2. Setup and Installation

The ELUKHT Bathroom Wall Cabinet is designed for wall-mounted installation. Due to its lightweight nature, it is easy to fix securely to most standard bathroom walls. Ensure you have the necessary tools before beginning installation.

2.1 Required Tools (Not Included):

- Drill
- Measuring Tape
- Level
- Pencil
- Screwdriver

2.2 Installation Steps:

1. **Measure and Mark:** Determine the desired height and position for the cabinet on your wall. Use a measuring tape and pencil to mark the drilling points for the mounting hardware. Refer to the

cabinet's dimensions for accurate placement.

2. **Drill Holes:** Using a drill, create holes at the marked points. Ensure the drill bit size matches the wall anchors provided (if any) or suitable for your wall type.
3. **Insert Anchors:** Insert appropriate wall anchors into the drilled holes.
4. **Mount Cabinet:** Carefully lift the cabinet and align its mounting points with the installed anchors. Secure the cabinet to the wall using screws, ensuring it is level and stable.
5. **Final Check:** Gently test the cabinet's stability to ensure it is firmly attached to the wall before placing items inside.

3. Operating Instructions

3.1 Using the High-Definition Mirror:

The cabinet features a high-grade, high-definition mirror designed to provide a clear and distortion-free reflection. Use the mirror for daily grooming and personal care routines.

3.2 Utilizing Storage Space:

The interior of the cabinet includes adjustable shelves. To customize your storage, carefully remove the shelves and reposition them into the desired slots. This allows you to accommodate various sizes of

bathroom necessities, from tall bottles to smaller items.

4. Maintenance and Care

Regular maintenance will help preserve the appearance and functionality of your ELUKHT Bathroom Wall Cabinet.

4.1 Cleaning the Mirror:

- Use a soft, lint-free cloth and a non-abrasive glass cleaner.
- Spray the cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into edges.
- Wipe the mirror surface gently until clean and streak-free.

4.2 Cleaning Cabinet Surfaces:

- Wipe cabinet surfaces with a soft, damp cloth and a mild, non-abrasive cleaner.
- Avoid harsh chemicals or abrasive cleaning tools, as these can damage the finish.
- Dry all surfaces immediately after cleaning to prevent water spots and moisture damage, especially in the bathroom's steam environment.

4.3 General Care:

- Ensure the cabinet doors close properly to protect contents from dust and moisture.
- Avoid placing excessively heavy items on shelves to prevent bowing or damage.

5. Troubleshooting

If you encounter any issues with your cabinet, refer to the following common troubleshooting tips:

- **Mirror Appears Cloudy or Streaky:** Ensure you are using a clean, lint-free cloth and a suitable glass cleaner. Avoid over-applying cleaner directly to the mirror.
- **Cabinet Feels Loose on Wall:** Re-check the mounting screws and wall anchors. Tighten any loose screws. If the issue persists, the wall anchors may need to be replaced or reinforced.
- **Shelves Are Not Stable:** Ensure the adjustable shelves are correctly seated in their support slots. If they are wobbly, remove and reinsert them, ensuring they are level.
- **Door Does Not Close Properly:** Check for any obstructions preventing the door from closing. Inspect hinges for damage or misalignment.
