Moman H2EG4

Moman G4 Interchangeable Shells for H2E Intercom Instruction Manual

Model: H2EG4

INTRODUCTION

The Moman G4 Interchangeable Shells are designed to customize the appearance of your Moman H2E Intercom. This kit includes two US Flag pattern shells and two Dark Green pattern shells, allowing you to personalize your intercom unit. These shells are made from durable plastic and are specifically compatible with the Moman H2E Intercom model.

Personalised Multi-colours

PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- Moman G4 Interchangeable Shell (US Flag Pattern) x 2
- Moman G4 Interchangeable Shell (Dark Green Pattern) x 2

SETUP AND INSTALLATION

Follow these steps to replace the shells on your Moman H2E Intercom unit:

1. **Prepare the Intercom:** Ensure your Moman H2E Intercom unit is powered off before beginning the installation process.
2. **Remove Existing Shell:** Gently locate the edges of the currently installed shell on your H2E Intercom. Apply slight pressure and carefully pry the shell off. It is designed to be removable.
3. **Align New Shell:** Take one of the Moman G4 interchangeable shells (US Flag or Dark Green) and align its clips with the corresponding slots on the Moman H2E Intercom unit.

4. **Attach New Shell:** Press the new shell firmly onto the intercom unit until you hear a click, indicating it is securely fastened. Ensure all clips are engaged and the shell sits flush with the intercom body.

MAINTENANCE

To ensure the longevity and appearance of your Moman G4 Interchangeable Shells, follow these maintenance guidelines:

- **Cleaning:** Wipe the shells with a soft, damp cloth to remove dust and dirt. Avoid using abrasive cleaners or solvents, as these can damage the plastic and printed patterns.
- **Storage:** When not in use, store unused shells in a clean, dry place away from direct sunlight and extreme temperatures to prevent discoloration or warping.
- **Water Resistance:** These shells are not water-resistant. Avoid prolonged exposure to water.

TROUBLESHOOTING

If you encounter any issues during the installation of your Moman G4 Interchangeable Shells, consider the following:

- **Shell Does Not Fit:** Ensure you are attempting to install the shells on a **Moman H2E Intercom**. These shells are specifically designed for this model and may not fit other intercom units.
- **Shell Feels Loose:** Re-check the alignment of the clips and slots. Apply firm, even pressure until the shell clicks into place. If it still feels loose, inspect the clips on both the shell and the intercom for any damage.

SPECIFICATIONS

Brand	Moman
