EWEADN TK950

EWEADN TK950 Wireless Mechanical Typewriter Keyboard User Manual

Model: TK950 | Brand: EWEADN

INTRODUCTION

The EWEADN TK950 is a versatile 104-key mechanical typewriter-style keyboard designed for a seamless user experience across multiple devices. It features three connection modes: Bluetooth 5.0, 2.4GHz wireless, and USB-C wired, allowing connection to up to five devices simultaneously. With its retro aesthetic, durable metal panel, and vibrant white backlighting with 19 effects, the TK950 combines classic design with modern functionality. This manual provides detailed instructions for setting up, operating, maintaining, and troubleshooting your keyboard.

PACKAGE CONTENTS

Upon opening the package, please verify that all the following items are included:

- 1 x EWEADN TK950 Keyboard
- 1 x USB Cable (for charging and wired connection)
- 1 x User Manual (this document)

SETUP

1. Charging the Keyboard

The TK950 keyboard is equipped with a 2000mAh Lithium Ion battery. Before first use, or when the battery is low, connect the provided USB-C cable to the keyboard's USB-C port and the other end to a USB power source (e.g., computer USB port, wall adapter). The keyboard supports charging while in use. A full charge provides approximately 15 days of battery life, depending on usage and backlight settings.

Figure 2: Charging the TK950 keyboard via USB-C, highlighting its smart power-saving features and 2000mAh battery.

2. Connection Modes

The TK950 offers three versatile connection modes:

1. **Bluetooth Mode (BT1, BT2, BT3):** Connects wirelessly to up to three Bluetooth-enabled devices.
2. **2.4GHz Wireless Mode:** Uses a dedicated USB dongle for wireless connection.
3. **USB-C Wired Mode:** Connects directly via the USB-C cable.

You can switch between these modes and connected devices by pressing and holding the **FN** key combined with the corresponding number keys (1/2/3/4/5).

2.1. Bluetooth Connection (FN + 1/2/3)

1. Ensure the keyboard is powered on.
2. Press and hold **FN + 1** (or **FN + 2**, **FN + 3**) for 3-5 seconds until the indicator light flashes rapidly, indicating pairing mode.
3. On your device (computer, tablet, smartphone), enable Bluetooth and search for "TK950".
4. Select "TK950" from the list of available devices to pair. The indicator light will stop flashing once connected.
5. Repeat for other Bluetooth channels (BT2, BT3) to connect to additional devices.

2.2. 2.4GHz Wireless Connection (FN + 4)

1. Insert the 2.4GHz USB dongle into an available USB port on your computer.
2. Press and hold **FN + 4** on the keyboard. The keyboard will automatically connect to the dongle. This is a plug-and-play connection, requiring no additional drivers.

2.3. USB-C Wired Connection (FN + 5)

1. Connect the provided USB-C cable to the keyboard's USB-C port.
2. Connect the other end of the USB-C cable to a USB port on your computer.
3. Press and hold **FN + 5**. The keyboard will automatically switch to wired mode. This mode also supports charging the keyboard.

OPERATING INSTRUCTIONS

1. Key Functions and Anti-Ghosting

The TK950 features 104 keys with anti-ghosting technology, ensuring that all key presses are registered accurately, even when multiple keys are pressed simultaneously. This is particularly beneficial for fast typing and gaming.

Function Key Combinations:

- **FN + F1-F12:** Access 12 multimedia keys for quick control of media playback, volume, and other functions.
- **FN + ESC:** Reset backlight effects to default settings.
- **FN + Win:** Lock or unlock the Windows key to prevent accidental presses during gaming.
- **FN + Up/Down Arrow:** Adjust backlight brightness.
- **FN + Left/Right Arrow:** Adjust backlight breathing speed.

Upgraded Double-layer Leg

2. Backlight Effects

The TK950 features a unique white light design with 19 preset light effects, including 14 basic lighting effects and 5 game-specific lighting effects.

- **Change Lighting Effects:** Press **FN + INS** to cycle through 14 basic lighting effects.
- **Game Lighting Effects:** Press **FN + 6/7/8/9/0** to activate 5 different game lighting effects.
- **Adjust Brightness:** Use **FN + Up Arrow** to increase brightness and **FN + Down Arrow** to decrease brightness (5 levels).
- **Adjust Speed:** Use **FN + Right Arrow** to increase breathing speed and **FN + Left Arrow** to decrease breathing speed.

