected to both the power bank and your device.
 - Verify that your device is compatible with the Type-C cables.
- **Power bank not charging:**
 - Ensure the USB charging cable is properly connected to a working power source.
 - Try a different USB wall adapter or USB port.
- **Slow charging:**
 - Ensure you are using a compatible cable and adapter.
 - Charging multiple devices simultaneously may reduce individual charging speeds.
