MAINTENANCE

To ensure the longevity and optimal performance of your SIXWIN autoradio, follow these maintenance tips:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents that could damage the surface.
- **Temperature:** Avoid exposing the unit to extreme temperatures, both hot and cold, for extended periods.
- **Moisture:** Keep the unit dry. Do not expose it to water or excessive humidity.
- **Software Updates:** Check the manufacturer's website periodically for any available software updates to improve performance and add new features.

TROUBLESHOOTING

If you encounter issues with your autoradio, refer to the following common problems and solutions:

- **No Power:** Check the power cable connections and the 10A fuse on the rear panel. Ensure your vehicle's ignition is on.
- **No Sound:** Verify speaker connections. Check volume settings on the unit and ensure no audio source is muted.
- **Bluetooth Connectivity Issues:** Ensure Bluetooth is enabled on both the autoradio and your smartphone. Try unpairing and re-pairing the devices.
- **CarPlay/Android Auto Not Connecting:** For wired connections, ensure the USB cable is functional and properly connected. For wireless, check Wi-Fi and Bluetooth settings on your phone and the unit.
- **Poor Radio Reception:** Check the radio antenna connection. Ensure the antenna is properly installed and not obstructed.
- **Screen Unresponsive:** Try restarting the unit. If the issue persists, a factory reset might be necessary (consult the full manual for instructions).

For persistent issues not covered here, please contact customer support.