3. Mechanical Blue Switches and Ergonomics

The TK950 is equipped with highly-durable mechanical blue switches, known for their tactile feedback and crisp click sound. These switches respond quickly and precisely. The keyboard also features stepped floating keycaps that conform to your fingertips and ergonomic foot support, reducing typing fatigue and enhancing comfort during extended use.

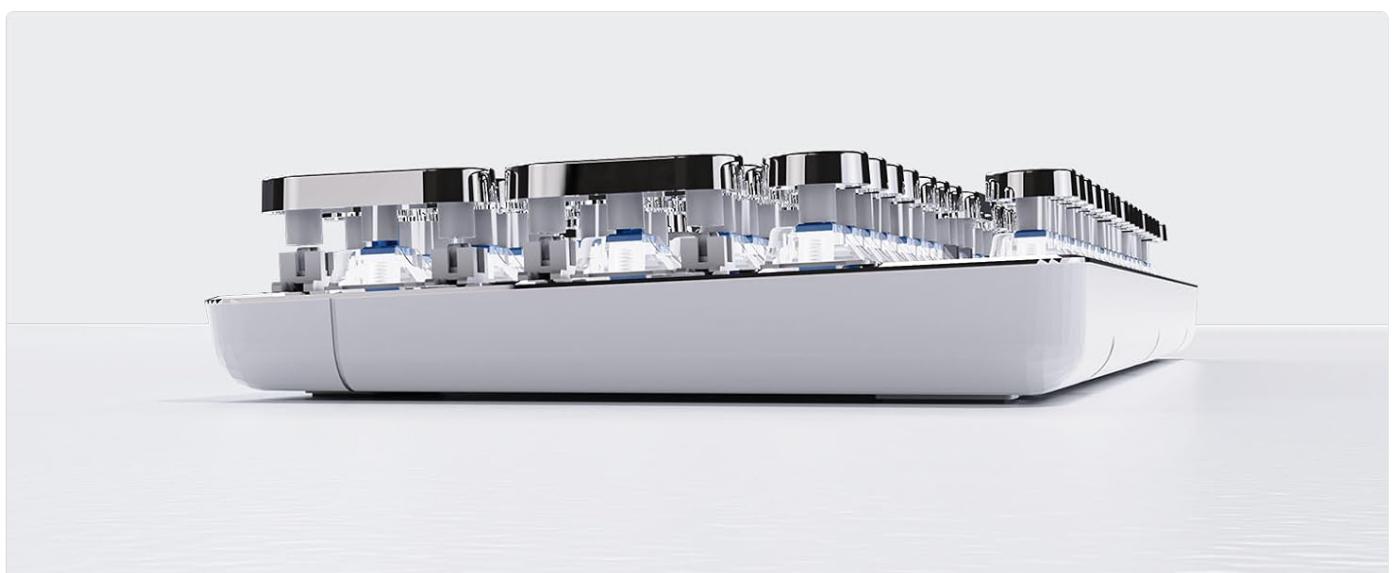

Figure 7: Upgraded double-layer legs provide adjustable typing angles for improved ergonomics.

MAINTENANCE

To ensure the longevity and optimal performance of your EWEADN TK950 keyboard, follow these maintenance guidelines:

- Cleaning:** The metal panel is designed to be easy to clean. Use a soft, dry cloth to wipe down the surface regularly. For dust or debris between keycaps, use compressed air. For stubborn stains, a slightly damp cloth can be used, ensuring no liquid enters the keyboard.
- Battery Care:** To maximize battery life, avoid fully discharging the keyboard frequently. If storing the keyboard for an extended period, charge it to about 50% before storage.
- Storage:** Store the keyboard in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter any issues with your EWEADN TK950 keyboard, please refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Keyboard not connecting via Bluetooth.	Not in pairing mode, device Bluetooth off, interference.	Ensure keyboard is in pairing mode (FN + 1/2/3 , rapid flashing light). Check device Bluetooth settings. Move closer to the device. Try another Bluetooth channel.
2.4GHz wireless not working.	Dongle not inserted, incorrect mode, driver issue.	Ensure USB dongle is fully inserted. Press FN + 4 . Try a different USB port. Restart your computer.
Backlight not working or flickering.	Low battery, backlight turned off, software glitch.	Charge the keyboard. Press FN + Up Arrow to increase brightness. Press FN + ESC to reset backlight.
Keys not responding.	Low battery, connection issue, physical damage.	Charge the keyboard. Re-establish connection (Bluetooth, 2.4GHz, or wired). If problem persists, contact customer support.

If the issue persists after trying these steps, please refer to the Warranty and Support section for further assistance.
